DEFINITIONS

Refer to the 2026 UFS General Rules for the additional definitions of terms to ensure clarity and uniform interpretation.

ABBREVIATIONS

CMSA	Colleges of Medicine of South Africa	OSCA	Objective structured clinical assessment
EXCO	Executive Committee	OSCE	Objective structured clinical examination
FCOG	Fellowship of the College of Obstetricians and Gynaecologists	OSPE	Objective structured practical examination
FHS	Faculty of Health Sciences	SOHRS	School of Health and Rehabilitation Sciences
HOD	Head of Department	TALPS	Test of Academic Literacy for Postgraduate Students
HPCSA	Health Professions Council of South Africa	TRREE	Training and Resources in Research Ethics Evaluation
HSREC	Health Sciences Research Ethics Committee	UFS	University of the Free State

RULES

Although the information in the Rule Book is as accurate as possible, the UFS does not accept any responsibility for any inaccuracies.

The UFS General Rules apply mutatis mutandis to this faculty.

The assessment rules outlined in the UFS General Rules apply to the postgraduate students in the FHS as well.

Besides the degrees and diplomas that the university may introduce in the future, the following degrees and diplomas can be obtained in the FHS:

NO DISCLOSURE OF MARKS, STUDENT INFORMATION, OR STUDENTS' PERFORMANCE WILL BE DISCUSSED WITH PARENTS OR OTHER THIRD PARTIES WITHOUT WRITTEN PERMISSION BY THE STUDENT TO PROTECT THE STUDENT'S PERSONAL INFORMATION.

SCHOOL OF HEALTH AND REHABILITATION SCIENCES

For details of rules for Master's and Doctoral studies in the School of Health and Rehabilitation Sciences, please refer to the School of Health and Rehabilitation Sciences undergraduate and postgraduate Rule Book.

SCHOOL OF CLINICAL MEDICINE II PATHOLOGY II BIOMEDICAL SCIENCES

BACHELOR OF MEDICAL SCIENCE HONOURS

MINIMUM 120 CREDITS

BMedScHons

RULE MGH1	RULES FOR THE DEGREE BACHELOR OF MEDICAL SCIENCE HONOURS
RULE MGH1.1	ADMISSION REQUIREMENTS

Admission may be subject to selection.

A student must comply with both the stipulations of the 2026 UFS General Rules 2026 for Bachelor Honours degrees and the rules of the FHS.

Registering for the degree BMedScHons (Medical Physics) requires any student to register with the Health Professions Council of South Africa (HPCSA) as an intern medical physicist. Registration as a medical physicist occurs after obtaining the BMedScHons qualification and at least two years' appropriate training in a university-bound training unit recognised by the HPCSA and under the supervision of a registered medical physicist, provided that of the two years of training, one year may take place while the person is enrolled for an Honours or higher degree.

RULE MGH1.2	DURATION OF PROGRAMME
-------------	-----------------------

If the module is offered in Anatomy and Cell Morphology, Chemical Pathology, Pharmacology, Medical Physiology, Human Molecular Biology, Human Genetics, Microbiology, and Medical Physics on a part-time basis, the study must extend over at least two academic years; otherwise, the module may be completed in one year.

The degree BMedScHons may be obtained in the following disciplines:

1. Anatomy and Cell Morphology	6. Immunology (In abeyance)
2. Chemical Pathology	7. Medical Microbiology/Virology
3. Haematology and Cell Biology	8. Medical Physics
4. Human Molecular Biology	9. Medical Physiology
5. Human Genetics	10. Pharmacology

2. ANATOMY AND CELL MORPHOLOGY**STUDY CODE BC863000**

- i. Admission requirements
 - An appropriate Bachelor's Degree or equivalent qualification with an appropriate curriculum composition is required for admission to the degree BMedScHons, on the understanding that the student may be required to do additional work. Admission is subject to selection, and the applicant must contact the postgraduate subject head of Human Anatomy and Cell Morphology. Students will be selected after a personal interview and assessment of academic merits.
 - Topics include Applied and Comparative Anatomy, Embryology, Biological Anthropology and Histology.
- ii. Curriculum

1. ANHG6808	Capita Selecta	32 Credits
2. ANHC6808	Capita Selecta	32 Credits
3. ANHS6808	Capita Selecta	32 Credits
4. ANHP6808	Capita Selecta	32 Credits

 - A student must complete a module/course in Research Methods and Principles to the satisfaction of the Head of Department.
- iii. Assessment
 - One three-hour examination is written in each of the following modules ANHG6808 and ANHC6808. A student must submit an assignment(s) dealing with an approved project(s) in the ANHS6808 and ANHP6808 module(s), at least one month before the commencement of the assessment(s) concerned. The mark obtained in the respective assignment(s) will form part of the pass mark for the specific module as specified in the module guide.
- iv. Pass requirements
 - See 2026 UFS General Rules.

3. CHEMICAL PATHOLOGY**STUDY CODE BC863300**

- i. Admission requirements
 - BMedSc in Biochemistry and Physiology or an equivalent qualification on the understanding that the student may be required to do additional work.
- ii. Curriculum
 1. Advanced Human Biochemistry
 2. Chemical Pathology
 3. Laboratory Practice, including molecular techniques
- iii. Assessment
 - MCHD6800 120 credits
 - Two three-hour assessment papers
 - One practical assessment
 - One oral assessment
 - One mini-dissertation
- iv. Pass requirements
 - See 2026 UFS General Rules.

4. HAEMATOLOGY AND CELL BIOLOGY**STUDY CODE BC863700**

- i. Admission requirements
 - BMedSc or an equivalent qualification with an appropriate curriculum composition.

ii. Curriculum

- Semester 1:

1. MHEM6810	Introduction to Haematology	15 credits
2. MHEH6810	Haemostasis	15 credits
3. MHEI6810	Immunohaematology	15 credits
- Semester 2

4. MHEM6820	Haematology	15 credits
5. MHEH6820	Haemostasis	15 credits
6. MHEI6820	Immunohaematology	15 credits
7. MHER6800	Haematology Research Report	30 credits
- Syllabus
 - a. Basic Research Principles
 - b. Submission of a research report in consultation with the HoD concerned.
 - c. Only one module per semester may be offered, with the exception of MHEP6800 (Haematology project), which can be submitted at any time.

iii. Assessment

- Written assignments.
- Three written examination papers per year.

iv. Pass requirements

- See 2026 UFS General Rules.

5. HUMAN GENETICS**STUDY CODE BC864100**

- i. Admission requirements
 - a. BMedSc, BSc or equivalent qualification with an applicable curriculum. Please note that no degree with substantial credit-bearing experiential training modules (e.g., Integrative Medical Laboratory Sciences Practical or Clinical Practice modules) will be considered as an equivalent qualification.
 - b. An average of at least 60% is required in each third-year major discipline.
 - c. Admission is subject to selection, taking into account appropriate undergraduate disciplines as well as academic performance. The applicant must contact the Head of Human Genetics.
 - d. The Honours degree in Human Genetics includes three compulsory modules, MHGM6800, MHGC6800 and MHGR6800.
- ii. Curriculum
 - a. MHGM6800
 - b. Module 1 - Diagnostic Molecular Genetics Module 2 - Diagnostic Cancer Genetics
 - c. MHGC6800
 - d. Module 3 - Diagnostic Cytogenetics and Fluorescent in situ Hybridization Module 4 - Introductory course into Genetic Counselling
 - e. MHGR6800.
 - f. Module 5 - Research Literature study Module 6 - Research Project
 - g. Participation in the academic programme of Human Genetics and attendance of lectures and seminars in other departments, as determined by the head of Human Genetics, is required
- iii. Module outline

1. MHGM6800	Modules 1 and 2	40 credits
2. MHGC6800	Modules 3 and 4	40 credits
3. MHGR6800	Modules 5 and 6	40 credits

- iv. Assessment (MHGM6800, MHGC6800, and MHGR6800)
- Two written papers (MHGC6800 and MHGM6800)
 - Research report, seminar, and oral assessment (MHGR6800)
 - a. MHGM6800 is assessed through assignments as well as a three-hour examination.
 - b. MHGC6800 is assessed through assignments as well as a three-hour examination.
 - c. MHGR6800 is assessed by a written scientific report as well as an oral presentation.

