10.1 South Campus Marketing brand

Correct horizontal application

The marketing brand symbolically expresses 'a state of free thinking'. This is the vehicle through which the university will market its brand and branded programmes, including faculties, units and departments. Importantly, it also functions as a unifying symbol for staff, students and alumni.

10.4 Stationery

With faculty stationery, there are three dynamics that differentiate itself from the general marketing stationery, namely:

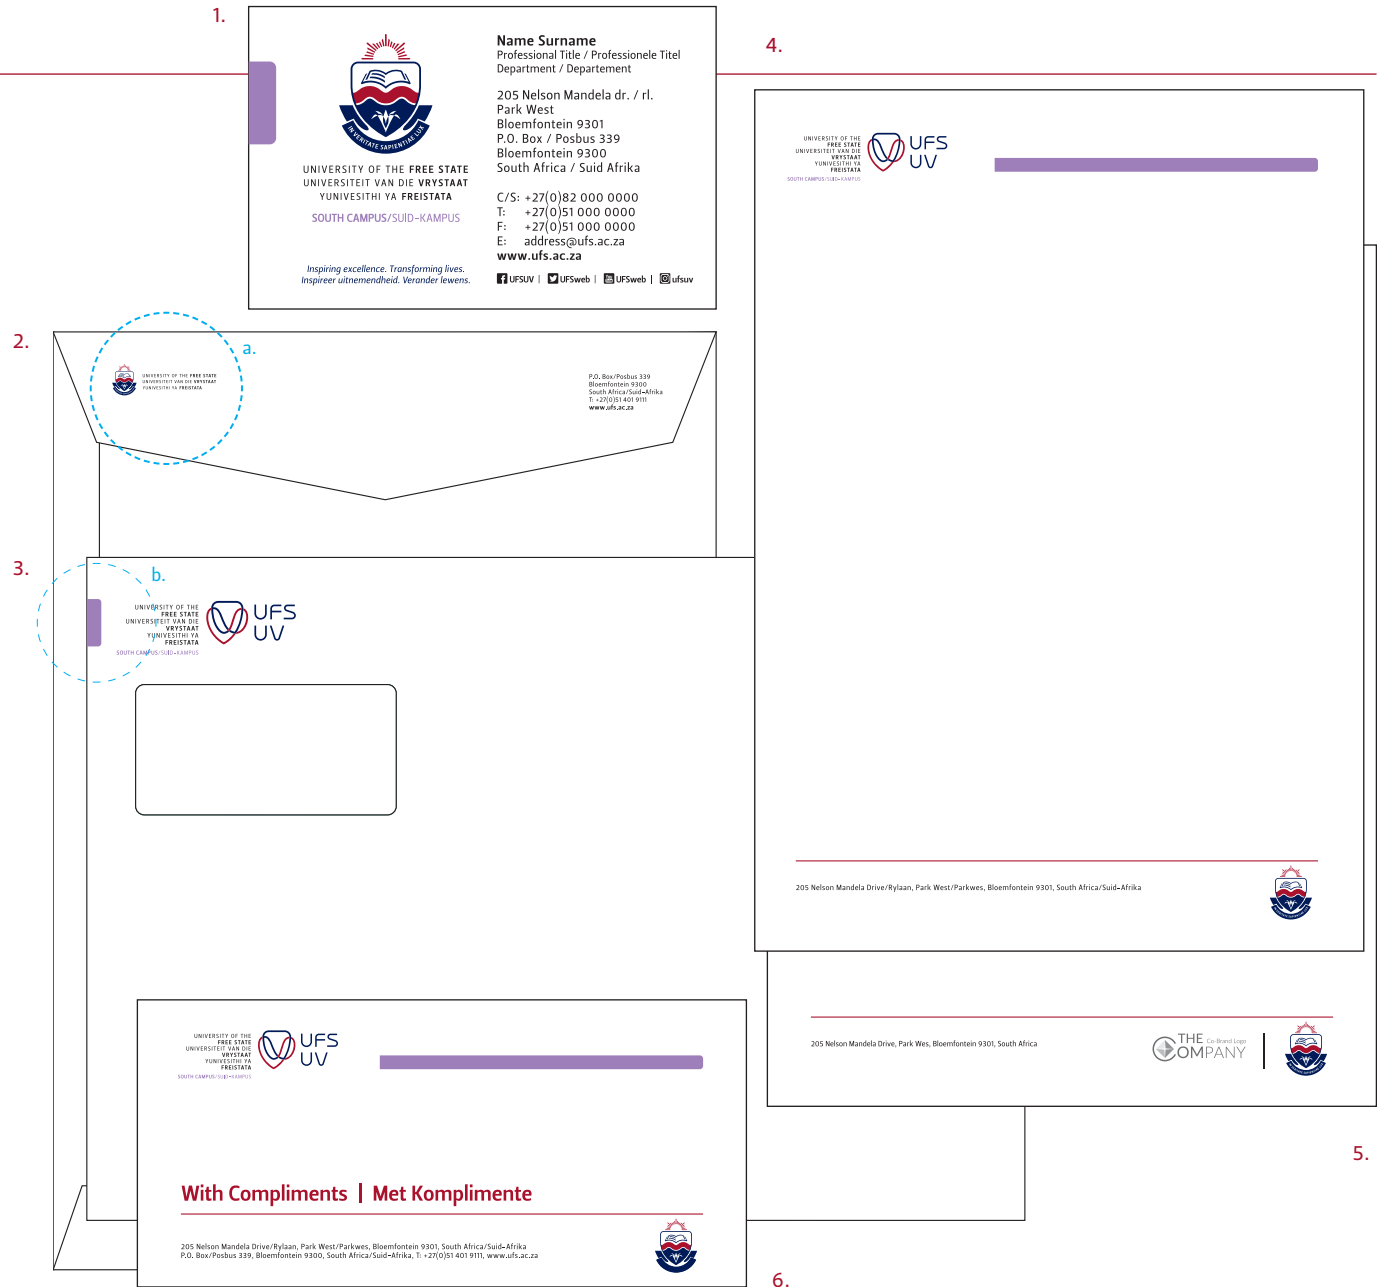

1. The colour bar at the top must match the faculty colour
2. We use the designated faculty marketing brand
3. The faculty affiliation icon is positioned next to the contact details

The **Arial font** is used throughout in business communication, as well as in the footer.

Examples of stationery shown on this page are:

1. Business card
2. Envelope, back view
3. Envelope, front view
4. Letterhead
5. Letterhead Co-branding
6. Compliments card

- a. Academic crest endorsement
b. Colour tab in corporate red on the envelopes

10.6 Advertisements

Standard A-sized advertisements

- Distinction between general university and faculty-related advertising relies strongly on the use of colour to differentiate.
- The examples on this page explore both image and text-only type print advertisements.
- This design is applicable to **A5-**, **A4-** and **A3-size** portrait adverts.
- The use of colours is limited to the university's corporate colours, namely red (Pantone 187), blue (Pantone 2768), grey (Pantone Cool Grey 8C) and the specific faculty colour.

Example: Standard A-sized landscape advertisements

A landscape advertisement for the University of the Free State (UFS UV). The background image shows a large, modern building with a prominent triangular section on the right side, set against a clear blue sky. The building is surrounded by greenery. A purple rectangular box is overlaid on the left side of the image, containing the text 'Lorem ipsum dolor sit amet' in white. Below this box, there is a smaller, semi-transparent