

Faculty of Economic and Management Sciences

New 'Flagship' Degree ●●● BCom with specialisation in Business and Financial Analytics

This new exciting degree has been designed for the world of the 4th Industrial Revolution. It integrates quantitative methods for business, computer-based business analytical skills, and the more traditional BCom modules such as Economics, Accounting, and Business Management. This degree will allow graduates to be high-functioning executives in a modern global business world demanding quantitative and analytical business and IT skills.