6. HUMAN MOLECULAR BIOLOGY

STUDY CODE BC864100

- i. Requirements
- a. BMedSc, BSc or equivalent qualification with an applicable curriculum. Please note that no degree with substantial credit-bearing experiential training modules (e.g., Integrative Medical Laboratory Sciences Practical or Clinical Practice modules) will be considered as an equivalent qualification.
 - b. Admission is subject to selection, and the applicant must contact the subject head of Human Molecular Biology.
 - c. The Honours degree in Human Molecular Biology includes three compulsory modules (MBGT6804, MBGP6816 and MBGR6828) and three modules of choice, selected in consultation with the subject head from the list below. All modules of choice have three-hour examination papers. A written scientific paper and an oral presentation are required for MBGP6816 and MBGR6828. MBGC6814 and MBGS6824 are Capita Selecta modules that can be taken after consultation with and approval by the subject head of Human Molecular Biology.
- ii. Curriculum
- The modules start on a date determined by the subject head.
 - Compulsory modules

1.	MBGT6804	Research Techniques	16 credits
2.	MBGP6816	Research: Literature Studies	24 credits
3.	MBGR6828	Research Project	32 credits
 - Modules of choice

1.	MBGM6814	Diagnostic Molecular Biology	16 credits
2.	MBGI6814	Introductory Immunology	16 credits
3.	MBGH6814	Introductory Haematology	16 credits
4.	MBGC6814	Capita Selecta	16 credits
5.	MBGS6824	Capita Selecta	16 credits
- iii. Assessment
- a. MBGT6804 is assessed through assignments as well as a three-hour examination.
 - b. MBGP6816 and MBGR6828 are assessed in a written scientific report as well as an oral presentation.
 - c. MBGM6814, MBGI6814, and MBGH6814 are assessed in written assignments and practicals as required as well as a three-hour examination paper.
 - d. MBGC6814 and MBGS6824 are assessed according to the individual stipulations of the module.
- iv. Pass requirements
- See 2026 UFS General Rules.

7. IMMUNOLOGY (IN ABEYANCE)

STUDY CODE BC863800

- i. Admission requirements
- BMedSc or an equivalent qualification with an appropriate curriculum composition.
- ii. Curriculum
- | | | | |
|----|----------|------------------------------------|------------|
| 1. | MIMI6800 | Immunohaematology | 60 credits |
| 2. | MIMH6800 | Humoral and Cellular Immunology | 60 credits |
| 3. | MIMC6800 | Laboratory and Clinical Immunology | 60 credits |
| 4. | MIMP6800 | Immunology project | 60 credits |
- Syllabus
- a. Basic research principles
 - b. Submission of a Research Report in consultation with the HoD concerned.
 - c. Only one module per semester may be offered, with the exception of MIMP6800 (Immunology project), which may be submitted at any time.
- iii. Assessment
- (MIMI6800; MIMH6800; MIMC6800)
 - Two written papers.
 - One practical assessment.
 - One oral assessment per semester.
- iv. Pass requirements
- See 2026 UFS General Rules.

8. MEDICAL MICROBIOLOGY AND VIROLOGY

STUDY CODE BC863900

- i. Admission requirements
- a. A BSc degree or equivalent qualification with an applicable curriculum, which includes Microbiology, must be preferably obtained with a minimum average of 65% for the first major at third-year level. A minimum average of 65% in the second major discipline will be to the advantage of prospective applicants.
 - b. Admission is subject to selection, and the applicant must contact the Department of Medical Microbiology or the Division of Virology for application forms.
 - A limited number of students per year will be selected for admission to the degree based on undergraduate academic achievement, availability of supervisory staff and an interview if requested by the department.
- ii. Curriculum
- Students must complete six modules, which include five compulsory modules and one module of choice that will be selected in consultation with the course leader. MMKC6804 is a Capita Selecta module that may be selected in place of one of the other modules of choice only after consultation with and approval by the course leader in Medical Microbiology/Virology.
 - The course commences on a date determined by the course leader.
 - Compulsory modules

1.	MMKT6804	Research Techniques	16 credits
2.	MMKP6804	Research: Project proposal/literature study	16 credits
3.	MMKR6800	Research Report	40 credits
4.	MMKM6804	Current research in medical Bacteriology	16 credits
5.	MMKV6804	Current research in Virology	16 credits

- Modules of choice
 1. MBGM6814 Diagnostic: Molecular Biology 16 credits
 2. MBGI6814 Introductory Immunology 16 credits
 3. MMKC6804 Capita selecta 16 credits
- iii. Assessment
 - a. MMKT6804, MMKM6804, MMKV6804, MBGM6814, MBGI6814 and MMKC6804 are assessed according to the individual stipulations of the module.
 - b. MMKP6804 is assessed by a written proposal and oral presentation.
 - c. MMKR6800 is assessed by a written Research Report and an oral presentation.
- iv. Pass requirements
 - See 2026 UFS General Rules.

9. MEDICAL PHYSICS

STUDY CODE BC863500

- i. Admission requirements
 - A student must have a BMedSc (Radiation Sciences) or equivalent BSc degree with appropriate discipline content to qualify for admission to the Honours degree. Admission will be subject to selection. The HoD may grant permission for admission to the Honours degree in exceptional cases. The programme commences mid-January, and students must apply for admission to the HoD before 30 September of the previous year.
- ii. Curriculum
 - First Semester
 1. MPRS6814 Radiation Physics 16 credits
 2. PHYD6804 Quantum Mechanics 16 credits
 3. PHYB6804 Semiconductors 16 credits
 4. MATN6814 Digital Imaging Processing 16 credits
 5. MPRS6808 Research in Medical Physics 32 credits
 - Second Semester
 1. MPRS6824 Medical Physics for Diagnostic Radiology 16 credits
 2. MPRS6844 Medical Physics for Nuclear Medicine 16 credits
 3. MPRS6864 Radiation Treatment Planning 16 credits
 4. MPRS6884 Radiation Treatment Modalities 16 credits
 5. PHYE6844 Electronics 16 credits
- iii. Duration of programme
 - One year if followed full-time, or two years if followed part-time.
 - a. Admission to the assessment opportunity
 - To gain admission for the assessment, a minimum module mark of 40% is required in modules MPRS6814, MPRS6808, MPRS6824, MPRS6844, MPRS6864, and MPRS6884.
 - Composition of module marks for modules MPRS6814, MPRS6808, MPRS6824, MPRS6844, MPRS6864, and MPRS6884.
 - A student's written, oral and/or practical work conducted during the module contributes to the module mark. Details of the composition of the module mark are included in the individual module guides.
 - b. Calculation of marks
 - Both the module mark and the assessment mark contribute 50% to the final combined mark.
- iv. General Rules with regard to MPRS6814, MPRS6808, MPRS6824, MPRS6844, MPRS6864, and MPRS6884

- Students are required to utilise the first assessment opportunity for all modules offered in the School of Clinical Medicine. Students can only qualify for participation in the second opportunity if they have participated in and qualified for the first opportunity.
- v. Pass requirements
 - See 2026 UFS General Rules.
- vi. Reassessment
 - See 2026 UFS General Rules.
 - The 2026 UFS General Rules A28 only apply if the student:
 - a. Had been admitted to the assessment opportunity (i.e., had obtained a module mark of at least 40%).
 - b. Had obtained at least 30% in the outstanding module during the assessment opportunity.

ELUCIDATION:

A student who wishes to register as a medical physicist with the HPCSA must obtain practical experience in Clinical Medical Physics as prescribed by the HPCSA in addition to the BMedScHons degree.

If the Honours programme is taken full-time, an additional in-service training of two years is required before a student can register with the HPCSA.

If the Honours course is done on a part-time basis and practical experience in Clinical Medical Physics is gained at the same time, one year of additional in-service training is required before registration with the HPCSA can take place.

