DISCLAIMER – IMPORTANT NOTICE

Kindly take note that this prospectus is aimed at prospective postgraduate students wishing to apply for a place at the University of the Free State (UFS) and who wish to start their studies at the UFS during the 2024 academic year. The prospectus accordingly describes and outlines the programmes and services offered by the UFS, as well as the minimum admission requirements for each programme, but must be read together with the policies, rules, and regulations of the UFS (as may be amended from time to time). To be considered for selection in a programme, an applicant is required to comply with the programme's minimum admission criteria in respect of the requirements (as determined per programme), and the faculty/department's specific requirements.

The UFS makes every effort to ensure that the information provided in this prospectus is accurate and up to date at the time of going to press. However, it may be necessary for the UFS to make some changes to the information presented in the prospectus following publication – for example, where it is necessary to reflect changes in policy, practice, or theory, or if an accrediting body necessitates requirements to be amended. Furthermore, certain programmes may only be offered if there is a sufficient number of applicants.

The UFS undertakes to implement all reasonable steps to provide the services (including, but not limited to, the presentation of the programmes) described in the prospectus. It does not, however, guarantee the provision of such services or the presentation of any or all programmes described herein. Should circumstances beyond the control of the UFS interfere with its ability to provide the services or presentation of any programme described herein, the UFS undertakes to use all reasonable steps to minimise any disruption to the services.

Furthermore, the UFS reserves its right to make amendments to admission requirements if and when necessary. It reserves the right to withdraw, wholly or in part, the delivery of programmes. Applicants for, and students in affected programmes will be informed in advance of the commencement of their studies for the academic year concerned.

The University of the Free State (UFS) is committed to providing new opportunities, potential for employment, and a brighter future for our graduates through our educational offerings. South African employment trends show that job opportunities for postgraduates are increasing compared to the employment opportunities for first-qualification graduates. Students who enrol for postgraduate studies at the UFS will experience the following benefits after completion of the degree:

- strengthening your competitiveness in a complex and demanding job market
- deepening your knowledge and skills in a specific field
- learning to conduct research that will increase your capacity to access, understand, and apply new knowledge
- increasing your adaptability and resilience in a fast-changing global workplace.

The UFS is a meeting place for students from around the globe who wish to educate themselves beyond a first degree.

The university employs world-leading academics and researchers to supervise and train our postgraduate students, we invest in infrastructure, laboratories, and equipment that enable and support novel and ground-breaking research, and we create a stimulating intellectual environment by arranging and taking part in discussions, workshops, seminars, and conferences.

This prospectus contains all the critical information required by a prospective postgraduate student considering studies at the UFS. The prospectus also attends to the information needs of international postgraduate students, whose presence on our campus enriches both our social and academic life.

We invite you to take part in this incredible journey of discovery and to become part of an intellectual community of postgraduate students seeking advanced knowledge and skills in preparation for future employment in South Africa and far beyond its borders.

Welcome to our new postgraduate students! We are looking forward to guiding you on this enriching journey.

MESSAGE FROM THE DIRECTOR OF THE CENTRE FOR GRADUATE SUPPORT

A big and warm welcome to all the postgraduate students who desire to join the University of the Free State. Your experience at the UFS will not only cause you to accumulate more knowledge but also result in you developing tremendously as a human being (socially, psychologically, physically, and intellectually). Just like the big jump from high school education to undergraduate studies, the move from undergraduate studies to postgraduate studies (or even from master's to doctoral studies) has the potential to be both challenging and rewarding. This leap requires certain traits to be adopted to ensure the successful completion of your academic studies.

Unlike undergraduate studies – where you spend almost your entire undergraduate academic life in the comfort of fellow students and academic staff members providing guidance – in most cases, postgraduate student life requires self-drive. It could be void of any social support you may have been accustomed to. This is where the Centre for Graduate Support comes in. Our mandate is to create an enabling environment for postgraduate students to excel in pursuing their academic quests. The Centre for Graduate Support provides additional support to that offered by faculties and departments – in the form of workshops, courses, and other presentations that equip students with the requisite skills for the successful completion of their postgraduate education.

These workshops/courses are offered online and on various UFS campuses. They are also available in various provinces and neighbouring countries where we have many postgraduate students when conditions allow. The aim is to reach as many postgraduate students as possible without the students having to incur further travel and accommodation costs.

The workshops/courses we offer aim to broaden postgraduate students' knowledge of research processes/methods, which will positively influence throughput, publications, and the quality of postgraduate research produced. The topics covered in presentations include, but are not limited to, academic writing, proposal writing, qualitative and quantitative research methodology, statistical analysis, and writing articles from your thesis.

