FACULTY OF HEALTH SCIENCES

In the Faculty of Health Sciences, we are creating extraordinary magic through creativity and innovation to open up an array of possible career choices. As a centre of excellence, the Faculty of Health Sciences is fully committed to broadening the development process of students through teaching, research, and community service. Community-based education plays an important role, and the faculty is actively involved in community health service at both national and international levels.

Welcome to the faculty

DEAN: PROF GJ VAN ZYL

“Operating on the cutting edge of teaching and learning through simulation-based training, the Faculty of Health Sciences brings together training, virtual health learning, and state-of-the-art technology as a world leader in research, medical procedures, and practices.”

WHY

IS THE UFS YOUR BEST CHOICE

The University of the Free State creates **opportunities and growth** through leading learning and teaching, focused research, and impactful engagement with society. We offer world-class benefits to all individuals.

What makes us special is that our students are **holistically supported** to achieve some of the highest success rates in the country and that they are highly employable.

What's more, we produce research with industry and **social impact** and **real-world application**.

Our culture promotes **equity, ubuntu, and accountability**.

We address challenges and issues as they emerge, and we deal with them openly in a way that promotes **social justice and human rights**.

Situated in the heart of South Africa, our character of **caring and diversity** translates into an outstanding university experience.

APPLICATION TO STUDY IN 2023

IMPORTANT APPLICATION OPENING DATES:

Date	Programmes for which application opens
1 April 2022	Applications to study any undergraduate programme offered on the Bloemfontein and Qwaqwa Campuses in 2023
1 July 2022	Applications to study any Access Programme (AP) offered on the South Campus and the sub-regions in 2023

Registered nurse (Community health)
Registered nurse (Critical care and emergency) Biokinetics
Midwifery **careers** Oncology
Paediatrics **Dietetics**
Physiotherapist **Radiation oncology**
Registered nurse (Surgical) Sports Medicine
Occupational Therapist **Rehabilitation Sciences**
Registered nurse (Child and family health)
Ophthalmology **Medical practitioner** Surgical sciences
Sport Science Registered nurse (Mental Health)
Registered nurse (medical)

WHAT DO YOU NEED TO STUDY AT THE UNIVERSITY OF THE FREE STATE?

For degree studies at the University of the Free State, we expect that

- you have an NSC or NCV with an endorsement that allows entrance to degree studies (bachelor's degree) or an equivalent qualification;
- you meet **all** the minimum admission requirements for the programme you intend to study. **Meeting the minimum admission requirements for your chosen/intended programme of study does not guarantee admission, as limited spaces are available in each programme;**
- you have a minimum level of 4 (50%) in English Home Language or English First Additional Language; and
- **you must pass certain school subjects with a minimum level of achievement in order to take a certain university module.** For example, you must get a minimum mark of 60% for Mathematics in Grade 12 if you plan to study the Bachelor of Medicine and Bachelor of Surgery (MB ChB). Please refer to the section on the faculty-specific admission requirements, which also includes the respective compulsory subjects and achievement levels required per programme.

HOW DO YOU APPLY?

APPLICATION TO STUDY AT THE UFS IS FREE

Visit <https://apply.ufs.ac.za>. Keep your mobile phone and an active email address ready, as you require both to access and complete the online application form.

Proceed through all the steps and submit your electronic application. Make sure that you complete the application form properly, e.g., if you need on-campus residence accommodation or financial aid, indicate this in the relevant section.

Upload copies of the following in PDF or JPEG format when you apply for undergraduate studies:

- Your ID if you are a South African citizen
- Your passport if you are an international student
- Your parent's ID or passport if you are younger than 18
- Your final Grade 11 results with the school's stamp
- National Senior Certificate (NSC) or Grade 12 IEB certificate if you have already matriculated
- Your academic record, only if you are/were a student at another institution of higher learning
- USAf accreditation from the examination board for South African universities. Apply to mb.usaf.ac.za for conditional exemption, foreign conditional exemption, or mature age conditional exemption. A Universities South Africa (USAf) Certificate of Exemption is required if you do not have an endorsed South African Senior Certificate. If you are eligible for the certificate, but have not yet applied for it, we will assist you with the process. Therefore, you can apply before receiving the required certificate. Contact the Office for International Affairs at +27 51 401 3219 | niemannaja@ufs.ac.za or +27 51 401 9032 | tshabalalal@ufs.ac.za

The online application is quick and easy – no hassle, no fuss! It has an easy and modern design and is mobile- and tablet-friendly. You can apply using any device. You can expect a quicker response time if you apply online.

