## SOCIAL SCIENCE MODULES

Research. Solutions. Impact.  
YOUR Social Science Modules.

“

Social sciences study human behavior and society scientifically. They address issues such as poverty, inequality, racism, and environmental crises. Through research and dialogue, we aim to create solutions and train future social scientists to promote positive change.

### SCSI 2612

In this module, you'll discover how Social Sciences help solve real-world problems in Southern Africa by looking at clean water and sanitation through multiple lenses, aligned with Sustainable Development Goal 6.

### SCSR 2622

This module introduces you to the principles and methods of Social Science research, with a focus on understanding and applying these approaches to African contexts and challenges.
