

**ADMISSION REQUIREMENTS FOR STUDY AT THE UNIVERSITY OF THE FREE STATE
(GENERAL REGULATIONS A2, A3 AND A4)**

(i) Students who passed the grade 12 (NSC) examinations in 2008 or later

- (a) Unless decided differently by the Senate, a student must, in order to be admitted to degree study, be in possession of a National Senior Certificate which permits admission to degree study that has been issued by the Matriculation Board and comply with the following admission requirements for specific study programmes.
- (b) Unless decided differently by the Senate, a student must, in order to be admitted to diploma/certificate or occasional study, be in possession of a National Senior Certificate and comply with the following admission requirements for specific study programmes.

(ii) Students who passed the grade 12 examination prior to 2008

- (a) Unless decided differently by the Senate, a student must, in order to be admitted to degree study, be in possession of an endorsed Senior Certificate or a certificate of conditional exemption that has been issued by the Matriculation Board or via the University Preparation Programme (UPP) of the University.
- (b) Unless decided differently by the Senate, a student must, in order to be admitted to diploma/certificate or occasional study, be in possession of a Senior Certificate and comply with the following admission requirements for specific study programmes.

(iii) National Benchmark Test (NBT): (EM 14/09/2009)

1. The National Benchmark Tests (NBTs) are compulsory for all prospective first-year students at the University of the Free State (UFS) who have applied for admission to the Main Campus, South Campus, Qwaqwa Campus or NIHE in Kimberley (for UFS studies).
2. All prospective students must write the NBTs prior to registration at the UFS or NIHE in Kimberley (for UFS programmes).

Regulations 3-13 below do not apply to students who wish to study a programme within the School of Medicine or the School for Allied Health Professions (Nutrition and Dietetics, Occupational Therapy, Physiotherapy and Optometry). Regulations 3-13 do apply to students applying for admission to the School of Nursing.

3. All prospective students must write the Academic and Quantitative Literacy (AQL) Test, and students applying for admission to the Faculty of Economic and Management Sciences or the Faculty of Natural and Agricultural Sciences must also write the Mathematics test.
4. All students will be registered (during formal registration) for the applicable language or mathematics development module(s), unless they provide proof of a proficient score in the NBTs, which is based on the minimum performance level determined by the institution and articulated in the admission requirements.
5. Students who have not written the NBTs will have to complete the relevant development module(s), irrespective of their school-leaving results.

6. Students who start their first year of study at the beginning of the second semester are also required to write the tests prior to their registration. Credit for the development module, however, will only be reflected on their registration documents from the start of the first semester of the following year.
7. The relevant development module(s) must be taken during the student's first year of study.
8. Students who do not successfully complete the development module(s) in their first year of study must repeat the module(s) in their second year.
9. All students registered for development module(s) must successfully complete the module(s) during the course of their undergraduate studies; otherwise, the applicable qualification will not be awarded.
10. Distance learning and E-Degree students are exempt from writing the NBTs and therefore from the applicable development modules.
11. In order to ensure fairness and consistency of test interpretation, results of academic literacy or proficiency tests administered by other universities will not be acknowledged by the UFS, and prospective students thus will have to write the NBTs or comply with regulation 5.
12. Students who have transferred from other universities, having successfully completed at least their first year of study or a relevant development module, are exempt from writing the NBTs and will not be registered for the development modules, unless these modules constitute a formal component of their curriculum.
13. Students who have obtained a qualification(s) from another higher education institution and register for an additional undergraduate qualification at the UFS are exempt from writing the NBTs and from the relevant development module(s).

iv) Admission requirements for specific study programmes

- (a) A minimum of 50% (achievement level 4) is required in your chosen UFS language of instruction (Afr or Eng).
- (b) The description of the degree/diploma/certificate is preceded by the programme code, to which the specific degree/diploma/certificate belongs, followed by the code of the specific degree/diploma/certificate.

Calculation (AP) with regards to candidates who passed Grade 12 in 2008 or later:

- Admission points (AP) are calculated according to the four (4) compulsory subjects from the "designated" list and the best of two (2) other school subjects passed during one (1) examination session.

- The subject Life Orientation with an achievement level of 5 or higher, receive only one (1) TP point.

NSS-Performance level	UFS-Admission Point (AP)
7(90% - 100%)	8
7(80% - 89%)	7
6(70% - 79%)	6
5(60% - 69%)	5
4(50% - 59%)	4
3(40% - 49%)	3
2(30% - 39%)	2

Calculation (M-score) with regards to candidates who passed Grade 12 prior 2008:

- M-scores are calculated using the symbols of the six (6) best matriculation subjects (regardless of whether they are higher or standard grade) passed in one (1) examination.