For assistance, contact:
+27 51 401 9666 or
studentadmin@ufs.ac.za

IMPORTANT APPLICATION CLOSING DATES:

IMPORTANT NOTICE: If your application is received after the following closing dates, it will not be considered.

Date	Selection and non-selection programmes for which applications close
31 May 2022	MB ChB Occupational Therapy Optometry Physiotherapy Radiation Sciences
31 July 2022	Architecture Biokinetics Dietetics Nursing Social Work Sport Coaching
31 August 2022	All Access Programmes on the South Campus and the sub-regions International undergraduate applications
1 September 2022	Fine Arts
30 September 2022	All non-selection programmes Applications from students transferring from other tertiary institutions Community Development (Qwaqwa Campus only) Construction Economics and Management (Full-time) Construction Management (Compact Learning) Drama and Theatre Arts Forensic Sciences Geology Music Physics with Engineering Sciences Quantity Surveying (Compact Learning)

IMPORTANT INFORMATION FOR ALL STUDENTS:

- Limited space: Keep in mind that all programmes have limited space available; therefore, you are encouraged to apply as soon as possible to avoid disappointment. When we process your application for admission, we capture your details onto the UFS databases – if your details are not available, or if you have omitted it on your application form, you will not be admitted or be able to register. For this reason, it is very important to complete the application form in full and to stick to the closing dates. **Meeting the minimum admission requirements for your chosen/intended programme of study does not guarantee admission, as limited space is available in each programme.**
- National Senior Certificate: If you already have a National Senior Certificate (NSC), you must include a copy with your application form.
- Application: Make sure that you complete the application properly and attach all the required documents. An incomplete application, as well as outstanding documents, will delay your application process. Make sure that you complete the application form thoroughly, e.g., your personal details, school performance levels, the correct name of the school you are currently attending or have attended if you have already matriculated, if you need on-campus residence accommodation and/or financial aid, indicate this in the relevant section.
- Transferring students: If you transfer from another tertiary institution, you must include a certificate of conduct and an official study record from the previous tertiary institution with your application.
- International students: If you are from another country, you must attach your certified school-leaving certificate and relevant diplomas. Universities South Africa (USAf) Certificate of Exemption is required if you do not have an endorsed South African Senior Certificate.

- You can apply at the UFS before receiving the exemption certificate from USAf.
- If you are an international student who is currently in Grade 12, the UFS may make a conditional offer based on your final Grade 11 results.
- If you do not have matriculation exemption, the Office for International Affairs will apply for the USAf certificate of exemption. You will have to pay the prescribed fee before the Office for International Affairs attends to the USAf exemption application. You must pay and submit the relevant documentation as soon as you receive the final Grade 12 results.

ADMISSION TO STUDY AT THE UFS

Academic excellence is what the UFS is about – the higher your AP score, the better your chances of being chosen and finally admitted to study. Meeting the minimum admission requirements for your chosen/intended programme of study does not guarantee selection and admission, as all programmes have a limited number of spaces available. Applicants with the highest AP scores are chosen first, and the admission continues until all spaces have been filled. If you do not meet the minimum admission requirements for your intended/chosen programme of study, you will not be selected. Consult the faculty-specific admission requirements for all the programmes you qualify for and apply for the two programmes that best fit your personality, purpose, and passion.

You will be **CONDITIONALLY ADMITTED** based on your Grade 11 or equivalent results, subject to you meeting all the minimum requirements for the intended programme of study. Please note that conditional admission is not applicable to all the selection programmes in the Faculty of Health Sciences.

Your **FINAL ADMISSION** to the programme of your choice will depend on your final Grade 12 results. You will be notified of the university's admission decision immediately after your final Grade 12 results have been released by the Department of Education. Therefore, it is your responsibility to ensure that your contact details on your application form are correct.