10. MEDICAL PHYSIOLOGY

STUDY CODE BC863600

- i. Admission requirements
 - a. The BMedSc/BSc or equivalent qualification with Physiology as a major discipline.
 - b. Admission is subject to selection and the applicant must contact the postgraduate subject head of Human Physiology. Students will be selected after a personal interview and assessment of academic merits.
- ii. Curriculum

1.	PHHG6808	General Physiology	32 credits
2.	PHHC6808	Capita Selecta from the discipline Physiology	32 credits
3.	PHHS6808	Seminars on Physiology	32 credits
4.	PHHP6808	A practical laboratory assignment with a report or a seminar on the theory of specific biological laboratory techniques	32 credits
- iii. Assessment
 - Part I PHHG6808
The basic aspects of the entire field of study or as defined by the HOD. (One three-hour assessment paper.)
 - Part II PHHC6808
Attending scheduled postgraduate discussions and interpreting knowledge gained. (One three-hour assessment paper.)
 - Part III PHHS6808
The field covered by seminars on Physiology as interpreted by the student. (One three-hour assessment paper.)
 - Part IV PHHP6808
The field covered by practical laboratory work or the theory of specific biological laboratory techniques as relevant. (One oral assessment of 30 minutes.)

- Elucidation
 - a. The postgraduate subject head briefs the student regarding assignments.
 - b. A typed report and/or seminars must be submitted to the postgraduate subject head at least one month prior to the assessment.

11. PHARMACOLOGY (ANALYTICAL/CLINICAL)

STUDY CODE BC863400

- i. Admission requirements
 - BSc or an equivalent qualification.
- ii. Curriculum
 - Medical Pharmacology
 - Applied Pharmacology
 - Pharmacological Research Methods
 - Mini-dissertation

Each student will submit and undertake a pharmacology research project under the supervision of a staff member. The research project, preferably original, but not necessarily so, may deal with any aspect of pharmacology as recommended by the HoD.
- iii. Assessment
 - 1. MFRM6800 120 credits
 - Assessment occurs as a continuous process, and the final mark will be calculated by proportional marks obtained from progressive assessments as well as marks obtained in the mini-dissertation. The contribution to the final marks will be as follows:

a. Medical Pharmacology (at least four tests of 2 hours each)	25%
b. Applied Pharmacology (at least two tests of 2 hours each)	10%
c. Research Methods (at least four tests of 2 hours each)	25%
d. Mini-dissertation (including defending against scrutiny by an external assessor)	40%
- iv. Pass requirements
 - See 2026 UFS General Rules.

MASTER OF MEDICINE || MMED

480/600 CREDITS

RULE MGH2

RULES FOR THE MASTER OF MEDICINE DEGREE

A student must comply with both the stipulations of the 2026 UFS General Rules for Master’s degrees and the rules of the Faculty of Health Sciences (FHS).

In accordance with the rules and regulations of the HPCSA, all students who commenced training after 1 January 2011 must pass the final professional examinations (final specialist examinations) of the HPCSA as contracted to the CMSA at present. The resulting mark will then constitute the outcome mark of the final MMed examinations. NAMB7900 will still be evaluated separately, and a percentage mark is allocated.

Postgraduate students are appointed after a selection process as stipulated and according to guidelines as determined from time to time. The applicable guidelines and prerequisites for the individual disciplines are available from the Postgraduate Administration Office of the FHS.

RULE MGH2.1

DISCIPLINES

The degree may be obtained in the following disciplines:

1. Anaesthesiology	12. Forensic Medicine	22. Ophthalmology
2. Anatomical Pathology	13. Haematology	23. Orthopaedic Surgery
3. Cardiothoracic Surgery	14. Internal Medicine	24. Otorhinolaryngology
4. Chemical Pathology	15. Medical Genetics	25. Paediatrics
5. Clinical Pathology	16. Medical Microbiology	26. Paediatric Surgery
6. Clinical Pharmacology	17. Medical Virology	27. Plastic Surgery
7. Community Health	18. Neurology	28. Psychiatry
8. Dermatology	19. Neurosurgery	29. Radiation Oncology
9. Diagnostic Radiology	20 Nuclear Medicine	30. Surgery
10. Emergency Medicine	21. Obstetrics and Gynaecology	31. Urology
11. Family Medicine	22. Ophthalmology	

RULE MGH2.2

ADMISSION REQUIREMENTS

The following applies to students before registering for the MMed degree:

- a. The student must be in possession of the MBChB degree from the UFS for a period of at least three years, or a cognate qualification deemed equivalent by the UFS.
- b. The student must be fully registered as a medical practitioner with the HPCSA for independent practice in terms of the Health Professions Act no. 56 of 1974.
- c. In the case of supernumerary appointments of foreign students who are not fully registered with the HPCSA, each case will be dealt with on merit according to the prescriptions of the HPCSA. The foreign students register as postgraduate students at the HPCSA. If successful, these students may obtain a degree but will not be able to practice in South Africa without approval and registration by the HPCSA.
- d. After a selection process, postgraduate students are appointed to a training post (registrar) by the FSDOH as defined by and according to guidelines. The applicable process and rules are available at the postgraduate administration office of the FHS. Training commences after the student has been appointed in the above-mentioned post and after he/she has received an HPCSA training number from the Postgraduate Administrative Office of the FHS.
- e. General requirements per discipline.

DISCIPLINE	MINIMUM REQUIREMENT	ADDED ADVANTAGE
ANAESTHESIOLOGY	Diploma in Anaesthesiology – DA(SA)	Research experience Successfully passed BLS, ACLS, ATLS and/or PALS course Passed Primary Examination / FCA(SA) Part I
CARDIOTHORACIC SURGERY	Primary – FCS(SA) Primary, ATLS, 6 months experience in General Surgery ICU	
CLINICAL PHARMACOLOGY	A postgraduate diploma in Clinical Pharmacology (UFS Study code 8212) or training and experience deemed equivalent	
COMMUNITY HEALTH MEDICINE		Previous research experience or previous public health training, such as PG Diploma or MPH
DERMATOLOGY	6-12 months experience in Internal Medicine as a Medical Officer	Dermatology experience A topic for research
DIAGNOSTIC RADIOLOGY	Passed FC Rad Diag (SA) Part I At least 12 months clinical experience post community service	Time spent working in Diagnostic Radiology Ultrasound proficiency or workshops completed ACLS

EMERGENCY MEDICINE		6 months experience in an Emergency Department Successfully passed BLS, ACLS, ATLS and/or PALS course
FAMILY MEDICINE		Experience in PHC service delivery or rural service delivery
FORENSIC MEDICINE		Dip For Med (SA) (Path) or Dip for Med (SA) (Clin Path)
GENERAL SURGERY	Primary – FCS(SA) Primary	Successfully passed BLS and/or PALS course Basic Surgical Skills
INTERNAL MEDICINE	Primary – FCP(SA) Part (I)	
MEDICAL GENETICS		6 months experience in Paediatrics
NEUROLOGY	Primary – FC Neurol(SA) Part 1 examination, Minimum 6 months experience in Internal Medicine as a Medical Officer	
NEUROSURGERY	MBChB passed with >60%. Neurosurgery experience/ Intermediate/ATLS/ Part 1 FC(Neurosurgery) CMSA	ATLS
NUCLEAR MEDICINE	MBChB passed with >60%. Primary	ACLS OET(Occupational English Test)
OBSTETRICS AND GYNAECOLOGY	FCOG(SA) Part 1A and Part 1B (full) or Diploma in Obstetrics with either FCOG(SA) Part1A or Part 1B >6 months Obstetrics and Gynaecology experience is mandatory	
OPHTHALMOLOGY	FC Ophth(SA) Part 1A (Primary), 6 months experience in Ophthalmology as a Medical Officer	FC Ophth(SA) Part 1B (intermediate) or Diploma in Ophthalmology – Dip Ophth(SA)
ORTHOPAEDIC SURGERY	FCS(SA) Primary	ATLS, 12 months experience in Orthopaedics
OTORHINOLARYNGOLOGY	At least 12 months experience in a Surgical discipline or ICU FCORL (SA) Primary or FCS (SA) Intermediate	FCORL (SA) Primary, FCS (SA) Intermediate
PAEDIATRICS AND CHILD HEALTH	At least 6 months experience post Community Service in a regional hospital or Diploma in Child Health – DCH(SA) and FC Paed(SA) Part I	
PAEDIATRIC SURGERY	Primary, FCS(SA) Primary Successfully passed BESST, BLS, APLS and/or PALS course Basic surgical skills	Experience in general surgery
PLASTIC SURGERY	Primary – FCS(SA) Primary Intermediate – FCS(SA) Intermediate exams	Research record/ Published articles/ Microsurgical certification
PSYCHIATRY		Diploma in mental health – DMH(SA), FC Psych (SA) Part I
RADIATION ONCOLOGY	MBChB passed with >60%.	BLS Proof of research experience Empathetic nature Exposure to Oncology or palliative care
UROLOGY	FCS (SA) primary	FCS (SA) Intermediate 12 months experience in Urology as Medical Officer 12 months experience in General Surgery after Community Service Diploma in General Surgery-HDip Surg(Surg) At least 12 months post Community Service ATLS, APLS or ACLS

ELUCIDATION:

- i. The student registers in the first year of the MMed programme at the FHS as a postgraduate student and is allocated a student number.