The Centre for Graduate Support is also strengthening its online offerings so that students can access necessary academic material from anywhere in the world. A number of these workshops/courses are available as webinars. This means that our students can join from any part of the world. In addition, we are strengthening our online postgraduate forum where postgraduate students can share ideas and experiences that will be enriching to fellow students.

On top of our research capacity-building endeavours, we assist postgraduate students (especially research master's and PhD students) with funding information. We provide information on funding bodies that students can approach, including the UFS, NRF, and other bodies. We collaborate with other funding bodies to enable our students to access the required funding information; we also meet funding requirements for prestigious bursaries and fellowships. The Centre for Graduate Support issues a quarterly newsletter on available funding opportunities for students and junior staff.

The Centre for Graduate Support coordinates postgraduate applications, admissions, and enrolments in collaboration with faculties. We support faculties during registration by updating admission statuses per the faculty requests for those students intending to pursue postgraduate studies at the University of the Free State.

We also coordinate the submission of theses for research master's and doctoral students at the university. Our support to the faculties ensures that the thesis/dissertation examination processes adhere to the expected quality assurance processes.

The Centre for Graduate Support is keen to keep in touch with the postgraduate student body. We work closely with our Postgraduate Student Council, which offers various academic and social activities to assist with adaptation and integration into campus life. The Centre for Graduate Support is situated in the Johannes Brill Building on the Bloemfontein Campus. We urge all postgraduate students to attend our social functions as and when they are advertised and to pop in and say hello. Let us have your current contact details so that we can inform you of our various offerings. Let the Centre for Graduate Support smooth your passage as you negotiate the academic trail at the University of the Free State.

If you cannot personally come to the Johannes Brill Building, please contact us using the email address postgrad@ufs.ac.za. You can also use the same email address to send us your updated contact details.

BLOEMFONTEIN CAMPUS

Visit our Bloemfontein Campus:

205 Nelson Mandela Drive | Park West | Bloemfontein | www.ufs.ac.za | T: +27 51 401 9111

The Bloemfontein Campus dates back to 1904, making our university one of the oldest higher-education institutions in the country. The Main Building, and other buildings of historic and architectural importance, portrays the calm though vibrant atmosphere appropriate to an academic institution of more than 114 years old.

It is a vast campus where staff and students are encouraged to walk while enjoying the beautiful buildings, parks, lawns, artwork, and other facilities. Every effort has been made to make the campus user- and experience-friendly, including braille-guided areas for blind students, and additional ramps and elevators for students with disabilities.

When on the campus, stop and rest under one of the shady trees. You will find that many of the benches represent artwork by **Azwifarwi Ragimana**, a famous South African artist. Walk through the Thakaneng Bridge and the Student Centre where you will find a range of takeaway shops, KowsieFM – the campus radio station, stationery, and bookshops. The swanky KowsieGear shop offers visitors and students exciting Kowsie merchandise.

Our Bloemfontein, South, and Qwaqwa Campuses are immaculately maintained and provide a safe and secure environment for the more than 41 000 students who study here. Through an active programme of sports, cultural, and social events, our students are also given the opportunity to develop into competent and compassionate future leaders.

Student accommodation is very popular, and our residences are within walking distance of all facilities. Our Bloemfontein Campus is regarded as one of the most integrated campuses in South Africa, with a very diverse group of students.

The campus is situated in one of the main roads passing through Bloemfontein, Nelson Mandela Drive, and is within walking distance of shopping centres, schools, and other places of interest.

QWAQWA CAMPUS

Visit our Qwaqwa Campus:

Kestell Road | Phuthaditjhaba | www.ufs.ac.za | T: +27 58 718 5000

Situated in the scenic sandstone mountains of Phuthaditjhaba in the Eastern Free State, our Qwaqwa Campus attracts students from across the continent, with the majority from the Eastern Free State and western KwaZulu-Natal.

This campus offers programmes in the Faculties of the Humanities, Education, as well as Natural and Agricultural Sciences, with postgraduate teaching in various centres of excellence. Our main consideration is that the learning programmes, research, academic interventions, and community service-learning opportunities are socially and educationally responsive to the region. The on-campus research hubs produce valuable knowledge, much of which has a local focus.

With the influx of postgraduate students from around the globe, the Qwaqwa Campus is among the fastest-growing rural campuses in South Africa. To address the recent growth spurt, existing buildings were renovated, the infrastructure updated, and new buildings added. The huge investment in infrastructure makes it one of the best-equipped rural campuses, with a spacious layout, modern lecture theatres, and comfortable residences.

Various male, female, and day residences accommodate students' living, learning, and social needs, with floodlit stadia, athletic tracks, and netball and basketball courts catering for sports talent and aspirations.

VISION 130

*For tomorrow belongs to
the people who prepare
for it today. ”*

The wisdom contained in this African proverb rings true through the ages, echoing in all sectors of society, reverberating in local, regional, and global contexts.

