

# **The Wisdom and Skill Of Mother Elephants**

**Memories and lessons**

# Occupation

Was a discussion between craft and work-related activities

Came to include such ideas as creative participation

Has been explored further by leaders of the profession

# Follow my leader

The young remember where they  
have been

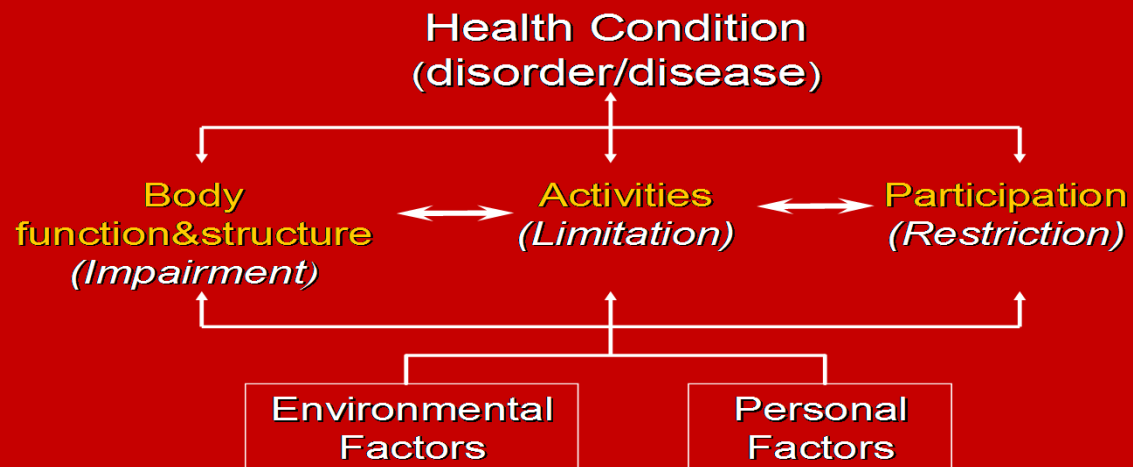

# CONCEPT OF FUNCTION

(FROM ICF TRAINING MATERIAL)

ICF

## Interaction of Concepts ICF 2001

# Occupation is central to health

s means that one must be able

To choose the appropriate occupation

To have the opportunity to partake in that occupation

To have the knowledge and skill to perform that occupation

To know when the time has come to choose more appropriate occupations for yourself and your life circumstances

To ascertain that the community, parents, family, community leaders and other health personnel are aware of the significance of the activity or activities to your client

To recognize in conjunction with the community needs for healthy activity