- ii. For four-year MMed programmes, the student must simultaneously register at the HPCSA as a registrar in training and is allocated an HPCSA board number. The last two years of the programme must be completed without interruption of registration at the UFS.
- iii. For five-year MMed programmes, the student must register with the UFS as a postgraduate student in the first year of the MMed programme and is simultaneously appointed as registrar in a relevant department at the Academic Hospital Complex/NHLS. The student does not register as a registrar in training at the HPCSA, but as an independent medical practitioner, even though he/she is appointed to a registrar post by the employer. The reason for this is that the UFS requires five years for training, whereas the HPCSA does not make provision for five-year programmes – it regards all postgraduate programmes as four-year programmes. To overcome the aforementioned, students in five-year programmes register at the HPCSA only from their second year. By implication, a student following a five-year programme is registered for five years at the UFS and for four years (from the second year of study) as a registrar at the HPCSA. The last three years of the programme must be completed without interruption of registration at the UFS.
- iv. For MMed Ophthalmology, a student registers with the UFS as a postgraduate student in the first year of the MMed programme and is simultaneously appointed as registrar in the relevant department at the Academic Hospital Complex. The student does not register as a registrar in training at the HPCSA but as an independent medical practitioner, even though he/she is appointed to a registrar post by the employer. The reason for this is that the UFS requires four and a half years for training, whereas the HPCSA does not make provision for four and a half years – it sees all postgraduate programmes as four-year programmes. To overcome the aforementioned, a student in Ophthalmology registers as a registrar at the HPCSA only after six months in a registrar post. By implication, a student in the Ophthalmology programme is registered for four and a half years at the UFS and for four years at the HPCSA. The last three years of the programme must be completed without interruption of registration at the UFS.
- v. After the first year, the student must register annually at the beginning of each year as a postgraduate student at the UFS and as a registrar with the HPCSA as described above.
- vi. If the student is not appointed to the post of registrar and discontinues the MMed programme, class fees will not be refunded.
- vii. In circumstances where extended leave for illness (for more than one month per year, including incapacity leave or pregnancy) is granted, additional time will be added at the end of the training period to allow for adequate training and as prescribed by the HPCSA from time to time.

RULE MGH2.3**RECOGNITION OF TRAINING RECEIVED AT ANOTHER RECOGNISED INSTITUTION**

1. Possible exemption for four- and five-year programmes on the basis of comparable training and experience gained at another recognised institution in a training position with an HPCSA number could be granted by the UFS with respect to the training and labour.
2. The maximum admissible period of exemption at another recognised institution is 24 months.
 - i. For MMed programmes over five years, exemption of a one-year residency is subject to the following conditions:
 - ii. In special cases of merit.
 - iii. With proof of sufficient experience.

With recommendation of the HoD and approval of the EXCO of the relevant school, and approval by the Faculty Management.

ELUCIDATION:

- i. Special merit in this case refers to periods of training spanning at least 12 months and for at least six months continuously at an accredited institution, division, or department as a medical officer. The mentioned period of training must have taken place within the past two years before registering as a postgraduate student.
- ii. Sufficient experience must be proven by means of a portfolio/logbook and endorsement by the head of the division or department where experience was gained. The aforementioned information of a currently registered student must then be assessed and approved by the HoD as equal to the first year of training in the discipline as a registrar.

- iii. Applications for exemption of residency time must be submitted not before 24 months and not later than 30 months after registration as a postgraduate student¹. Additional requirements will apply for exemption of residency time are as follows: Completion of NAMA7903, MGPV7900, primary examination and after obtaining HSREC approval for the NAMB7900 research protocol. No applications will be considered without compliance with the aforementioned.
- iv. Subsequent final approval must be obtained by the HPCSA.

RULE MGH2.4 DURATION OF PROGRAMME

- a. The duration of training extends over four or five years full-time, depending on the requirements of the discipline under which the major module falls (see Rule MGH2.6).
- b. Upon appointment and annually thereafter, registrars must register both as a student at the UFS and as a registrar with the HPCSA. Read in conjunction with Rule MGH2.2 Elucidation (ii) (iii) and (iv).

RULE MGH2.5 CLINICAL EXPERIENCE

The HPCSA recognises only a registrar post as a training post.

RULE MGH2.6 CURRICULUM

The curriculum for the various disciplines in which the student may obtain the MMed degree comprises the compulsory modules mentioned in Rule MGH2.6.1, as well as the discipline-specific curriculum relevant major modules, basic modules and subsidiary modules as set forth in Rule MGH2.6.2.

RULE MGH2.6.1 GENERAL CURRICULUM COMPULSORY FOR ALL DISCIPLINES

A. RESEARCH COMPONENT

76 CREDITS

The research component of the MMed programme comprises two sections, namely Research Methodology (NAMA7903) and mini-dissertation (NAMB7900):

■ **NAMA7903 Research Methodology**

Research Methodology comprises two parts, namely:

- 1. Part A – Theoretical component (attendance plus successful completion of assignments)
- 2. Part B – HSREC approval for the research protocol

ELUCIDATION:

Successful completion of NAMA7903 entails the following:

- i. A minimum attendance rate of 75% is required.
- ii. Pass Ethics online modules 1 of 3.
- iii. A pass mark for two of three assignments (only one assignment can be passed on a second attempt).
- iv. The theoretical component of Research Methodology (NAMA7903) must be successfully completed within the first 12 months after registration as a student, and full HSREC approval/ other UFS REC approval of the research protocol for NAMB7900 must be obtained within 24 months after registration as a student.
- v. A student who does not comply with these conditions cannot continue with the MMed programme without written approval. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office to the EXCO of the relevant school. Following the aforementioned, the head of the relevant school will make a formal written recommendation to the Dean to request permission to continue with the programme. A student may only continue with the MMed programme with written approval from the Dean.

¹ Late application may make it impossible to complete all the rotations in time

■ **NAMB7900 Mini-dissertation**

In order to be admitted to NAMB7900 (Mini-dissertation), a student must have successfully completed Research Methodology (NAMA7903).

PLEASE NOTE: MMed (Community Health) – Study Code BC873000: Module code for the mini-dissertation MVKS7900
MMed (Family Medicine) – Study Code BC875300: Module code for the mini-dissertation MRPD7900 (The same rules pertaining to module NAMB7900 apply to modules MVKS7900 and MRPD7900.)

ELUCIDATION:

- i. The MMed Research Report comprises one of the following:
 - Original research
 - Systematic review or meta-analysis
 - For all disciplines, the protocol for the mini-dissertation (NAMB7900) must be approved by the HSREC. A copy of the final approval (as well as applicable Department of Health/NHLS/institutional) approval must be submitted to the postgraduate administration office together with a timeframe for completion of NAMB7900.

Mode of presentation [2026 UFS General Rule A23]

THE MANUSCRIPT SUBMITTED FOR ASSESSMENT SHOULD BE IN ONE OF THE FOLLOWING FORMATS:

- Mini-dissertation (20 000–30 000 words).
- Publishable manuscript (accompanied by a literature review between 3000 and 4000 words).
- Published article in a peer-reviewed DHET-accredited journal to be submitted in the same format as the publishable manuscript.
 - i. Disciplines individually determine which mode of presentation is appropriate.
 - ii. 2026 UFS General Rule A23: An introduction and a conclusion must form part of the research work that has been done by the student when publishable manuscripts/published articles are submitted in place of a mini-dissertation.(Guidelines on the mode of presentation are available from the postgraduate administration office.)
 - iii. All students are expected to comply with the UFS Policy on Preventing and Dealing with Academic Writing Misconduct, which can be found on the UFS website.
 - iv. The mini-dissertation/publishable manuscript/published article has to be submitted for assessment prior to registration for the final exit examination. A student who has not submitted the mini-dissertation/publishable manuscript/published article may not register for the final exit examination. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office, to the EXCO of the relevant school for permission to register for the final exit examination.

