• GENERAL INFORMATION

1. General Rules

The 2026 General Rules for undergraduate qualifications, postgraduate diplomas, bachelor honours degrees, master's degrees, doctoral degrees, higher doctorates, honorary degrees, and the Convocation (General Rules) of the University of the Free State (UFS) apply to all students and faculties, and therefore also to the degrees, diplomas and higher certificate programmes of the Faculty of Theology and Religion. These rules deal with issues such as the admission requirements of the UFS, registration as a student, Recognition of Prior Learning (RPL), progression and articulation, requirements for passing, examinations, etc.

It is the responsibility of students to acquaint themselves with all the general rules relevant to their studies.

2. Faculty Rules

The 2026 Faculty Rules supplement the 2026 General Rules. Should a faculty rule contradict a general rule, the general rule will apply.

The curriculum rules in the Rule Book of the Faculty of Theology and Religion applicable during a student's first registration will remain valid for their studies for that qualification.

It is the responsibility of students to acquaint themselves with all the faculty rules relevant to their studies.

3. Admission through Recognition of Prior Learning (RPL)

A person who does not qualify for admission to an academic qualification may, under certain circumstances and according to the following guidelines, apply for admission in terms of a process of RPL:

- (a) A person in possession of a National Senior Certificate (as of 2008) or a School-leaving Certificate (before 2008), with at least five (5) years' applicable work experience, including formal and non-formal learning.
- (b) A person who is forty-five (45) years old or older, with more than fifteen (15) years' applicable work experience, including formal and non-formal learning, regardless of whether she/he has a Senior Certificate or not, may apply for RPL.

For more information, please contact the RPL Office at rploffice@ufs.ac.za or phone +27 51 401 7357/7934.

4. Critical Academic Literacies (CALR1508)

All first-time entering mainstream students must write the UFS test of academic literacy. If the stipulated requirements of the UFS test of academic literacy have not been met or the results cannot be submitted, students must register for and complete CALR1508.

Students on the extended programme are required to complete CALR1508.

It is the responsibility of students to consider the module and venue timetable to avoid timetable clashes.

Students who have already completed a qualification at this or another institution of higher education are exempted from writing the UFS test of academic literacy and registering for CALR1508.

5. First-Year Seminar (FLTH1512/FLTH1522)

The First-Year Seminar (FYS) modules, FLTH1512 and FLTH1522, are compulsory modules offered by the Centre for Teaching and Learning to all undergraduate students pursuing a first qualification at the university. Both modules are 8 credits each, with FLTH1512 offered in the first semester and FLTH1522 in the second semester. Students are expected to register for the modules in their first year of study for the mainstream programme or in the second year of study for the extended curriculum programme. Completion of both modules is a prerequisite for obtaining a qualification, unless otherwise specified in the faculty rules and conditions approved by Senate.

It is the responsibility of students to consider the module and venue timetable to avoid timetable clashes.

The following students are exempt from registering for FLTH1512 but should register for FLTH1522:

- Students who have already completed a degree or diploma at this or another accredited institution of higher education.
- Students who are 30 years or older in the year of registration.

The following students are exempt from registering for FLTH1512/FLTH1522:

- Students who are working full-time and studying part-time.
- Students studying for the Higher Certificate in Theology. However, should these students progress to the Bachelor of Divinity Degree or Bachelor of Divinity Extended Curriculum, they are expected to register for FLTH1512 and FLTH1522 according to the curriculum stipulated in the Rule Book.

The following applies to returning students:

- Returning students who were unsuccessful in the completion of UFSS1504 should register for both FLTH1512 and FLTH1522.
- Returning students who were unsuccessful in the completion of UFSS1522 should register for FLTH1522.

6. Computer Literacy (CSIL1511/CSIL1561)

The CSIL1511 module (Computer Literacy) is compulsory for all students registering for a first qualification in the Faculty of Theology and Religion at the UFS.

The following students may apply for exemption from CSIL1511:

7. Register on the Career Hub

The Faculty of Theology and Religion recommends that students register on the Career Hub at ufs.ac.za/careerhub for the Career Development and Employability Pathway to maximise their employability. This pathway is aligned with career development and employability initiatives at the UFS. This pathway aims to enhance your employability by teaching you to perfect the following: your CV and cover letter, your LinkedIn profile, and your marketing, networking, job application and interview skills.

Students who register on the Career Hub will also have access to the job portal where both UFS student jobs as well as vacancies at companies are regularly advertised. Although there are events you can sign up for and attend in-person or online, most of this pathway is self-paced and you can work through it in your own time. Please use this opportunity throughout your degree to upskill yourself, learn more about expectations in the workplace, and become work ready.