At the University of the Free State, we have a clear vision of where we want to be within the next few years leading up to the year 2034, when the university will be 130 years old. This vision is encapsulated in our Vision 130, which expresses our intent and commitment to be acknowledged by our peers and society as a top-tier university in South Africa, ranked among the best in the world.

Equally important to this clear vision is our strategy on how to turn vision into reality. We are focused on consistently renewing and reimagining ourselves in order to effectively impact the communities that surround us. We aim to do this by building on our enduring strengths and successes, established and honed since our inception in 1904. We are proud of our consistent growth in student success, brought about by a holistic approach to student development, our continued contribution to scarce skills areas in our country and our region, and our increasing curricular relevance and graduate employability. We are consistently improving our research productivity and expanding our number of leading researchers, with distinctive research areas that are continuously developing.

We want to build on these solid foundations by increasing our number of postgraduate students, recruiting the best students and scholars from diverse backgrounds, cultivating and expanding cherished partnerships with our wide range of stakeholders, and making maximum use of new and existing technologies to enhance the quality of learning, teaching, research, and business processes. Academic excellence, quality, and impact lie at the centre of our vision. So does maximum societal impact through sustainable relationships, as well as a diverse, inclusive, and equitable university culture.

We are setting our sights and strategy high, knowing that our institution has the necessary human capital, resilience, and innovation to grow from strength to strength. With our final destination firmly in focus, we are guided by shining beacons – in the form of the values that we as a university community subscribe to and cherish. Excellence, Innovation and Impact, Accountability, Care, Social Justice, and Sustainability will always shape and inform our institutional culture and provide a framework for our actions and decisions.

Our ultimate mission is to generate and impart new knowledge that impactfully supports societal development.

The future higher education landscape will be characterised by unprecedented change, brought about by technological advancement, increased internationalisation, and a renewed focus on the need to actively and sustainably advance societies around the globe.

It is a future we are boldly and confidently approaching.

Because we are preparing for it today.

UNDERTAKING POSTGRADUATE RESEARCH AT THE UFS

At the UFS, we have made major investments in postgraduate education to attract the best honours, master's, and doctoral students from all over the continent and worldwide. The efforts include research capacitation and assistance with tuition fees for qualifying postgraduate students – from postgraduate diploma to doctoral students.

Research at the UFS centres around the UFS being a research-led university. UFS research concentrates on two international agendas: The Africa We Want and the Sustainable Development Goals. Based on these plans, the research agenda articulates into six themes, namely

- local and regional socio-economic development;
- food security and land reform;
- health and well-being;
- human rights, social justice, and reconciliation; and
- new scientific and industrial challenges.

Each of these themes encompasses our academics' research at the UFS. It requires an interdependent, integrated, and transdisciplinary research approach. We provide research leadership by promoting and supporting research activities to ensure that our faculties achieve excellence in research, scholarship, and innovation. This filters down to our postgraduate students. The seven faculties at our university continue to produce high-quality research that contributes to global knowledge in economics, education, health sciences, natural and agricultural sciences, law, the humanities, and theology and religion.

The University of the Free State provides comprehensive support to postgraduate students to ensure that they achieve success.

The University's Centre for Graduate Support offers much-needed support to postgraduate students by providing opportunities for research skills development. The Centre for Graduate Support offers a variety of workshops and related events aimed at the development of professional research skills. These workshops cover the critical areas of writing skills, research methods, information management, ethical practices, research supervision, project management, theoretical application, intellectual property and legislation, and career development. The Centre for Graduate Support also administers all the UFS bursaries and aims to address postgraduate students' challenges during their studies.

As a postgraduate student, you will be supported, mentored, and supervised by leading professors who are committed to developing your competence and confidence as a new researcher. Within your department and faculty, you will be provided with the training and resources necessary to advance your research, which will result in you compiling a thesis or dissertation. The key person in your development as a researcher remains your supervisor. You will also find that fellow students often become key supporters in your learning, and you are encouraged to use this support during your studies.

As a university, we are responsible for building knowledge markets and platforms of the knowledge society. The university forms partnerships to establish research consortia and research platforms, industry clusters and platforms, creative commons, and open-source platforms. This is an environment where the university and business are increasingly overlapping. The UFS is proud of the newly established advisory boards in each faculty. Through these advisory boards, we aim to understand and address challenges experienced by communities, industries, the private sector, and government.

Ethics are embedded in the research culture of the university. The questions we pose, the methodologies we use to gather data, and how we write up research findings must be informed by the greatest sensitivity to ethical concerns. Being ethical is the foundation of our research agenda.