ASSESSMENT:

- i. All UFS General Rules pertaining to the assessment of the mini-dissertation/publishable manuscript/published article of the professional coursework Master’s Degree apply.
- ii. The mini-dissertation/publishable manuscript/published article has to be assessed by two assessors, of whom at least one has to be an external assessor.
- iii. The Supervisor, in collaboration with the HoD, will be responsible for nominating either one external (a person not affiliated with the UFS, however, affiliated with another tertiary institution and regarded as an expert in the field) and one internal assessor (who must not be either the supervisor or co-supervisor), or two external assessors (persons not affiliated with the UFS, however, affiliated with another tertiary institution and regarded as experts in the field) for the assessment of the mini-dissertation/publishable manuscript/published article.
- iv. A sub-committee of the MMed MPhil committee will evaluate the eligibility and suitability of the nominated assessors. The evaluation will be based on the following criteria

- a. Number of specialists or subspecialists in the relevant field
- b. National expertise in that field of study
- c. Number of potential eligible assessors considering
 - i. Relevant qualifications
 - ii. Research experience
 - iii. Experience in research supervision at postgraduate level
 - iv. Research assessment experience
- v. As soon as the supervisor has indicated that the student is ready to submit, the HoD should provide the postgraduate administration office with the names and contact details of the nominated assessors, after which the postgraduate administration office will officially notify the assessors of their nomination.
- vi. The mini-dissertation/publishable manuscript/published article must be submitted to the postgraduate administration office, which will then forward the documents to the assessors. All assessors' reports, mark sheets and communication must be submitted via the postgraduate administration office.
- vii. The mini-dissertation/publishable manuscript/published article (NAMB7900) must be passed individually in order for the MMed degree to be conferred. The HPCSA will be notified of compliance with the research component of the MMed degree with this mark in order to register as a specialist.
- viii. The student can only be signed off (for UFS and HPCSA purposes) once residency time has been completed, the final exit examination has been passed, the mini-dissertation has been passed, and corrections to the research manuscript have been completed. Refer to 2026 UFS General Rule A28.

B. HEALTH CARE PRACTICE

ATTENDANCE

MGPV7900 Health Care Practice Elucidation:

- i. An attendance rate of 100% is required.
- ii. Before the MMed degree can be obtained, a student must pass module MGPV7900 by means of attendance.
- iii. Medical ethics and rights, patient communication, practice management, information systems, relevant policy and orientation could be included in the syllabus.
- iv. MGPV7900 must be completed within the first 24 months after registration as a student.

C. CONTINUOUS ASSESSMENT

CONTINUOUS ASSESSMENT

CAM07900 Continuous Assessment

A student must be found competent following continuous departmental formative and summative clinical and academic assessment. The Head of Department must confirm that the student is competent prior to admission to the CMSA Part II (final) examination.

DEFINITION:

Continuous assessment is an ongoing process of evaluating and monitoring a student's learning and progress throughout an academic program. This approach involves frequent and regular measurements of a student's knowledge, understanding, skills, and abilities over time. Continuous assessment utilises various methods of formative and summative assessments and may include (albeit not limited to) assignments, presentations, tests, peer assessments, observations, logbooks (format as agreed upon by Faculty and Medical School), and others, but should be accompanied by formative feedback and, where necessary, should lead to remedial action.

ELUCIDATION:

- i. All clinical departments are required to engage in continuous assessment throughout the training period per HPCSA guidelines.
- ii. Formative feedback and remediation must be integral to the continuous assessment process.
- iii. External assessment(s) may form part of the continuous assessment.
- iv. Continuous assessment should be undertaken throughout the academic year and for the duration of the training period.
- v. Each department will determine the frequency and nature of continuous assessments, which should be published in the departmental rules and applicable course guides.
- vi. Although there is no requirement to assign a grade for formative assessments, it is essential to maintain thorough documentation detailing the assessment's nature and results. Additionally, any subsequent remedial measures (if necessary) should be documented. Both the candidate and the Head of the Department should sign this record.
 - a. Whilst there is no need to generate a mark for the assessments, clear documentation on the nature and outcome of the assessments and further developmental or remedial action (if applicable) should be kept. This documentation should be signed by the Head of the Department and the candidate for each assessment.
- vii. Where a candidate does not perform satisfactorily in a continuous assessment, it should lead to remediation and repeat assessment until the point of competence.
- viii. The Head of the Department must annually submit a report to the Postgraduate Office (PGO) indicating one of the following for each registrar:
 - a. The registrar has performed satisfactorily in their continuous assessment for the year and may progress to the next year of study.
 - b. The registrar's performance in the continuous assessment was deemed borderline, prompting ongoing remedial action, but the registrar may progress to the next year of study with the provision that they will comply with the agreed-upon remedial action.
 - c. The registrar has not performed satisfactorily, so progression to the next year of study is not recommended. This statement should be accompanied by a comprehensive report, including all relevant evidence, elucidating why the candidate is not eligible for advancement to the next year of study.
 - i. The PGO will forward all such reports to serve on the following MMed/MPhil committee.
 - ii. Where the MMed/MPhil committee finds that a candidate has not performed satisfactorily and should not progress to their next academic year, the candidate will have the right to appeal this decision; appeals of this nature will serve at the MMed MPhil committee.
- ix. The Head of the Department must confirm that the student is competent before admission to the CMSA Part II (final) examination.
- x. Non-compliance or outstanding unsuccessful assessments will preclude the candidate from admission to the CMSA Part II (final) examination.
- xi. Non-compliance may also lead to the candidate being excluded academically from the training programme.

RULE MGH2.6.2

DISCIPLINE-SPECIFIC CURRICULA

Professional portfolio/logbook:

- A professional portfolio of evidence must be kept, which includes all academic and clinical activities, and this should include a logbook of procedures performed.
- Formal assessment of the portfolio/logbook will be done bi-annually as per HPCSA requirements.
- The curricula of the various disciplines in which the MMed degree can be obtained comprise of the compulsory modules mentioned in Rule MGH2.6.1, as well as the relevant major module, basic modules, and subsidiary modules as outlined in Rule MGH2.6.2.
- The syllabi of each discipline are compiled as such that the MMed student is guided under supervision to take charge of the assessment and treatment of patients in outpatient divisions, wards, and operating theatres of the training institutions with increasing confidence and responsibility.
- Registrars will participate in undergraduate training and assessment, subject to the rules that apply in the individual departments.

APPLICABLE TO ALL MMed DEGREES:

RULE MGH2.7 ASSESSMENT

- i. The single exit examination is hosted by the Colleges of Medicine SA (CMSA) on the instruction of the HPCSA. The CMSA presents the Written and Oral examinations twice a year. This examination will be recognised as equivalent to the MMed final examination.
- ii. MMed Examinations: Students must notify the postgraduate administration office annually of the Faculty in writing (required form) before 15 February or 15 July of their intention to sit for the June or November assessment.
- iii. CMSA Examinations: Students must notify the Postgraduate Administration Office annually of the Faculty in writing (required form) before 1 December for the first semester of the following year or 1 May for the second semester of their intention to sit for the CMSA examination (Primary Intermediate Final).
- iv. A MMed degree can only be conferred if all the modules are passed individually and timeously.
- v. The examination of the UFS modules may be written in June or November, only during the main examination opportunity. Please note the generic rule:

UFS General Rules 2026 A21.9(b): A student who has already twice registered for a specific module (paper/practical) in a coursework master's degree dissertation or mini-dissertation and has not yet met the pass requirements, is only allowed one further opportunity to register for the module on the basis of exceptional merit, with the approval of the Dean, on the recommendation of the programme director or the academic HoD or the director of the Business School as regards to the MBA, and with written notification to the Registrar.

Application of the aforementioned rule in the School of Clinical Medicine and the School of Pathology:

Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office, to the EXCO of the relevant school. Following the aforementioned, the head of the relevant school must make a formal written recommendation to the Dean to request permission to register for the same module for a third opportunity. A student may only register for the same module for a third opportunity (while registered with UFS) with written approval from the Dean.