Pay attention to the following important information:

- The UFS reserves the right to change the minimum requirements of each programme or any other information without notifying you.
- There are specific admission requirements that you should meet if you want to study at any South African university. If you finished school in or after 2008 and have a National Senior Certificate (NSC), you need to have a performance level of at least 4 (50%) in four (4) of the seven (7) subjects included in your NSC subject package.
- All admission requirements apply to first-year students in 2023.

Any question,

Any time,

Any place...

Kovsie2Bot can help you.

Send your question to
087 240 6370

**Kovsie
2Bot**

- Admission to study at the UFS is dependent on the following:
 - Your application should meet all the minimum requirements for the programme
 - The programme must have available space and capacity to admit students
 - You have to submit valid school results with your application
- Applications for all non-selection programmes close on 30 September 2022.

An admission point (AP) consisting of seven levels is used. Points will be awarded for six academic modules.

Note: No points will be awarded for achievement levels lower than 30%:

Percentage	7 (90–100%)	7 (80–89%)	6 (70–79%)	5 (60–69%)	4 (50–59%)	3 (40–49%)	2 (30–39%)
AP	8	7	6	5	4	3	2

One point is awarded for Life Orientation (LO) from achievement Level 5 (60%) or higher.

CONFIDENTIALITY CLAUSE

The UFS confirms that all personal information provided in your application form will be treated confidentially and will not be sold to a third party or used for commercial or related purposes.

The UFS further confirms that your personal information will only be used for purposes relating to your potential relationship with the UFS as a student, including but not limited to the processing of your application to study at the UFS, effecting registration at the UFS, and for any communication purposes related to your application and/or registration to study at the UFS.

STUDENT SERVICE CENTRE

Our friendly agents are ready to assist you with the application, admission, and registration processes. Contact the agents if you require

- information on the admission requirements for any study programme;
- assistance to complete your application form (online or hard copy); and
- assistance with tracking the status of your application.

Contact: +27 51 401 9666 | 9111 | E: studentadmin@ufs.ac.za

If you have applied to study a programme in the Faculty of Health Sciences, contact +27 51 401 7513 | 7517 | E: fhapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 666 9191.

DISCLAIMER – IMPORTANT NOTICE

Kindly take note that this faculty programme booklet is aimed at prospective undergraduate students wishing to apply for a place at the University of the Free State (UFS) and who wish to start their studies at the UFS during the 2023 academic year. The faculty programme booklet accordingly describes and outlines the programmes and services offered by the UFS, as well as the minimum admission requirements for each programme, but must be read in conjunction with the policies, rules, and regulations of the UFS (as may be amended from time to time). In order to be considered for selection in a programme, an applicant is required to comply with the programme's minimum admission criteria in respect of the total AP score, subject-specific requirements (as determined per programme), and faculty/department-specific requirements. However, due to limited space, fulfilling all the minimum entry (admission) requirements does not guarantee acceptance to study at the UFS, or admission to any particular programme offered by the UFS.

The UFS makes every effort to ensure that the information provided in this faculty programme booklet is accurate and up to date at the time of going to press. However, it may be necessary for the UFS to make some changes to the information presented in the faculty programme booklet following publication – for example, where it is necessary to reflect changes in policy, practice, or theory, or if an accrediting body necessitates requirements to be amended. Furthermore, certain programmes may only be offered if there are a sufficient number of applicants.

The UFS undertakes to implement all reasonable steps to provide the services (including, but not limited to, presentation of the programmes) described in the faculty programme booklet. However, it does not guarantee the provision of such services or the presentation of any or all programmes described herein. Should circumstances beyond the control of the UFS interfere with its ability to provide the services or presentation of any programme described herein, the UFS undertakes to use all reasonable measures to minimise any disruption to the services.

Furthermore, the UFS reserves the right to make amendments to admission requirements if and when necessary. It reserves the right to withdraw, wholly or in part, the delivery of programmes. Applicants and students in affected programmes will be informed before the commencement of their studies for the academic year concerned.

Note: The admission requirements as indicated below are guidelines. Meeting the minimum requirements for your chosen/intended programme of study does not guarantee admission, as limited space is available in each programme. Final selection and admission are subject to the availability of space, academic results, and other admission requirements where applicable.