This university believes that the priority of postgraduate students must be their focus on academic activities rather than worrying about financing their studies. We are therefore committed to postgraduate students and avail resources to support their studies. There is a dedicated office for postgraduate funding opportunities within the Centre for Graduate Support to assist students in identifying sources of finance within and outside the university and preparing successful funding applications. The office manages a rich online database of scholarships, bursaries, and other funding opportunities and will assist postgraduate students throughout their studies.

We create and sustain rich international networks with leading universities and scholars across the globe. Your supervisor will expose you to these networks within which young scholars are placed for purposes of mentorship, socialisation, networking, and growth. We have extensive agreements on institutional, faculty, and departmental level with national and international universities.

These agreements provide for the exchange of researchers, lecturers, and collaborative research projects. The more than 70 partner universities are located in countries including Austria, Belgium, Botswana, Brazil, Canada, China, the Czech Republic, France, Germany, Ghana, India, Israel, Italy, Japan, Mexico, the Netherlands, Norway, Spain, Sweden, Thailand, Zimbabwe, and the USA.

Our research standing and quality attract large numbers of exceptional and talented postgraduate students, both locally and internationally.

Join some of the leading professors in the world as you pursue an advanced degree in your field.

APPLICATION PROCESS

Online application: Visit the website www.ufs.ac.za and follow the link Postgraduate Studies – Online Application to complete and submit your application form. Terms and conditions apply.

NB

Applicants must please contact the relevant faculty in order to complete the departmental application/selection forms as well.

Make sure that your application form is completed correctly and signed before returning it to the UFS. You should expect some form of acknowledgement/feedback from the university within three weeks of sending your application.

- The application process must be completed before arrival at the university for registration. Your details must be captured on the UFS database to facilitate the registration process. For this reason, adherence to closing dates is extremely important.
- Students transferring from other universities must include a certificate of conduct as well as a study record from their previous university with their applications. The closing date for students transferring from other universities may depend on faculties.
- International postgraduate students must attach certified copies of degrees/certificates to their applications. Degrees/certificates that are not certified will delay the processing of applications. In addition, proof of application for a SAQA Certificate of Evaluation relating to all qualifications obtained outside South Africa must be attached.

If your application is successful, you will receive a letter of admission from the Admissions Office. International students will additionally receive a letter from the Office for International Affairs, which serves as a supporting document for your study visa application. Visit the South African embassy/consulate/high commission in your home country with the above letters, as well as your passport, to apply for your visa. Please be advised that your study-permit application can take more than six weeks to be finalised. Please contact the Office for International Affairs should you experience challenges or delays with the visa application process. Comprehensive information on the visa application process is available in the International Student Guide, which you can download at:

CONFIDENTIALITY CLAUSE:

The UFS confirms that all personal information provided on your application form will be treated confidentially and will not be sold to a third party or used for commercial or related purposes.

The UFS further confirms that your personal information will only be used for purposes relating to your potential relationship with the UFS as a student, including but not limited to the processing of your application to study at the UFS, effecting registration at the UFS, and for any communication purposes related to your application and/or registration to study at the UFS.

APPLICATION AND ADMISSION OF INTERNATIONAL POSTGRADUATE STUDENTS

EVALUATION OF FOREIGN QUALIFICATIONS

Postgraduate applicants must have all previous post-school qualifications verified by the South African Qualifications Authority (SAQA). They need to attach proof of application for a SAQA Certificate of Evaluation relating to all qualifications obtained outside South Africa. Postgraduate students may not be able to register without the SAQA verification. Please contact the Office for International Affairs: **Mrs Matladi Tsoeu**, E: tsoeumr@ufs.ac.za | T: +27 51 401 7207, should you experience delays with the SAQA process.

INTERNATIONAL APPLICATIONS

All international students are advised to take note of the following:

Administrative fee: A non-refundable administrative fee is charged on all international student accounts. For more information, visit <https://www.ufs.ac.za/kovsielife/unlisted-pages/tuition-fees/tuition-fees-30>

Closing date: The closing date for applications is **31 August 2023**. Contact the faculty of your intended postgraduate study for more detail. Refer to the section dealing with faculty-specific postgraduate programmes for contact details.

Visa: You must have a valid study visa before you can enter South Africa. Make sure your study visa is issued to study at the UFS and not at any other institution in South Africa. You must have a valid and appropriate/correct visa to be registered at the UFS. Applications may take more than six weeks to process; please contact the Office for International Affairs immediately if you experience any challenges or delays. See below for more information.

Accommodation: You must have a letter from Housing and Residence Affairs confirming accommodation. This letter is required for your visa application to study at the UFS. Contact **Hein Badenhorst** at +27 51 401 3737 or Badenh@ufs.ac.za

Medical Aid: You must be a member of a medical aid registered in terms of the Medical Schemes Act 1998 of South Africa, as required by the South African Immigration Act. Please note that your medical-aid cover **MUST** be valid for the duration of your studies at the UFS. No travel insurance or hospital plans will be accepted. See below for more information.