RULE MGH2.7.1 PRIMARY PART I OF THE ASSESSMENT: ALL DISCIPLINES

- a. When sitting for the MMed primary examination, examination in all the basic modules must be written simultaneously, except in the disciplines Anaesthesiology, Ophthalmology, Radiation Oncology and Psychiatry, where students may write assessment in any of the basic modules. The assessment in Anatomy, Physiology and Anatomical Pathology (where applicable) comprises a written and oral examination in each of the stated modules.
- b. MMed (Chemical Pathology), (Medical Microbiology), (Haematology), (Medical Virology) and (Anatomical Pathology): Part I of the assessment of the College of Pathologists is recognised as being equivalent to the MMed Part I assessment.
- c. MMed in Surgery, Cardiothoracic Surgery, Neurosurgery, Orthopaedic Surgery, Paediatric Surgery, Plastic Surgery, and Urology. The MMed Primary may or may not be offered at the discretion of the HoD in conjunction with the MMed committee, in which case the student will be required to write the College of Medicine Primary examination.
- d. To pass a module in disciplines where all the modules must be written simultaneously, an assessment mark of at least 40% must be obtained in a failed module to be allowed to repeat the specific failed module. Should a module be failed with less than 40%, the examination must be repeated in its entirety.
- e. For all four-year MMed programmes (and Ophthalmology): By 18 months after registration as a student, the student must have passed at least one of the basic modules in the disciplines where there are two modules or two of the basic modules in the disciplines where there are three or more. In all the four-year programmes (this includes additional examination), Part I must be passed in its entirety at 24 months after registration as a student. Exceptions: Oncology – Part 1 must be passed in its entirety within 18 months after registration as a student; Anatomical Pathology Part 1 must be passed in its entirety at 30 months after registration as a student. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office, to the EXCO of the

relevant school to continue in a registrar post. Following the aforementioned, the head of the relevant school must make a formal written recommendation to the Dean to request permission to continue in a registrar post. A student may only continue in a registrar post with written approval from the Dean.

- f. For all five-year MMed programmes: Part I of the assessment must be passed in its entirety within 18 months after registration as a student (including additional examination). Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office to the EXCO of the relevant school to continue in a registrar post. Following the aforementioned, the head of the relevant school must make a formal written recommendation to the Dean to request permission to continue in a registrar post. A student may only continue in a registrar post with written approval from the Dean.
- g. Failed modules or examinations must be successfully completed at the first following examination. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office to the EXCO of the relevant school to miss the first following assessment. Following the head of the relevant school must make a formal written recommendation to the Dean to request permission to miss the first following assessment. A student may only miss the first following assessment with written approval from the Dean.

ELUCIDATION:

- i. Disciplines could exercise the choice to personally conduct Part I of the assessment or to have it conducted by the relevant CMSA.
- ii. Part I of the CMSA may be viewed and recognised as equal to Part I of the MMed programme. It must be recommended by the HoD and approved by the EXCO of the relevant school and the Faculty Management.
- iii. Exemption from basic modules may be granted on the recommendation of the HoD and approval of the EXCO of the relevant school after being satisfied that the student has passed an equivalent assessment at an institution recognised by the university.

RULE MGH2.7.2 INTERMEDIATE – PART II OF THE ASSESSMENT: FIVE-YEAR PROGRAMMES

- a. After a student has passed Part I, preferably 12 months must elapse before the student reports for Part II of the assessment with the consent of the relevant HoD.
- b. In five-year MMed programmes – Surgery, Cardiothoracic Surgery, Neurosurgery, Orthopaedic Surgery, Paediatric Surgery, Plastic Surgery and Urology, the MMed intermediary may or may not be offered at the discretion of the HoD in conjunction with the MMed committee, in which case the student will be required to write the CMSA intermediary examination. A student must pass Part II (subsidiary modules) in its entirety (including the reassessment) within 36 months of registration. The HoD must recommend it, and it must be approved by the EXCO of the relevant school. All failed intermediate (Part II) examinations must be successfully completed at the first following examination. Only in exceptional circumstances may the HoD submit a written recommendation together with an academic progress report compiled by the postgraduate administration office to the EXCO of the relevant school to miss the first following assessment. A student may only miss the first following assessment with written approval from the Dean.
- c. On the recommendation of the HoD and the approval by the EXCO of the relevant school, exemption from the university intermediate examination may be granted for the intermediate examination of the CMSA.

RULE MGH2.7.3 FINAL – ASSESSMENT OF PART II OF FOUR-YEAR PROGRAMMES
FINAL – ASSESSMENT OF PART III OF FIVE-YEAR PROGRAMMES

- a. The final examination may not be written before the commencement of the final year of study, except upon recommendation of the HoD and approval of the EXCO of the relevant school and Faculty Management. Preferably, 12 months must elapse after the previous examination has been successfully completed.
- b. MMed (Chemical Pathology), (Medical Microbiology), (Haematology), (Anatomical Pathology) and (Medical Virology): Part II of the assessment may be written after a minimum of three academic years of study. The mini-dissertation/publishable manuscript/published article must be submitted for assessment prior to registration for the final exit examination otherwise, admission to the examination will be refused.

- c. All failed final examinations must be successfully completed at the first following examination. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the postgraduate administration office, to the EXCO of the relevant school to miss the first following assessment. A student may only miss the first following assessment with written approval from the Dean.
- d. In accordance with the rules and regulations of the HPCSA, as from 2011, all students must write the final professional examination (final specialist examination) of the HPCSA as contracted to the CMSA at present.

RULE MGH2.7.4 EXAMINATION RESULTS

- a. Within five working days after the preliminary examination results have been made known in the FHS, a student may apply to have a specific examination script reviewed for mistakes, should a written paper be involved.
- b. Should there only be an oral assessment involved, points (a) to (f) are replaced with a discussion with the HoD. Should a student still be dissatisfied with the result, the student has the right to immediate appeal to the Academic Appeals Committee of the FHS. A written request in this regard must be submitted to the Deputy Director at least five days after the examination results have been made known.

ELUCIDATION:

- a. This request must be submitted to the office of the Deputy Director, room D211, Francois Retief Building. Copies are made of the written request of the student, the date affixed, and it is sent to the relevant HoD and Programme Director in coordination with the Head of the School. Both the student and the office retain copies for record purposes.
- b. The HoD will be notified telephonically by the Faculty Administration.
- c. The HoD will review the examination script for mistakes, check if marks were added correctly and whether all questions were marked. (No searching for marks will be tolerated.)
- d. Should a change in marks need to be effected due to a calculation mistake or a question not marked, the details will be sent in writing to the Deputy Director and the Head of the School.
- e. The amendment of the mark, should it be to the benefit of the student, could be effected in cooperation with the Head of the School and the Dean.
- f. Should the student still be dissatisfied with the results of the review of the examination script, the student has the right to immediate appeal via the HoD to the Dean for a re-marking of the examination script. A written request in this regard must also be submitted within the same five working days to the Deputy Director. Should the Head of the School/Dean approve the request, the HoD will be requested to re-mark the entire examination script.
- g. The results with respect to the re-marking are sent to the Deputy Director for presentation to the Dean/Head of the relevant school. Should the results of the re-marking be to the benefit of the student, the amended mark will be awarded to the student; otherwise, the original mark is maintained.
- h. Costs may be incurred during the re-marking. The student will be liable for payment.
- i. Should a student, after the aforementioned steps have been followed, still be dissatisfied with the results, the student has the right to immediate appeal to the Academic Appeals Committee of the FHS. A written request in this regard must be submitted to the Deputy Director no longer than five days after the examination results have been made known.
- j. The decision of the Appeals Committee is final, and the student will be informed in writing of the final result of the Appeals Committee. No subsequent motivations will be considered after the final decision of the Appeals Committee.

RULE MGH2.7.5 ADDITIONAL EXAMINATION

- a. A student who has presented him/herself for a final examination in a degree, which would have counted as a final assessment opportunity and then fails that assessment opportunity, may apply for no other final assessment opportunity until a remedial period has elapsed, as approved by the HoD.
- b. A MMed student may not write an additional examination in a module before at least six months have elapsed after the assessment in which he had failed the module concerned.

ELUCIDATION:

- i. The student is expected to participate in the first following reassessment opportunity.
- ii. In the case of Part II and Part III of the assessment, the examination in its entirety must be repeated.