FACULTY-SPECIFIC UNDERGRADUATE PROGRAMMES AND REQUIREMENTS

The faculty offers undergraduate and postgraduate programmes in five schools of academic and teaching excellence on the Bloemfontein Campus:

- School of Biomedical Sciences
- School of Clinical Medicine
- School of Health and Rehabilitation Sciences
- School of Nursing
- School of Pathology

CLINICAL SIMULATION AND SKILLS UNIT (CSSU) – SCHOOL OF BIOMEDICAL SCIENCES

As an undergraduate student in the Faculty of Health Sciences, you will not only be exposed to theoretical and practical teaching and learning, but also to teaching through virtual reality and simulation training.

The CSSU is a simulation and skills unit for the Schools of Medicine, using proven educational methods to enhance the students' clinical skills and patient-centred collaborative practice in a safe, non-threatening environment to improve patient safety. Undergraduate medical students attend almost 800 training hours in the simulation unit. Students from Nursing, Optometry, Physiotherapy, and Biokinetics also supplement classroom teaching and learning with training sessions in the CSSU.

The new Medtronic and University of the Free State Cardiac Simulation laboratory, hosted within the existing CSSU, is used to enhance training for cardiothoracic, cardiology, vascular surgery, anaesthesiology, and multi-professional teams such as doctors, nurses, and allied health professionals. The Cardiac Simulation laboratory not only benefits the training of specialists in various fields of specialisation, but also improves patient safety, and reduces complication rates and mortality rates.

Procedural training with virtual reality simulators is based on real graphics, making it realistic and true to life, with haptic feedback from the instruments. The donation of two laparoscopic trainer boxes by Citymed adds value to the virtual reality laparoscopic surgical simulator that was acquired for the CSSU to assist with the training and improvement of the laparoscopic surgical skills of postgraduate students from surgical

disciplines. The role of a simulator is not to replace training on real patients, but to train registrars in the basic laparoscopic surgical skills (depth perception, hand-eye coordination, instrument handling, precision, and speed) before operating on patients. The steep learning curve to master basic laparoscopic surgical skills can be trained on the simulator before moving on to the operating room. The simulator can be used for procedural training and team training where skills such as communication, stress handling, and complication training could be practised.

The CSSU, in collaboration with the Department of Anaesthesiology, started with a point-of-care ultrasound training programme for undergraduate students, as well as for registrars and CPD courses. This is on the forefront of development in patient care.

In 2020, the CSSU received the Harvey cardiology simulator to supplement student training in cardiology and training of heart sounds. This has many advantages for the training of students and to ensure equal opportunities for all students.

The CSSU provides training in simulation for educators from all over Africa.

Cardiothoracic surgeon training on the Califa cardiac simulator.

Virtual Cath lab for training of coronary and other vascular procedures.

Training of laparoscopic skills on the virtual reality laparoscopic simulator.

Medical emergencies in paediatric anaesthesia course.

DISSECTION FACILITIES – SCHOOL OF BIOMEDICAL SCIENCES

The spacious dissection hall is a world-class facility that is equipped with special lighting and modern equipment for the training of undergraduate and postgraduate medical students. The hall is equipped with high-quality sound, computer equipment, and a unique camera system that allows students to follow dissection demonstrations on ten screens in the hall. Dissection demonstrations are recorded, enabling lecturers to compile new visual aid material for teaching and learning. This facility is also used for clinical workshops and postgraduate teaching seminars and workshops. The Anatomy workshop provides embalmed specimens to various clinical departments for training workshops, e.g., orthopaedics, anaesthetics, obstetrics and gynaecology, and otorhinolaryngology.

Clinical workshops presented.

Dissection hall facilities.

SCHOOL OF CLINICAL MEDICINE, SCHOOL OF PATHOLOGY, AND SCHOOL OF BIOMEDICAL SCIENCES

In the School of Clinical Medicine, first-year students can look forward to an array of support sessions and special events to highlight their first year. During the annual White Coat Ceremony, all first-years are ceremonially presented with their white coats for the first time, taking an oath by the World Medical Organisation and committing themselves to their professional identity as future healthcare professionals.

Students receiving their white coats.

Students taking the oath at the White Coat Ceremony.

Selection procedure

All applications for admission to MB ChB and BMedSc (Radiation Sciences) are subject to selection. The selection policy is available at the following link: www.ufs.ac.za/HealthSelection

All information regarding selection is available in this policy document.