First payment: A first payment must be made before you can register as a UFS student. The Department of Student Finance will communicate the amount and the payment deadline to you. For further details, visit <https://www.ufs.ac.za/kovsielife/unlisted-pages/tuition-fees/tuition-fees-30>

Scholarships/Bursaries/Sponsorships: If you have a scholarship, inform your sponsor of the UFS regulations on payments before you register and pay tuition fees.

Applicants who are in possession of a degree from non-South African universities, must include the South African Qualifications Authority (SAQA) evaluation letter or proof of application for evaluation to SAQA with their application form. Non-South African certificates/degrees must be assessed by SAQA prior to registering at the UFS. This process can take anything from two to three months. Visit www.saqa.org.za for more information.

STUDY VISAS

If you are a foreign student and wish to study in South Africa, you can apply for a study visa by completing South African Home Affairs Form BI-1738. Study visas must be applied for at VFS Global Centres (<https://www.vfsglobal.com/dha/southafrica/>) at various locations in South Africa or at the nearest South African embassy, mission, or consulate abroad; prospective students are responsible for the payment of the relevant fees. Study visas for studies at a learning institution must be valid for the duration of the study.

The following documents must be submitted with the BI-1738 application form:

- a passport valid for no less than 30 days after intended studies
- payment of the prescribed administrative fee
- confirmation and proof of payment for a South African medical aid through a medical scheme registered with the SA Council for Medical Schemes; the cover must remain valid for the duration of the calendar year
- letter of offer from the university, stating the duration of the degree
- letter of undertaking from the university – this letter is issued by the Office for International Affairs; contact **Ms Jeanne Niemann**: E: niemannja@ufs.ac.za | T: +27 51 401 3219.
- medical and radiological reports (less than six months old)
- yellow fever vaccination certificate, if relevant
- relevant certificates if married, widowed, divorced, or separated
- details regarding arranged accommodation while in South Africa
- proof of sufficient funds to cover tuition fees and maintenance
- a police clearance certificate for the past 12 months or longer since the age of 18.

You are advised to submit the documentation as soon as possible. DO NOT send the documentation to the university. You should keep a copy of your submission and all receipts safe. Please note that it can take longer than six weeks to obtain a study visa.

Please note that the holder of a study visa may conduct part-time work for a period not exceeding 20 hours per week.

SOUTH AFRICAN MEDICAL AID

- In terms of the Immigration Act 13 of 2002 as amended and its regulations, any prospective student in the Republic of South Africa must provide proof of medical cover with a medical scheme registered in terms of the Medical Schemes Act 131 of 1998. Although you might be able to secure a study visa with other types of medical products, whether South African or otherwise, the University of the Free State only accepts South African medical-aid products. To comply with the regulations, the university requires a membership certificate as proof of full medical-aid cover with a South African-registered medical-aid scheme for the full calendar year, until 31 December of that year. (<https://www.medicalschemes.com/medicalschemes.aspx>)
- To avoid unnecessary complications, please make the necessary financial arrangements with the medical-aid provider prior to your entry into South Africa. Should you rely on sponsorship, please make sure that you advise your sponsor of this requirement as soon as you get sponsorship or acceptance. The required medical-aid cover fee must be paid directly to the medical-aid company, separate from the tuition fees. Students will not be allowed to register unless they can show a membership certificate as proof of a valid and comprehensive medical-aid cover for the duration of the academic year (until 31 December); without a clearance certificate, students cannot register at the institution. Students who are members or dependents of a South African-based parent/guardian/spousal/work medical aid, are required to present a recent membership certificate for the annual registration. The membership certificate must reflect active membership for the current year.

OFFICE FOR INTERNATIONAL AFFAIRS

The Office for International Affairs (OIA) serves as the first port of call for all international students at the UFS, providing assistance and specialised administrative support. The principal purpose of the OIA is to enable internationalisation at the UFS. It renders strategic advice on internationalisation and supports the international activities of internal UFS stakeholders. It supports international partnerships, research internationalisation, internationalisation-at-home activities, and student exchanges.

The services include, but are not limited to

- specialised services for international students, and ensuring their compliance with relevant legislation;
- facilitation of international partnerships and advice to internal stakeholders on partnership processes;
- providing practical and emotional support for international students;
- structuring co-curricular internationalisation-at-home activities, such as cultural diversity celebrations;
- supporting co-curricular internationalisation-at-home activities and the social integration of international students; and
- liaison with various external stakeholders, i.e., government, embassies in South Africa, science councils, and funding agencies.