RULE MGH2.7.6 PASS WITH DISTINCTION

The student passes with distinction, subject to the following:

- a. A weighted average of at least 75% (rounded to the next integer, that is 74, 5% to 75%) has been obtained based on the minimum number of modules prescribed for the qualification in question.
- b. No module has been failed or repeated in an additional examination.
- c. The Master's Degree research mini-dissertation or interrelated, publishable manuscripts/published article were not resubmitted for assessment purposes.
- d. All components of the Master's Degree have been completed within the maximum consecutive years allowed for completion of the qualification.

ELUCIDATION:

This must be read in conjunction with 2026 UFS General Rule A28(e).

RULE MGH2.7.7 DEAN'S MEDALS AND SENATE MEDALS

- a. In each faculty, a Dean's Medal is awarded to a registered Master's Degree student who has obtained the highest weighted average percentage over the years of study, provided that
 - i. the qualification was awarded with distinction and a weighted average of at least 80% (not rounded to the next integer) has been obtained, based on the minimum number of modules prescribed for the qualification in question; and
 - ii. no module was failed or repeated in an additional examination. The result of a discontinuation of a module(s) will not be taken into account with the awarding of a Dean's Medal.
- b. A Senate Medal and Prize are awarded to a student who received a Dean's Medal and who obtained the highest weighted average percentage in all the faculties.

ELUCIDATION:

To be read in conjunction with the 2026 UFS General Rule A9: Qualification certificates, Dean's Medals and Senate Medals.

RULE MGH2.7.8 EXTENSION OF THE RESIDENCY/STUDY PERIOD

A student who has completed the prescribed residency period and has not passed the national exit examination, and/or has not passed the mini-dissertation, may not continue with the programme without written approval.

ELUCIDATION:

- i. The HoD is required to submit, for special circumstances only, a written recommendation together with an academic progress report compiled by the Postgraduate Administration Office to the EXCO of the relevant school. A student may only continue in a registered post with written approval from the EXCO of the relevant school.
- ii. In the case of an application for a further extension of residency time, the HoD is required to submit, for special circumstances only, a written recommendation together with an academic progress report compiled by the Postgraduate Administration Office to the EXCO of the relevant School. Following the aforementioned, the Chair of the relevant EXCO will make a formal written recommendation to the Dean to consider for approval. The student may only continue in a registrar post with written approval from the Dean.

ELUCIDATION:

- i. The student may be appointed in a medical officer post if available during this time but must still be a registered student with the university.

RULE MGH2.7.9 CONFERMENT OF THE DEGREE

Before the MMed degree is conferred, the student must convince the UFS of the successful completion of the following:

- a. Having held a full-time training post for a full residency period of four or five years at the training hospitals of the FHS at the UFS or another institution recognised as equivalent by the university (in accordance with the requirements of the relevant discipline).
- b. Receiving theoretical, practical, and clinical training for the prescribed duration of the degree programme.
- c. Satisfactorily attending Health Care Practice MGPV7900 and successfully completing Research Methodology NAMA7903.
- d. Registering with the University as a student for the MMed degree for the prescribed period.
- e. Successfully completing and passing NAMB7900 (mini-dissertation/publishable manuscript/published article) in accordance with the requirements of the relevant MMed programme.
- f. Satisfactorily completing and submitting a Portfolio/Logbook (according to the requirements of the relevant discipline).
- g. Passing the unitary exit examinations/final examinations.

ELUCIDATION:

The registrar can only be signed off (for UFS and HPCSA purposes) once residency time has been completed, the final exit examination and the mini-dissertation have been passed, and corrections to the research manuscript have been completed. Refer to 2026 UFS General Rule.

RULE MGH2.8 REMUNERATIVE WORK OUTSIDE OF THE PUBLIC SERVICE

All students enrolled for MMed at the University of the Free State (UFS) are NOT permitted to engage in RWOPS.

1. ANAESTHESIOLOGY – MMED		STUDY CODE BC870400	
480 CREDITS (INCLUDING COMPULSORY GENERAL MODULES)			
PART I: BASIC MODULES	PHMM7900	Physiology (Medicine)	60 credits
	MFRM7900	Pharmacology	60 credits
	MCHP7900	Chemical Pathology	40 credits
	MPMA7900	Medical Physics	40 credits
	MAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MANS7900	Anaesthesiology portfolio/logboo	204 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and approval by the EXCO of the relevant school, Part I examination of the College for Anaesthesia receives recognition, but in addition to that, Chemical Pathology (MCHP7900) must also be passed before the final examination (Part II) may be taken.
- ii. The professional HPCSA single exit examination will be considered as equivalent to the Part II examination. No internal Part II examination will be presented.
- iii. The portfolio, including the following, must be handed in before sitting for the final assessment:
 - 1. Mini-dissertation/publishable manuscript/published article (NAMB7900 in terms of Rule MGH2.6.1).
 - 2. Logbook
 - 3. Proof of training assignments completed, including attendance modules NAMA7903 and MGPV7900, as well as other assignments.
- iv. Additional curricula information is available from the HoD of Anaesthesiology and on the UFS website.
- v. The awarding of the degree is subject to passing the main module (MANS7900), three months' residency in a critical care unit, and the submission of a comprehensive portfolio/logbook as aforementioned under (iii). The final examination, mini-dissertation/publishable manuscript/published article and aspects of continuous assessment are assessed.

Residency (RES): Four years.

2. ANATOMICAL PATHOLOGY – MMED		STUDY CODE BC870300	
480 Credits (including compulsory general modules)			
PART I: BASIC MODULES:	MANP7900	Anatomical Pathology	120 credits
	Approved facet(s) of MCEP7900, MHEA7900, MMKA7900, MVIA7900 and MANP7900 (see Rule MGH2.7.1).		
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULE	MANM7900	Anatomical Pathology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

Possible recognition may be granted by the EXCO of the relevant school for the three modules below:

- | | | | |
|--|----------|--------------------|-------------|
| | MCEB7900 | Chemical Pathology | 175 credits |
| | MHEM7900 | Haematology | 175 credits |
| | MMKM7900 | Microbiology | 175 credits |
- i. *One or two of the aforementioned modules may be offered in consultation with the Head of Department(s) concerned.
 - ii. On the recommendation of the HoD and approval by the EXCO of the relevant school, Part I of the College of Pathology of South Africa (Anatomical) is recognised as equivalent to the MMed Part I. Students are required to sit for the former.

- iii. Students must have completed 18 months as a registrar before writing the Part I examination. Part 1 must be fully passed at 30 months from the start of the residency period of the programme.
- iv. The approved curriculum of the College of Pathologists SA (Anatomical) for both Parts I and II will apply.
- v. The portfolio/logbook, as prescribed by the College of Pathologists SA (Anatomical), must be kept up to date and approved by the HoD before admittance to the final examination.

Residency (RES): Four years, of which at least three years must be in Anatomical Pathology.

3. CARDIOTHORACIC SURGERY – MMED

STUDY CODE BC871300

600 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULES	MCHI7900	General Surgery Principle including Intensive Care	152 credits
PART III: MAJOR MODULES	MKTC7900	Cardiothoracic Surgery	192 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. The sequence of the residency periods will be determined after consultation with the HoD.
- ii. A portfolio/logbook must be kept.
- iii. On the recommendation of the HoD and approval by the EXCO of the relevant school, Part I and II of the assessment of the College of Cardiothoracic Surgeons of South Africa are recognised as equivalent to the MMed (Cardiothoracic Surgery) Parts I and II, and students are encouraged to sit for the former.
- iv. The topic for and nature of the mini-dissertation/publishable manuscript/published article is determined in consultation with the HoD.
- v. The final examination must be written in the final year of the residency period. Part III of the assessment of the College of Cardiothoracic Surgeons of South Africa is recognised as equivalent to the final assessment of MMed (Cardiothoracic Surgery) Part III.
- vi. The major module and mini-dissertation/publishable manuscript/published article must be passed individually before the degree is conferred.

Residency (RES): Five years.