- Due to the limited number of available spaces, only 180 candidates are admitted to the first year of study in the MB ChB programme, and 25 in the BMedSc (Radiation Sciences) programme.
- All prospective students must submit their applications to the University of the Free State, together with the selection form.
- The closing date for all MB ChB and BMedSc (Radiation Sciences) applications to reach the Faculty of Health Sciences is 31 May 2022.
- No late applications will be considered.
- All prospective students for the above courses must write the National Benchmark Test (NBT). The results of this compulsory admission test will be used as an additional guideline to the selection process. **Remember to write the NBTs before 1 July 2022.** More information regarding this test may be obtained from www.nbt.ac.za or 021 650 3523.

Selection method

- Preliminary selection, of which the school average and NBT comprise the largest part, will take place as set out in the selection policy.
- Mathematics, Physical Sciences, Life Sciences, language of instruction, and any other two subjects with the highest marks are taken into consideration for MB ChB. Life Orientation as a subject is excluded, as it is considered separately.
- Mathematics, Physical Sciences, Life Sciences, language of instruction, and any other two subjects with the highest marks will be taken into consideration for BMedSc (Radiation Sciences). Life Orientation is excluded, as it is considered separately.
- English is compulsory.
- A minimum achievement Level 5 (60%) is required for each of the three compulsory science subjects (i.e., Mathematics, Physical Sciences, and Life Sciences) to calculate the selection mark.
- A minimum admission point (AP) of 30 for BMedSc (Radiation Sciences) is required. This is calculated based on achievement in the above six subjects, together with one mark for Life Orientation above achievement Level 5.
- Extramural activities and achievements in Grade 12 are also considered.
- Final selection is confirmed in January 2023, after the National Senior Certificate (NSC) and IEB results have been released.
- If you apply in hard copy, the application form, medical report, health questionnaire, principal's signature form, results, and certified copies of ID must reach the university simultaneously. If you apply online, the medical report, principal's signature form, results, and certified copies of ID must be uploaded electronically.
- Only two choices of study are available within the Faculty of Health Sciences.
- Students are informed regarding the outcome of the first selection by the first week of September. Students who are not successful in the first selection, will be requested to indicate whether they would like to remain on the list for possible consideration at the final selection in January.
- Students who are not selected are advised to study an alternative career option. As per the selection policy, students may apply for possible selection during their study in any other undergraduate programme. Senior students are not exempt from any modules passed in another programme if they are selected for the MB ChB programme.

THE FOLLOWING PROGRAMMES ARE PRESENTED ONLY ON THE BLOEMFONTEIN CAMPUS:

Enquiries:

Lydia du Toit: +27 51 401 3739 | 7513 | 7517 | fhsapplications@ufs.ac.za |
Fax2email: +27 86 579 5154 or +27 86 652 4872.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Mathematics	Life Sciences	Physical Sciences
Bachelor of Medical Science with specialisation in Radiation Science (BMedSc)*	BC831000	30	5 (60%)	5 (60%)	5 (60%)	5 (60%)
Bachelor of Medicine and Bachelor of Surgery (MB ChB)	BC834100	36	5 (60%)	5 (60%)	5 (60%)	5 (60%)

Notes:

- Closing date for applications to study any programme in the School of Clinical Medicine, School of Pathology, and School of Biomedical Sciences is 31 May 2022.
- If you are a senior applicant (already studying at a tertiary institution, or a graduate), please note that there are important additional requirements that you have to meet. It is important to contact the faculty for more information.

The MB CHB programme is a five-year programme, divided into three phases (10 semesters). A hallmark of this programme is the integrated modules from the first year (i.e. students' professional identity as future medical practitioners is formed from the first year) as well as integrated medical science assessments (MIMA examinations). Kopsie doctors graduate with excellent skills, knowledge, and attitudes, based on the required competencies prescribed by the Health Professions Council of South Africa (HPCSA). The programme is accredited by SAQA and the HPCSA.