WHERE CAN YOU FIND THE OFFICE FOR INTERNATIONAL AFFAIRS?

Our offices are located on the second floor of the Theology Building on the Bloemfontein Campus and on the second floor of the Intsika Building on the Qwaqwa Campus.

CENTRE FOR GRADUATE SUPPORT

The Centre for Graduate Support serves UFS-registered postgraduate diploma, honours, master's, and doctoral students and supports the university community with services and information resources to reach our postgraduate teaching, learning, research, and community engagement goals. Our support is generally generic, with faculties providing the discipline-specific support that postgraduate students and staff may require.

Through our comprehensive set of generic competency-building Research Capacity Development workshops, we capacitate staff and students through blended learning (online and face to face) workshops. The workshops cover various topics, including research methodology, academic writing, research ethics, research software programs, and research supervision. To reach our off-campus students, we present various international workshops to registered UFS postgraduate students in Lesotho, Namibia, Zimbabwe, and Ghana, and locally in Gauteng, Northern Cape, and the Western Cape.

Our Write Space provides academic writing support to postgraduate students and academic staff, facilitating workshops on academic writing and English language development. The Write Space also facilitates one-on-one writing consultations for postgraduate students. Furthermore, writing skills are developed through the provision of Grammarly, an English language software program available to both staff and postgraduate students at the UFS.

Recognising the importance of funding for postgraduate students, the CGS provides financial support by administering internal and external funding instruments to ensure that postgraduate students pursue and complete their studies within the minimum academic period. The CGS has a dedicated funding office that assists postgraduate students with bursaries and funding.

The CGS GRM online electronic student tracking system tracks the research journey of each UFS postgraduate student, thus enabling deans and HODs to keep track of all their postgraduate students' progress from registration to graduation. Further supporting the GRM tracking system are two postgraduate administrative processes. The Applications, Admissions and Enrolments (AAE) portfolio processes master's, doctoral, and postdoctoral applications, admissions, and enrolments. The Theses/Dissertation submission portfolio is responsible for processing theses and dissertations for examination.

We also support academic and support staff who are pursuing their postgraduate qualifications. This is funded through the UCDG grant and covers expenses related to, e.g., teaching replacements, fieldwork costs, editing costs, tuition fees, etc. There is limited financial support for postgraduate students in terms of fieldwork and congress attendance.

The CGS plays an important role in developing and implementing postgraduate policies at the UFS. We have therefore initiated various organisational processes to harmonise postgraduate administrative processes across the institution. This should result in smoother handling of postgraduate administrative processes.

The background is a deep blue gradient. On the left side, there is a series of concentric, glowing circles. The outermost circle is dashed and white, with small white rectangular pulses along its circumference. Inside this is a solid red circle, followed by several more concentric circles in shades of blue and white, some with small dots or pulses. To the right of these circles, there are faint, light blue circuit-like lines and dots extending across the background. The word "FACULTIES" is written in a large, bold, white sans-serif font, centered horizontally and partially overlapping the glowing circles and circuit lines.

FACULTY-SPECIFIC POSTGRADUATE PROGRAMMES

We have seven different faculties, each with its own specific admission requirements for postgraduate programmes. Within the faculties, different postgraduate programmes may also have additional and/or different admission requirements – especially the selection courses. Make sure that you are aware of the requirements for the programme that you want to study.

POSTGRADUATE DIPLOMA IN HIGHER EDUCATION

Enquiries: Carike Swart | T: +27 51 401 9922 | E: swartgc@ufs.ac.za and Dr S Hotzhausen | E: HoltzhSM@ufs.ac.za

PURPOSE

The purpose of the POSTGRADUATE DIPLOMA IN HIGHER EDUCATION STUDIES is to facilitate the professional development of lecturers at universities, colleges, and private institutions offering higher or post-secondary adult education and training as critical, reflexive practitioners in higher education, by developing their knowledge of Higher Education (HE) as a field of study. Therefore, students wishing to study towards this diploma must be in a teaching and learning position in a higher education institution, because the compulsory assessment to be completed is of a practical nature (i.e., requiring prospective students to be a practising lecturer). Additionally, this qualification demands a high level of theoretical engagement and intellectual independence, enabling working professional educators to involve themselves in advanced reflection and development by means of a systematic survey of current thinking, practice, and research methods.

Admission requirements:

To be admitted to this diploma, a student must be in possession of a relevant qualification on NQF level 7, which implies:

According to HEQSF

- an approved and recognised four-year BEd, or
- a three-year general bachelor's degree capped by a PGCE (or equivalent) /120-credit level-7 Advanced Diploma in Education in a cognate specialisation, or
- a preceding cognate qualification(s) that meets level 7 exit-level outcomes, or
- a preceding qualification(s) approved in exceptional cases by assessment of prior learning, provided that they meet level 7 exit-level outcomes.