If the minimum number of students have not registered for a programme or a module, the Faculty of Theology and Religion reserves the right not to offer that programme or module.

10. Student Academic Records

Students can access official and unofficial documents such as academic records, proof of registration and timetables via the student portal at <https://www.ufs.ac.za/kovsielife/student-self-service>.

Official academic records, transcripts and/or certificates of conduct will only be issued to students if the overdue amount on their accounts is less than two thousand rands (R2 000).

11. Disruptions

To mitigate the impact of disruptions such as protests or pandemics, curricula delivery and assessment methods for undergraduate and postgraduate qualifications may be changed at short notice to online delivery through Blackboard as the official online learning management system of the UFS.

12. Undergraduate Assessment Rules⁷

12.1 All assessments in the Faculty of Theology and Religion take place according to a continuous assessment strategy. In a continuous assessment strategy, all the assessments count towards the final module mark.

12.2 A student is not entitled to any exceptions or concessions if she/he has erred in respect of the scheduled assessment timetable or the submission of assignments or research essays.

12.3 Special assessment

Students (excluding master's and doctoral degree students) in their final academic semester who have to prolong their studies to obtain the qualification subsequent to failing a single continuous assessment module, who have participated in all the assessments and obtained a final module mark of 45% to 49%, can be awarded a special assessment, the final format of which will be determined by the faculty. This special assessment must take place during the week scheduled for supplementary examinations. The final mark resulting from a special assessment must be submitted by the institutional deadlines applicable to the relevant academic year, as determined by the Senate, communicated by SAS and aligned with institutional policies, standard operating procedures, and the General Academic Rules. Failure to meet this deadline will result in the student's graduation being deferred to the next graduation opportunity.

A special assessment is permitted only if:

- The format and nature of the module, as well as the faculty structures, allow for such an assessment.
- The student is registered for the qualification in their final academic year/semester.
- The student is registered for the module in the current academic year in which they require a special assessment.

Furthermore:

- (a) A student in their final year who fails only one module during the mid-year assessment period, without factoring in the end-of-year assessment period that still needs to be completed, will be eligible to receive a special assessment during the supplementary assessment special examination period.
- (b) A student in their final year who fails only one module during the end-of-year assessment period, with no other outstanding modules needed to obtain the qualification, will be granted permission for a special assessment during the supplementary assessment special examination period.
- (c) If a student has already taken a special assessment during the supplementary special examination period, they would be ineligible for another special assessment for that particular module.
- (d) A student who writes a special assessment may not obtain a final module mark higher than 50%. If the calculated final mark exceeds 50%, it will be capped at 50%.

12.4 Pass requirements

Where a system of continuous assessment applies, a student passes when a final mark of at least 50% has been obtained, and she/he has participated in all the assessments.

12.4 Pass requirements

Where a system of continuous assessment applies, a student passes when a final mark of at least 50% has been obtained, and she/he has participated in all the assessments.

12.5 Passing with distinction

To pass a module with distinction, a student must obtain a final mark of at least 75% and must have participated in all the scheduled assessments.

⁷ For a detailed explanation of Assessment Rules for undergraduate, honours, master's and doctoral qualifications, please refer to the relevant section of the General Rules.

13. Undergraduate Progression Rules

Students must take note of the progression rules applicable to their specific qualifications as set out in the General Rules of the UFS and the Rule Book of the Faculty of Theology and Religion.

13.1 Progression rules for the Advanced Diploma in Theology

Students are expected to complete the diploma in two years.

Based on exceptional merit, a student who has not yet fulfilled the requirements for the qualification, even after the maximum allowable period plus one (1) year, may be granted admission for an additional year. Approval for such admission is contingent on the endorsement of the Faculty Examination Board. Written notification to the Executive Committee of the Senate is required.

13.2 Progression rules for the Bachelor of Divinity:

To be re-admitted to the Bachelor of Divinity (four-year qualification), a student:

- (a) after one year of study, must have passed at least 84 credits of the total minimum required credits for the specific curriculum (536);
- (b) after two years of study, must have passed at least 168 credits of the total minimum required credits for the specific curriculum (536);
- (c) after three years of study, must have passed at least 264 credits of the total minimum required credits for the specific curriculum (536);
- (d) after four years of study, must have passed at least 360 credits of the total minimum required credits for the specific curriculum (536);
- (e) after five years of study, must have passed at least 456 credits of the total minimum required credits for the specific curriculum (536); and
- (f) after six years of study, must have passed the minimum required credits for the qualification (536).