Curriculum: First year

First semester – compulsory modules		Second semester – compulsory modules	
MPSY1513	Health Psychology	MMEM1620	Membranes, Receptors, and Principles of Pharmacotherapy
MDOC1513	The Doctor and the Environment	MSSM1620	Epidemiology, Biostatistics, and Special Study Module
MCHD1513	Concepts of Health and Disease	MMOL1620	Molecules of the Body Metabolism
MHIS1513	Tissues of the Body	MANA1620	Structure and Development of the Body (dissection programme)
MANA1513	Structure and Development of the Body		
MGEN1513	General Skills		
MIMA1513	Integrated Medical Assessment		
UFSS 1504			

Training takes place in the Faculty of Health Sciences (including lecture venues, dissection facility, and the Clinical Simulation and Skills Unit – Phase I and II of the MB ChB programme).

Clinical training in Phase III takes place in the faculty, as well as various training facilities, e.g., Bloemfontein Academic Hospital complex, community clinics, and decentralised training sites in the Free State, including Trompsburg and Botshabelo. Students do community-based education at various sites and are accommodated at UFS-accredited facilities for the purpose of this training.

The Medical Students' Association (MSA) is a student-elected body affiliated to the Student Representative Council (SRC) for the purpose of representing students. In addition, each class and group have student-elected representatives.

SCHOOL OF HEALTH AND REHABILITATION SCIENCES

The programmes offered in the School of Health and Rehabilitation Sciences are:

- Bachelor of Sport Coaching
- Bachelor of Optometry
- Bachelor of Science in Physiotherapy
- Bachelor of Science in Dietetics
- Bachelor of Occupational Therapy
- Bachelor of Biokinetics

Selection procedure

- All applications for admission to BOptom, BSc (Physiotherapy), BSc (Dietetics), BOccTher, BBiok, and BSportCoach **are subject to selection**.
- Due to the limited availability of places, only a limited number of applicants are admitted annually to the first study year.
- Prospective students must submit application forms for admission to the university, together with a fully completed selection form.
- Students who apply for selection for a Bachelor of Occupational Therapy must provide proof that they have visited an occupational therapy practice.

- Closing date for applications to study the following programmes in the School of Health and Rehabilitation Sciences is **31 May 2022**:
 - BSc (Physiotherapy)
 - BOptom
 - BOccTher
- Closing date for applications to study the following programmes in the School of Health and Rehabilitation Sciences is **31 July 2022**:
 - BSc (Dietetics)
 - BSportCoach
 - BBiok
- No late applications will be considered.
- The medical report, principal's signature form, results, and certified copies of ID must be uploaded electronically.
- Applicants may indicate only two choices of study within the Faculty of Health Sciences.
- All prospective students must write the National Benchmark Test (NBT). The results of this compulsory admission test will be used during the selection process. Remember to write the NBTs before 1 July 2022. Enquiries in this regard may be directed to www.nbt.ac.za or 021 650 3523.

Selection method

- Preliminary selection is set out in the Faculty of Health Science's selection policy.
- A minimum achievement level is required for each of the compulsory science subjects to calculate the science mark (each programme's requirements as indicated, except for BSportCoach). This information must be indicated clearly on the application form.
- A minimum admission point per programme is required. The admission point is calculated based on achievement in six school subjects plus one mark for Life Orientation above 60% (achievement Level 5). This information must be clearly indicated on the application form.
- Extramural activities and achievements are also considered.
- English is compulsory.
- Final selection is confirmed in January 2023, after the National Senior Certificate (NSC) and IEB results have been obtained.

Sport Coaching (BSportCoach)

Enquiries:

Lydia du Toit: +27 51 401 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 652 4872.

+27 51 405 2684 | +27 401 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 652 4872.

B Sport Coaching is a first for the University of the Free State, South Africa, and for Africa. The degree is based on current European sport coaching degrees, keeping the South African perspective in mind.

Sport Coaching is the profession concerned with the development, improvement, and maintenance of sporting abilities and skills by means of scientifically based programme prescription, physical training, and support.

In the South African context, graduates of this programme working as teachers and/or professional coaches will contribute immensely to the development of sport, from grass-roots level to elite sport.

The Bachelor of Sport Coaching will make a significant contribution to the development of centres of coaching excellence in South Africa and the professionalisation of sports coaching.

Career opportunities are available in a range of settings, i.e., as an elite and professional sports coach, coach educationist, school sports administrator, government sports development, municipalities (local authority leisure centres and sports departments), schools (primary and secondary), self-employment, and sports agent.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Subject to Selection	Compulsory NBT	
Bachelor of Sport Coaching	BC 834000	30	4 (50%)	Yes	AL, QL	

Note:

- Closing date for applications is 31 July 2022.