white box containing placeholder text. At the bottom of the advertisement, there is a red banner with white text providing contact information: 'T: +27 51 401 9111 | E: info@ufs.ac.za | www.ufs.ac.za' and social media icons for Facebook, Twitter, YouTube, and Instagram. The UFS UV logo and name are also present in the bottom right corner.

Below this box, there is a smaller, semi-transparent white box containing placeholder text. 10.6 Advertisements

Long horizontal advertisement

- Long horizontal adverts are dealt with in the same manner as other applications in terms of the brand mark, text, grid and device usage.
- The opportunity exists to make impact with the headline. Make it a good one.
- Language should suit the language of the selected publication.

Example: Long horizontal advertisement

Lorom ipsum dolor sit amet

Slim vertical advertisement

- In extreme cases, such as the slim vertical advertisement where space is at a premium, the strip is adjusted to meet the design challenge.
- The strip runs up to the left edge of the advert – freeing up more space in the strip for contact information.
- The right side of the strip is still treated the same as on other marketing material, with the marketing logo lining up on the right side of the strip.

The web address and social-media icons takes priority in the strip. Other contact information can be included in the advertisement itself.

Example: Slim vertical advertisement

10.7 Brochures

These would probably be the most commonly used vehicle for any marketing communication. It is concise, simple, and cost-effective. The standard DL format is preferred, because it conforms to the DIN standard for paper sizes (A6 / A5 / A4 / A2 / etc.) and this means that reproduction optimises paper use and cost.

Example: A4 fold to DL-sized leaflet

10.8 Posters

The poster on this spread explores a few scenarios of typographic messaging and pictorial applications. One always needs to assess the position of the poster (internal wall or notice board, or perhaps a street-type poster aimed at passing