13.3 Progression rules for the Bachelor of Divinity Extended Curriculum Programme:

To be re-admitted to the Bachelor of Divinity Extended Curriculum Programme (five-year qualification), a student:

- (f) after six years of study, must have passed at least 552 credits of the total minimum required credits for the qualification (632); and
- (g) after seven years of study, must have passed the minimum required credits for the qualification (632).

13.4 If a student receives an exemption from registration for a specific module/s, the progression rule formula will be adapted by the faculty and the student will be informed of the progression requirements that she/he must meet.

13.5 Failure to pass a module twice:

A student who has registered twice for a specific module and still fails to meet the pass requirements will be eligible for only one (1) additional opportunity to re-register for that module, based on exceptional merit. This requires approval from the Dean of the faculty offering the module and endorsement from the Faculty Examination Board

with written notification to the Executive Committee of Senate. However, in the case of a service module, approval must be granted by both Deans of the involved faculties.

Students who have received permission and fail to pass the module after three attempts, will not be allowed to write again.

13.6 NQF Levels:

A student will not be allowed to register for a module in a subject field at NQF Level 7 if he/she still has a module outstanding at NQF Level 5 in that same subject field.

14. Graduation

Information regarding your graduation will be communicated via SMS to the cellphone number registered on the UFS database and to your UFS4life email address. It is the student's responsibility to make sure that his/her contact data is correct.

For graduation-related queries, you may send an email to studentadmin@ufs.ac.za or visit the website <https://www.ufs.ac.za/kovsielife/graduation>

• CAREER GUIDANCE

The Bachelor of Divinity's primary focus is to provide in-depth training and skills development for a career in professional Christian ministry. However, by choosing electives carefully, the degree can be structured to open additional postgraduate studies and career possibilities.

Guide to Choosing Electives

For the BDiv/BDivECP degree, students must complete 96 credits of compulsory electives. Of these 96 credits, at least 40 credits **MUST** be on NQF 6 or higher.

The elective modules will be spread over two years.

BDiv: Year One (48 credits); Year Two (48 credits)

BDivECP Year Two (48 credits); Year Three (48 credits)

Please take note of the following:

- Students are advised to choose the elective modules following the requirements of their faith communities. If your church does not require Hebrew and Greek, you can consider choosing modules that can open additional postgraduate studies and career possibilities.
- If you take Hebrew and Greek, you will not experience timetable clashes. However, most electives are offered by other faculties, and you need to check your timetable for clashes before choosing the electives.
- In some of the elective module packages, you have the option to register for a conversational language module in an indigenous language to which you have had no previous exposure. This multilingual drive of the UFS is focused on building social cohesion, enhancing your employability, and preparing you for a multilingual work environment.
- You can choose 8, 12, or 16 credit electives to make up the total electives. Your electives modules may be more than the full credit load but cannot exceed 16 credits without permission from the Academic Advising Office.
- It is recommended that the workload from elective modules be spread evenly through an academic year, e.g., 24 credits in each semester.

Career Opportunities

Professional Ministry

If you are training to become a minister (priest/pastor/reverend) in a professional ministry, the Faculty of Theology and Religion highly recommends choosing your electives to study Biblical Hebrew and Biblical Greek, the original languages of the Old Testament and New Testament. Knowing these ancient languages in which the Bible was written will empower you with valuable and scarce skills that will dramatically enhance your ability to interpret the Scriptures.

We request that you contact the relevant representative of the training body of your denomination at the *beginning* of your studies to enquire about screening and/or selection procedures, as well as specific study requirements, e.g., Hebrew and Greek.

Minimum and maximum periods of study

The table below reflects the minimum and maximum enrolment periods for master's and doctoral degrees.

MASTER'S DEGREE		
	Full-time	Part-time
Minimum study period	One year	Two years
Maximum study period	Three years	Four years

DOCTORAL DEGREE		
	Full-time	Part-time
Minimum study period	Two years	Four years

BC972903	TSUP	7906	Pastoral Care Internship and Supervision The content of this module entails both pastoral care theory and practical work components. With regard to theory, the focus is on introductory components of pastoral care and methods related to providing pastoral care in the context of marriage and family, loss and bereavement, and crisis counselling. This theory directly relates to the practical component, which provides students with both a context and opportunities to consider the following aspects related to practice: ethics; the basics of psychiatric ailments; pastoral and spiritual counselling to the sick; spiritual resilience in creating hope; and aspects of community care. Students then learn how to apply skills related to the above.		9	24	Year			Active
