Remember: Wherever you see this symbol, the accompanying design or design template can be downloaded from the intranet.

# 2.1 School marketing and affiliation brand

## Business School brand

Business School brand – This is the primary brand signature that is clearly linked to the university. It is the primary market-facing signature in any communication pertinent to the faculty.

### Application

- All marketing and market-facing communication
- Administrative documentation
- Advertising
- Stationery
- Office signature
- Promotion articles

## Stacked application

## Department descriptor

All centres, departments and units linked to the faculty – indicated as text locked into the faculty marketing brand.

## Faculty colour formulas

## 2.2 Typography

### Primary typography

The primary alphanumeric typeface is used for all corporate and marketing communication applications, such as stationery, brochures, marketing collateral, signage, etc. Within the context of Leitura Sans, we employ four styles in the font family. The font is selected for its simple, clear, modern, and elegant characteristics.

“The quick brown fox ...” is a sentence that contains all characters.

## 2.2 Typography

### Secondary typography

Arial is used as the font for electronic or digital communication, such as PowerPoint presentations, documents, letters, email contents, and as the website font, where text cannot be set as an image.

Arial is used because it is the closest font to Leitura available on the average computer or digital environment, so the brand font does not default to another online font that does not match the brand image.

## 2.3 Graphic shapes and devices

The general distinction of the basic shapes - utilised for text, image or iconography, is derived from the shape of the shield. The shield has both pointed and rounded corners and is simply the rationale for the combination of pointed and rounded corners of the shapes. These shapes can be pulled and stretched, as well as appear in various colours, depending on the function thereof.

## 2.4 Co-branding

The co-branding relationship depends on whose brand is the primary one. Assuming the university is the primary party, and the secondary party is co-branding with the university, two rules apply:

1. The university brand is first in order of appearance or prominence where more than one brand is involved.
2. The relationship between the branding size of the university's logo and another logo is at most on a scale of 1:1 (university: other) or reduced to 70% (1:0.7) of the university's logo.

# 2.7 Stationery

With faculty stationery, there are three dynamics that differentiate itself from the general marketing stationery, namely:

1. The colour bar at the top must match the faculty colour
2. We use the designated faculty marketing brand
3. The faculty affiliation icon is positioned next to the contact details

The **Arial** font is used throughout in business communication, as well as in the footer.

Examples of stationery shown on this page are:

1. Business card
2. Envelope, back view
3. Envelope, front view
4. Letterhead
5. Letterhead co-branding
6. Compliments card

## 2.8 Advertisements

### Standard A-sized advertisements

- Distinction between general university and faculty-related advertising relies strongly on the use of colour to differentiate.
- The examples on this page explore both image and text-only type print advertisements.
- This design is applicable to **A5-**, **A4-** and **A3-size** portrait adverts.
- The use of colours is limited to the university's corporate colours, namely red (Pantone 187), blue (Pantone 2768), grey (Pantone Cool Grey 8C) and the specific faculty colour.

### Example: Standard A-sized landscape advertisements

The advertisement features a dark blue diagonal overlay on the left side. The main title 'Event on Campus' is in large white font. Below it is the Latin phrase 'Quiscie ndisci qui volor beatissit volorum'. The background shows a group of people in a meeting room. The UFS logo is in the top right corner. At the bottom left, there is a red bar with the website 'www.ufs.ac.za'. The UFS Business School logo is at the bottom right.

## 2.8 Advertisements

### Long horizontal advertisement

- Long horizontal adverts are dealt with in the same manner as other applications in terms of the brand mark, text, grid, and device usage.
- The opportunity exists to make an impact with the headline. Make it a good one.
- Language should suit the language of the selected publication.

### Example: Long horizontal advertisement

### Slim vertical advertisement

- In extreme cases, such as the slim vertical advertisement where space is at a premium, the strip is adjusted to meet the design challenge.
- The strip runs up to the left edge of the advert – freeing up more space in the strip for contact information.
- The right side of the strip is still treated the same as on other marketing material, with the marketing logo lining up on the right side of the strip.