Additional requirements

- Minimum of 60% average in preceding degree or 65% in a preceding diploma.
- Students have to be computer and internet literate to be successful in this programme.
- Subject to selection.
- Experience in higher education environment will be required for the PGDip in Higher Education.
- This qualification will only be offered if, at the discretion of the faculty, a sufficient number of enrolments can be secured to render the programme sustainable.

MASTER OF MEDICINE

When considering applying for an MMed, please remember the following:

1. Apply for a position advertised by the Free State Department of Health/NHLS. Posts are advertised at least twice a year.
2. If appointed, the MMed candidate needs to register annually with the UFS and HPCSA.
3. Residence time is calculated from the very first day of registration as a student at the UFS and not from the date of appointment by the Province/NHLS.
4. A limited number of funded and HPCSA-accredited posts are available.

The faculty offers several master's degrees by coursework, master's degrees by way of full dissertation, and doctoral degrees.

MASTER'S DEGREE BY COURSEWORK

The various departments cater for specialisation in Mercantile Law, Private Law, and Public Law. The Free State Centre for Human Rights offers an MPhil in Human Rights.

Details of all programmes are available on the faculty website at www.ufs.ac.za. The Postgraduate Office (contact details above) can be contacted for further information.

Coursework master's degrees consist of a mini-dissertation, a module in Research Methodology, and specific discipline/subject-based modules that must be completed and passed to obtain the degree.

MASTER'S DEGREES BY WAY OF FULL DISSERTATION

The faculty also offers an LLM degree by way of full dissertation. Students admitted to the LLM by way of full dissertation register for a module in Research Methodology and for the dissertation.

Admission requirements for LLM degrees by coursework and full dissertation:

- a. For admission to the Master of Laws degree, a candidate must, subject to 2022 General Rule A72.1, be in possession of an LLB degree or an equivalent Law degree and must have obtained a weighted average of at least 60% in the undergraduate programme. Preferably, candidates must have obtained at least 60% for the final-year research report. If the candidate did not register and pass the research report in the final-year LLB studies, other evidence must be presented of research and writing competencies.

Admission to the Master of Human Rights degree is subject to the UFS General Rules. Specifically, students must

- a. have an honours degree (NQF exit level 8) or equivalent qualification; and
- b. have obtained a weighted average of at least 60%.

Admission to the Master of Human Rights degree is further subject to a selection process.

Be in possession of an LLB degree
Passed with a 60% weighted average
And received 60% for final-year research essay / mini-dissertation

Admission to the Master of Human Rights degree is subject to the UFS General rules. Students must:

be in possession of an honours degree (NQF exit level 8); or
have an equivalent qualification found appropriate to pursue the master's degree; and
have obtained a weighted average of at least 60%.
Admission to the Master of Human Rights is further subject to a selection process.

LLD admission requirements:

LLM
65% weighted average
65% for mini-dissertation in the case of coursework master's

PhD admission requirements:

MA
65% weighted average
65% for mini-dissertation in the case of coursework master's

DOCTORAL DEGREES (PhD or LLD)

The faculty offers two doctoral degrees. Students admitted to doctoral study register for a module in Research Methodology and for the thesis.

Admission requirements:

To be admitted to the LLD, a candidate must have obtained an LLM and a final mark of at least 65%. To be admitted to the PhD, a candidate must have obtained a master's degree and a final mark of at least 65%. A candidate with a final mark of between 60% and 64% in the master's degree, may be admitted at the discretion of the Dean on recommendation of the supervisor.

The faculty may require the applicant to write a language proficiency test at his/her own cost, the results of which will be used in the application assessment process.

The Faculty of Natural and Agricultural Sciences consists of three research areas, namely:

- Natural Sciences,
- Agricultural Sciences, and
- Building Sciences.

For specific admission requirements to study any of the postgraduate diplomas, honours, **master's**, and doctoral degrees, consult the faculty website and the Rulebook of the Faculty of Natural and Agricultural Sciences at: <http://www.ufs.ac.za/nas> or for academic advice, contact the programme director of the specific field of study as indicated below.

STUDENT FEES

All correspondence regarding postgraduate student finances must be addressed to: tuitionfees@ufs.ac.za

For detailed financial information, visit www.ufs.ac.za and follow the links: Students – Student Finance.

Your student number must always be mentioned in all correspondence with the university.

All university fees are determined by the Council and may be amended at any time. The amended amount will be payable on request. Fees are payable in full, irrespective of whether any services rendered by the university are disrupted by circumstances beyond the university's control, such as strikes, student boycotts, public unrest, or any other disruption on campus.