Curriculum: First year

First semester – compulsory modules		Second semester – compulsory modules	
SCCE1512	Coaching Environment	SCPC1522	Practice of Coaching
SCAN1514	Anatomy	SCSS1524	Social Sciences of Sport
SCMC1514	Motor Control and Development	SCPH1524	Physiology
EBUS1514	Business Functions	SCMC1622	Motor Control and Skill Acquisition
UFSS1504		EBUS1624	General Management

Optometry (BOptom)

Enquiries:

+27 51 405 2684 | +27 401 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za |
 Fax2email: +27 86 579 5154 or +27 86 652 4872.

Optometry is a medically related field of vision science that primarily deals with the detection and correction of visual and eye-health problems.

Optometrists are health professionals who examine patients' eyes with the help of various testing methods and instruments to determine various aspects of a patient's sight. Sight problems are addressed by prescribing glasses, contact lenses, low-vision devices, or visual therapy.

Optometrists work in private practices, hospitals, eye clinics or at universities as academics and researchers.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Mathematics	Life Sciences	Physical Sciences
Bachelor of Optometry	BC841300	33	5 (60%)	4 (50%)	5 (60%)	5 (60%)

Notes:

- Closing date for applications is 31 May 2022.
- If you are a senior applicant (already studying at a tertiary institution, or a graduate), please note that there are important additional requirements that you must meet. It is important to contact the faculty for more information.

Physiotherapy [BSc (Physiotherapy)]

Enquiries:

+27 51 401 3289 | 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 652 4872.

Physiotherapy is an excellent career choice for the enthusiastic individual with a compassion for others. The Department of Physiotherapy is passionate about and proud of the programme and aims to instil this passion and pride in all our students. Discipline-specific and critical learning outcomes are taught within a problem- and community-based framework. Graduates enjoy national and international recognition. Equity and transparency are applied in both student selection and course assessment, while maintaining a high standard.

The profession develops critical thinking, thereby contributing to the full development of each student and the social and economic development of the entire community. Physiotherapists are involved in healthcare with emphasis on a physical approach to maintaining and achieving the physical, psychological, and social well-being of communities and individuals. Career opportunities are available in a range of settings, including hospitals, private practice, schools for children with special needs, rehabilitation units, old-age homes, and with sports teams competing at various levels.

It is highly recommended to visit a physiotherapy practice, hospitals, and rehabilitation centres before applying for Physiotherapy. Doing this will ensure an informed decision regarding a career choice.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Mathematics	Life Sciences	Physical Sciences
Bachelor of Science in Physiotherapy	BC842000	33	5 (60%)	4 (50%)	5 (60%)	4 (50%)

Dietetics [BSc (Dietetics)]

Enquiries:

+27 51 401 2894 | 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154
or +27 86 652 4872.

Dietitians apply the science of food and nutrition to improve health, quality of life and performance, and to prevent and treat disease. Dietitians work in hospitals, clinics, private practice, government institutions, the media and journalism, catering firms, the food industry, and as nutrition representatives and researchers. Dietitians specialise in therapeutic nutrition, community nutrition, sports nutrition, food service management, and nutrition research. Dietetics as a career includes a broad spectrum of infinite possibilities – from counselling healthy individuals to treating critically ill patients in hospital.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Mathematics	Life Sciences	Physical Sciences
Bachelor of Science in Dietetics	BC846000	33	5 (60%)	4 (50%)	5 (60%)	4 (50%)

Notes:

- Life Sciences and/or Physical Sciences are required.
- Closing date for applications is 31 July 2022.
- If you are a senior applicant (already studying at a tertiary institution, or a graduate), please note that there are important additional requirements that you must meet. It is important to contact the faculty for more information.

Occupational Therapy (BOccTher)

Enquiries:

+27 51 401 2829 | 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154
or +27 86 652 4872.