The web address takes priority in the strip. Other contact information can be included in the advertisement itself.

## 2.10 Brochures

This would probably be the most commonly used vehicle for any marketing communication. It is concise, simple, and cost-effective. The standard DL format is preferred, because it conforms to the DIN standard for paper sizes (A6 / A5 / A4 / A2 / etc.) and this means that reproduction optimises paper use and cost.

Where possible, implement the following taglines in your design:

- Quality, impact, care
- Outstanding university experience
- Graduates, thinkers, leaders
- Leading teaching
- Leading success rates
- Global best practice
- Research theory, and teaching
- Highly employable graduates
- We identify potential
- Invested in ubuntu
- Opportunity and growth
- We unleash potential
- Invested in success
- Invested in human happiness
- Character of caring
- Character of diversity

# 2.11 Posters

The poster on this spread explores a few scenarios of typographic messaging and pictorial applications. One should always assess the position of the poster (internal wall or notice board, or perhaps a street-type poster aimed at passing traffic). Different

positions would require different scenarios of layout and text functionality. Internal posters could have more information, smaller type, and more contact information. Street-style posters need concise text and a web address.

### Website home page spotlight

The hero image at the top of the UFS home page and faculty pages.

- The main focus of your photo or design should fall in the area designated as (a) on the diagram. This is the safe area of your spotlight design.
- The 'Read Story' button and heading is contained in the area designated as (b), and therefore your design should avoid placing any important or necessary information in this area. It will most likely be covered by the button and heading if you do.
- The navigation buttons located at the bottom centre of the spotlight, marked as (c), should also be kept in mind when doing your design. Avoid placing any text at the bottom centre.
- Keep in mind that the social media links, indicated as (d), will cover a small portion of your design on the right-hand side of the spotlight.

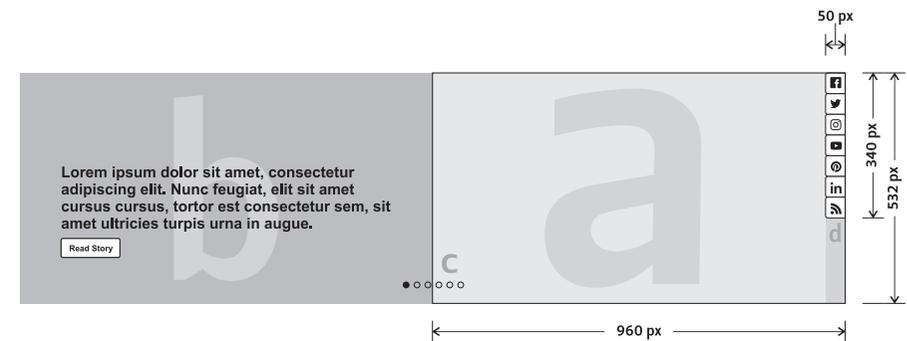

Final artwork should please be supplied as follows:

- JPG image file format
- 1920 pixels wide
- 532 pixels high
- Resolution of 120 dpi
- RGB colour mode

# 2.23 Web resources

## Web documents

All documents uploaded as a resource on the UFS website

- must be in PDF format (for security reasons);
- must be in Arial font, with a recommended font size of 12 points;
- must have a university/faculty/department/unit logo or letterhead centred at the top of the page, which should not be distorted in any way (see examples). Logos and templates can be downloaded from <http://bit.ly/ufsbrand>;
- must contain only corporate font colours (including the faculty colour). This includes graphics; and
- must be professionally language edited before submission (consult <http://bit.ly/ufsstyle>).

## 2.24 PowerPoint presentations

Presentation templates are available electronically. Consistency of the basic elements such as layout, use of the red colour strip, and position of the

applicable brand mark is what will characteristically tie the various presentations together. The PowerPoint template is available on the intranet.