Payments prior to registration:

a. STUDENTS STUDYING BY MEANS OF FINANCIAL AID, e.g., GRANTS, BURSARIES, LOANS, ETC. (SA STUDENTS ONLY)

For more information about financial support, please see www.ufs.ac.za and follow the links: Students – Financial Aid

Students studying with financial aid from recognised and reputable funders are exempted from the first payment after the following conditions have been met:

- Historic debt from the previous year has been paid off.
- The funding must be officially confirmed by the funder. Proof of confirmed funding must be submitted to Student Finance five (5) working days prior to registration. Please email the confirmation letter to tuitionfees@ufs.ac.za
- The funding must cover the full cost of study for the year.

The above excludes the following:

- International students who are studying with the assistance of financial aid are **NOT EXEMPT** from paying the first payment as indicated for SELF-PAYING STUDENTS.
- Students who have applied/appealed for funding but have not yet received funding confirmation, must pay the first payment as indicated for SELF-PAYING STUDENTS, **five (5) working days** prior to registration. Payments will be refunded when funding is confirmed.
- Students with financial aid that **does not cover the full cost of study** for the year, **MUST** pay the first payment as indicated for SELF-PAYING STUDENTS, **five (5) working days prior to registration**.

b. SELF-PAYING and PARTIALLY FUNDED STUDENTS (SA AND INTERNATIONAL STUDENTS)

- First payment is due **five (5) working days prior to registration**. Students will not be able to register until this payment reflects on their tuition fees account.
- Historic debt from the previous year must be paid off.
- Should the total fee for the year be less than the first payment required, the total fee must be paid in full.

For amounts payable as first payments prior to registration, click on the link.

Note: Should a student qualify for an academic merit award, it may be used – partially or fully – to cover the first payment.

Online Credit Card Payments

Payment dates

Tuition and residence fees are calculated per semester. All fees must be paid as follows, regardless of whether or not an account was received. Official account statements are sent to students' **ufs4life** email addresses on a monthly basis. It is the responsibility of the student to supply the university with his/her correct contact details and to make enquiries should he/she not receive an account.

South African students:

- The first payment as indicated must be paid five (5) days prior to registration.
- All fees for the first semester are payable on/before 31 March.
- The tuition-fee account must be settled in full by 31 August.

International students:

- The first payment as indicated on www.ufs.ac.za must be paid five (5) days prior to registration.
- All fees for the first semester are payable on/before 31 March.
- The tuition-fee account must be settled in full by 30 June.

All other fees are payable not later than the end of the month following the month in which the transaction took place as indicated on the account statement, unless specifically stipulated otherwise in the regulations.

UFS Self-help Service

- Students can access their personal tuition-fee account via the UFS Self-help Service.
- Visit www.ufs.ac.za and follow the links: Students–Student Finance–My Account.
- Your username is your student number. The initial password is provided by UFS Information and Communication Technology Services (ICT) by means of an SMS when you register.
- For security reasons, students are advised to change their passwords as soon as possible.

If payments are not made by the due dates

- all academic records will be withheld if the account is in arrears with R2 000 and more; and
- international students with outstanding fees on 1 July will not be allowed to **continue with their second-semester studies**.

Accredited off-campus accommodation

The safety and living conditions of our students are of great importance. Student accommodation is a significant aspect of the success of the UFS; consequently, good quality accommodation is important for each individual student to be successful in their studies. The accreditation process entails a list of primary requirements, drafted with the cognisance of the Mangaung Metropolitan Municipality in terms of off-campus accommodation to which private providers must adhere in order to be accredited by the university. The requirements are in line with the Policy on the Minimum Norms and Standards for Student Housing at Public Universities (Government Gazette 39238, dated 29 September 2015).

For the complete list of accredited student accommodation, visit <https://www.ufs.ac.za/residences> and follow the link to off-campus accommodation. A list of accredited service providers with contact details is available.

LIABILITIES

Accidents

As the university only insures its own risks, it cannot be held liable for accidents that happen to students. It is therefore recommended that students take out personal accident insurance.

Damage to students' personal possessions

The university cannot be held liable for loss or damage to students' personal possessions. Residence students also leave their possessions at their own risk in the residences during the holidays. It is therefore recommended that students insure their possessions. Protect yourself and the property of the university. Any damage and/or theft must be reported to the Protection Services Division. Distinguish between fun and crime and respect other people's property.

Vehicles on campus

It is recommended that students keeping vehicles on campus should take out SASRIA (riot insurance). All students and members of the public who wish to use the roads on campus should purchase an access disk issued by the Protection Services Division of the university. The disc must be displayed on the windscreen.

If you do not have an access permit, you could receive a traffic fine. People using the roads on the university campus or parking on the campus do so at their own risk and the university does not accept responsibility for any accident, loss, or damage. Any damage or theft must be reported to the Security Services Division.