Occupational Therapy focuses on supporting human wellness and participation in life through engagement in activities. An occupational therapist's knowledge is thus grounded in the science of activity. All activities (play, training, work, recreation, and interpersonal relations) in which a person participates in daily life will fall within the scope of the occupational therapist. An occupational therapist treats a client or group according to their individual and unique needs by means of activities that can be therapeutically adapted and graded through specific techniques, as well as therapeutic apparatus, splints, and assistive devices. The context and environment in which people function is an important part of the occupational therapist's evaluation and intervention.

Occupational therapists work, among others, in hospitals, private practice, schools, pre-primary schools, clinics, and old-age homes.

Programme Description		Minimum Admission Requirements				
Programme	Academic Plan Code	AP	English	Mathematics	Life Sciences	Physical Sciences
Bachelor of Occupational Therapy	BC843100	33	5 (60%)	4 (50%)	5 (60%)	4 (50%)

Notes:

- **Proof of a visit to an occupational therapy practice must accompany the application form for studies in the Bachelor of Occupational Therapy.**
- **Life Sciences and/or Physical Sciences are required.**
- **Closing date for applications is 31 May 2022.**
- **If you are a senior applicant (already studying at a tertiary institution, or a graduate), please note that there are important additional requirements that you must meet. It is important to contact the faculty for more information.**

Bachelor of Biokinetics (BBIok)

Enquiries:

+27 51 401 2289 | 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154
or +27 86 652 4872.

Biokinetics is an excellent career choice for the enthusiastic individual with a compassion for others. Biokineticists primarily utilise their professional expertise for exercise testing and prescription, physical activity, and health education. Biokinetics is a crucial part of the multi-disciplinary health team to enhance and promote health in general (wellness), to prevent dysfunction and disease, to restore, optimise, and maintain an individual's functional ability, particularly in respect of movement and sport performance, orthopaedic conditions, chronic diseases, and activities of daily living across the lifespan.

The scope of practice of biokinetics is consistent and aligned with several international professions such as exercise physiologists from Australia, certified clinical exercise physiologists from the USA, and athletics trainers from the USA. The profession is recognised by several international organisations such as the American College of Sports Medicine (ACSM), the International Federation of Sports Medicine (FIMS), and Exercise and Sports Science Australia (ESSA).

Career opportunities are available in a variety of settings, including the public and private sector in both urban and rural settings, rehabilitation units, schools for children with special needs, the corporate sector, local authorities, industry, elite and professional sports teams, South African National Defence Force (SANDF), South African Police Service (SAPS), and the Department of Correctional Services (DCS).

It is highly recommended that you visit a biokinetics practice and/or rehabilitation centre before applying for Biokinetics, ensuring an informed decision regarding a career choice. Visit the BASA website for contact details of practising biokineticists.

SCHOOL OF NURSING

Nurses who have completed their nursing qualification in the School of Nursing at the University of the Free State are highly regarded globally. Numerous excellent job opportunities exist after completion of the degree. Students exit the Bachelor of Nursing (B(Nursing)) with a general nursing and midwifery registration with the South African Nursing Council (SANC).

First-year Students – Oath taking during uniform ceremony.

Clinical practical in simulation laboratory.

SPACE : State of the Art classroom.

Selection procedure

- All applications for admission to B(Nursing) are subject to selection.
- Student numbers are determined by the South African Nursing Council (SANC).
- All prospective students must submit their applications together with the selection form to the University of the Free State.
- The closing date for all B(Nursing) applications is **31 July 2022**.
- No late applications will be considered.
- All prospective students for B(Nursing) must write a National Benchmark Test (NBT). More information regarding this test can be obtained from www.nbt.ac.za or +27 21 650 3523.

Selection method

- Preliminary selection will take place after the closing date for applications as set out in the selection policy.
- Mathematics OR Mathematical Literacy AND Physical Sciences OR Life Sciences, language of instruction, and any other three subjects are required for B(Nursing). Life Orientation is excluded, as it is considered separately.
- A minimum admission point of 30 is required. This is calculated based on achievement in the above six subjects, together with one mark for Life Orientation above achievement Level 5.
- A minimum achievement level is required for the two compulsory science subjects (i.e., Mathematics or Mathematical Literacy, Physical Sciences, and Life Sciences) to calculate the selection mark.
- Final selection is confirmed in January 2023 after the Grade 12 NSC and IEB results have been obtained.
- Please ensure that the selection form, medical report, health questionnaire, results, and certified ID copy are uploaded electronically during the application process.
