OVERVIEW

With this qualification, the learner will obtain advanced knowledge and practical research skills in Disaster Management. The learner will have to complete 60 credits from the electives and a supervised mini-dissertation on a topic of interest in Disaster Management. The master's degree is designed for students from diverse backgrounds who are interested in global change, disaster risk reduction, and humanitarian response and recovery. If you are that kind of student, we encourage you to apply.

DURATION

Minimum one year (full-time), two years (part-time)
