## South African Financial Planning Handbook 2017

Authors: M Botha, L Rossini, W Geach, B Goodall, L du Preez

This work is widely regarded as the most comprehensive reference work for professional financial planners in South Africa.

### Why you can't do without it

-  An essential reference. Covers all aspects of financial planning in one volume.
-  The prescribed textbook – post graduate qualifications in financial planning and the FPI Professional Competency Exam.
-  Up-to-date. All chapters have been reviewed and updated to include new examples and insight from our team of authors.

We recommend that you also purchase *Financial Calculations*. This book contains a collection of calculations that financial advisers encounter on a daily basis – examples as well as worksheets in A4 format so that the user can actually work through them.

All orders must be completed on this special order form to qualify for the discounted rates (you may use photocopies).