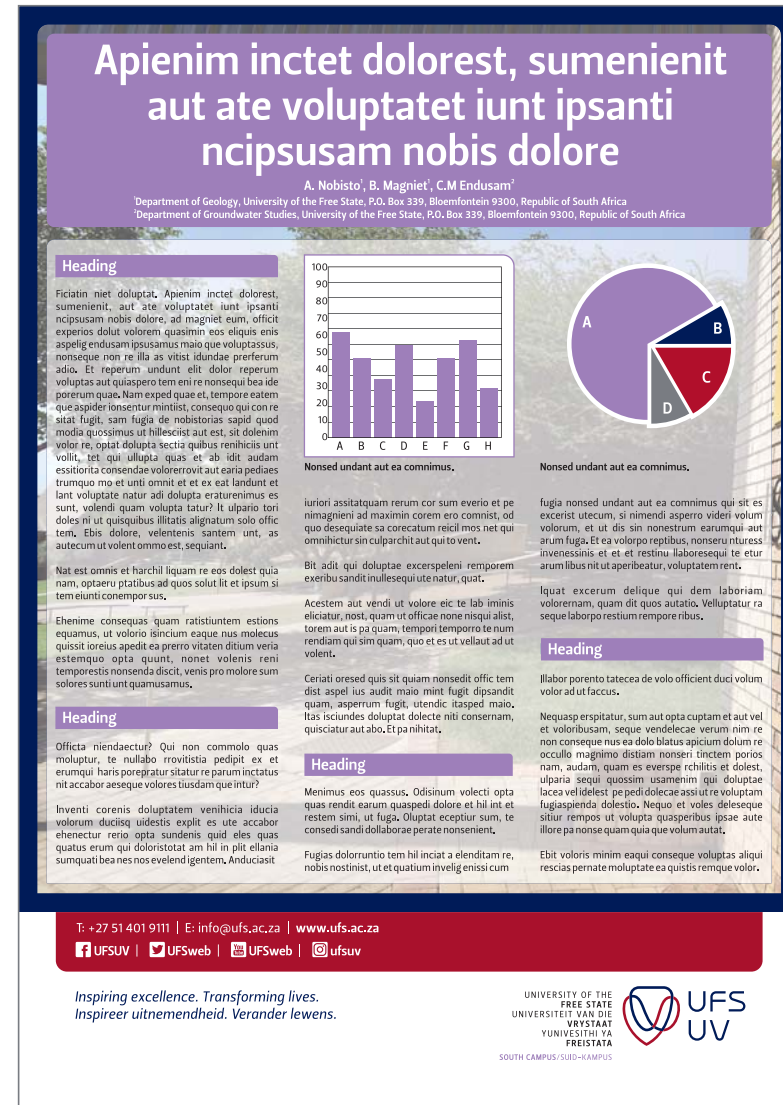

traffic). Different positions would require different scenarios of layout and text functionality. Internal posters could have more information, smaller type and more contact information. Street-style posters need concise text and a web address.

Example: A2-sized poster

Only approved UFS typography is used in the design of posters.

Example: A0-sized academic poster

10.9 Pull-up banners

This is the recommended size for applying the corporate strip on a 850 mm by 2'000 mm sized pull-up banner.

10.10 Teardrop banners

10.11 Feather banners

10.12 Pop-up A frames

10.13 Gazebo

Outdoor exhibition and event branding can employ various applications, such as the examples on this page. In these cases, a dominant colour plays an important role.

10.14 Billboards

Billboards are viewed by people of all languages, unlike the print adverts. Simple large text and a blue background is recommended. White text on a dark background is always more visible from a distance. Only the web address appears in the red strip.

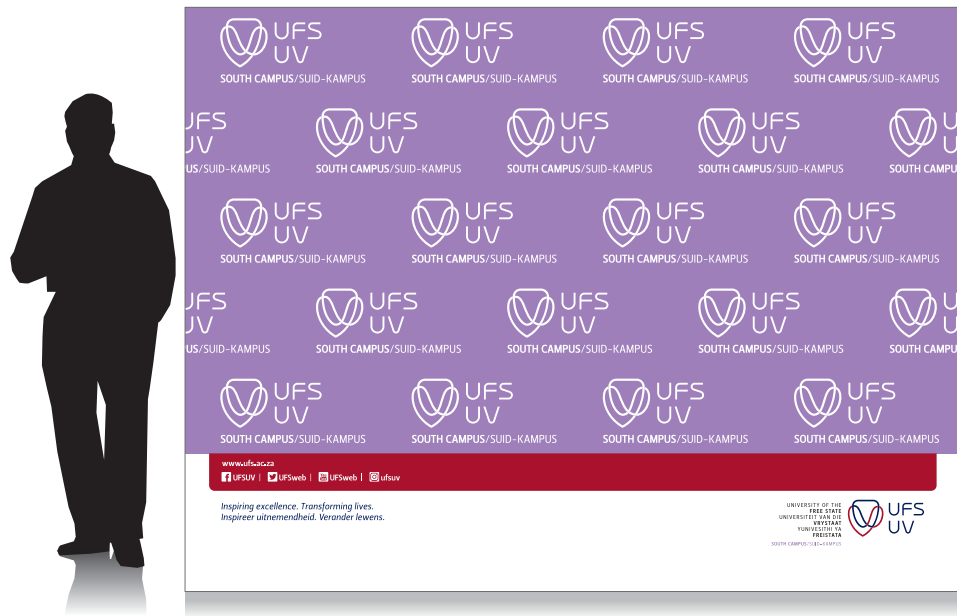

Only approved UFS typography is used in the design of posters.