4. CHEMICAL PATHOLOGY – MMED

STUDY CODE BC870500

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	MCEM7900	Chemical Pathology	120 credits
Approved facet(s) of MCEP7900, MHEA7900, MMKA7900, MVIA7900 and MANP7900 (see Rule MGH2.7.1)			
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES:	MCEB7900	Chemical Pathology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. Possible recognition may be granted by the EXCO of the relevant school for the three modules below:

*MCEB7900	Chemical Pathology	175 credits
*MHEM7900	Haematology	175 credits
*MMKM7900	Microbiology	175 credits
- ii. *One or two of the aforementioned modules may be offered in consultation with the HoD concerned.
- iii. Part I of the College of Pathologists (Chemical Pathology) of the CMSA is recognised as being equivalent to the MMED (Chemical Pathology) PART I. Students are required to sit for the former.
- iv. Part II of the College of Pathologists (Chemical Pathology) (FCPath (SA) Chem Part II) is recognised as equivalent to MCEB7900. Students are required to sit for the former.
- v. In order to obtain the MMed (Chemical Pathology) degree, a student must have satisfied the requirements of modules NAMA7903, MGPV7900, MCEM7900, and NAMB7900. Permission to sit for the FCPath (SA) Chem Part II will be granted only after successful completion of NAMA7903, NAMB7900, and attendance of MGPV7900.
- vi. A detailed module guide fully describing the curricula, portfolios/logbooks, assessments and assessment requirements, research requirements, training duties, etc., is given to registrars and must be accepted in writing.
- vii. The approved curriculum of the College of Pathologists SA (Chemical Pathology) for both Parts I and II will apply.
- viii. The portfolio/logbooks as prescribed by the College of Pathologists SA (Chemical Pathology), must be kept up to date and approved by the HoD before admittance to the final examination.

Residency (RES): Four years, of which at least three years must be in Chemical Pathology.

5. CLINICAL PATHOLOGY – MMED (IN ABEYANCE)

STUDY CODE BC87150

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	MCEB7900	Chemical Pathology	40 credits
	MHEM7900	Haematology	40 credits
	MMKM7900	Microbiology	40 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES:	MKLP7900	Clinical Pathology	284 credits
	NAMB7900	Mini dissertation	64 credits

ELUCIDATION:

The successful completion of modules in Research Methodology (NAMA7903) and Health Care Practice (MGPV7900), as well as the completion of a mini-dissertation/publishable manuscript/published article (NAMB7900), is a prerequisite for the conferment of the degree (see Rule MGH2.6.1).

- A residency period of 12 months and an assessment (MCEB7900, MHEM7900 and MMKM7900, respectively) of each of the disciplines is required. The duration of the residency period in the discipline where the research project is performed is 18 months.
- MMed (Clinical Pathology): Individual examinations are written in the disciplines Chemical Pathology, Haematology and Medical Microbiology after a residency period of at least 18 months in each discipline.
- After completion of Part I, there will be a residency of two months in each of the disciplines in preparation for MKLP7900. MKLP7900 will cover each of the three disciplines. It will consist of a three-hour written examination paper, laboratory practical and oral examination in each of the three disciplines.
- On the recommendation of the HoD and approval of the EXCO of the relevant school, the College of Pathologists (Clinical Pathology) (FCPath (SA) Clin Part II) of the CMSA is recognised as equivalent to MKLP7900. In order to obtain the degree MMed (Clinical Pathology), a student must have satisfied the requirements of modules NAMA7903, NAMB7900 and MGPV7900. Permission to sit for the FCPath (SA) Clin Part II may be granted only after successful completion of MCEB7900, MHEM7900, MMKM7900, NAMA7903, NAMB7900, and attendance of MGPV7900.
- A detailed module guide fully describing the curricula, portfolios/logbooks, assessments and assessment requirements, research requirements, training duties, etc., is given to registrars and they must accept this in writing.

Residency (RES): Four years

6. CLINICAL PHARMACOLOGY– MMED

STUDY CODE BC870041

480 Credits (including compulsory general modules)

Part I: Basic modules:	MCCP7900	Principles of Clinical Pharmacology	124 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

Part II: Major Modules:	MCPA	Applied Clinical Pharmacology	280 credits
	NAMB7900	Mini dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

Part I (Basic sciences related to the practice of Clinical Pharmacology)

- The examination can be written after a minimum of 15 months from the start of the residing period. This is a written examination consisting of two digital papers of three hours each in the Single Best Answer (SBA) of four options format.
 - The results of the two papers will be combined to form a single overall score. The pass mark for this combined score will be determined using the modified Angoff Yes/No method of standard setting, which involves expert judgement to establish the minimum level of competence required to pass. Negative marking will not be applied in this assessment process.
- Portfolio/logbook – six-monthly self-assessments and supervisor assessment, annual submission to CMSA panel
- Part II examination after completion of three years full-time post-internship training as a registrar/clinical assistant in either of the following combinations: All three years in a teaching hospital department of pharmacology OR two years in a teaching hospital department of pharmacology plus one year as a registrar in a satellite clinical teaching department (25% of clinical pharmacology training must be in clinical care). The examination consists of:
 - Written examination: Two digital papers on the principles and practice of clinical pharmacology and therapeutics(three hours each) in the Single Best Answer (SBA) of four options format.
 - Objective Structured Clinical Examination (OSCE):
 - This may include clinical slides, interpretation of laboratory results, and short case histories. Candidates are required to pass four out of the six cases (a minimum of 50% for 4 cases) to pass the OSCE assessment.
 - The three components of Part II of the examination will be weighted as follows:
 - The two written papers will contribute 70% of the final marks.
 - The OSCE will contribute 30% to the final mark.
 - In order to pass the examination, students must obtain:
 - 50% or more for the combined mark from the two written papers and
 - 50% or more for four out of the six cases in the OSCE
- Furthermore, the students will also be assessed by:
 - Clinical rotation self-assessment report on completion of each clinical rotation.
 - Portfolio/logbook.
- Research Methodology module:
 - Written examination testing core competencies on completion of the theoretical module.
 - Assessment of research report. Initial research protocol must be presented to and approved by the HoD, and Research Committees, as well as the relevant Faculty Committee.
 - The progress will be monitored by the supervisor(s) of that specific project.
 - The completed research project will be assessed according to university guidelines, with internal and external assessment as prescribed.
 - The student will give an oral presentation upon the completion of the research project.

Residency (RES): Four years.

7. COMMUNITY HEALTH – MMED

STUDY CODE BC873000

480 Credits (including compulsory general modules – excluding NAMB7900)

PART I: BASIC MODULES:	MVKG7900	Communicable and non-communicable health-related conditions	60 credits
	MVKA7900	Administration/management	
	MVKT7900	Theory and behavioural studies	60 credits
		Theory of epidemiology, biostatistics and demography	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

ASSESSMENT:

One three-hour assessment paper in each of MVKG7900, MVKA7900 and MVKT7900. The assessment for Part I may not be written before the end of the first year of training.

PART II: MAJOR MODULES:	MVKC7900	Community Health	200 credits
	i.	Administration/Management of Health Services	
	ii.	Systematic and Interventional Epidemiology	
	iii.	Environmental Health	
	MVKS7900	Mini-dissertation	100 credits
	MVKS7900	will replace NAMB7900	
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- The assessment for Part II will consist of the formal unitary assessments as determined by the HPCSA (currently the formal assessment of the SA College of Public Health Medicine) – see Rule MGH2.7. Any additional assessment, as deemed necessary, will be a practical assessment based on the recommendation of the HoD.
- After the student has passed Part I, at least 12 months must elapse before he/she may sit for Part II of the assessment. This assessment may not be written before the end of the third year of training.
- The formal assessment of the SA College of Public Health Medicine will be used as the assessment for MVKC7900, provided that the student complies with conditions/regulations set by the SA College of Public Health Medicine. This assessment may not be written if the six-monthly formal assessment reports from the HoD indicate that the student is not yet ready and not before the end of the third year of training.
- The student must have completed and passed MVKS7900 before he/she can report for the assessment of MVKC7900.
- Continuous formative and summative academic assessment forms part of the final assessment of the MMed degree in Community Health, and the Head of Department must approve the formative assessment forms prior to admission to the Part II (final) examination.

Residency (RES): Four years.

NOTE: Practical training and service rendering take place on a rotation basis at various institutions rendering health services and in various health service situations as determined by the HoD.

8. DERMATOLOGY – MMED

STUDY CODE BC870700

No new students will be allowed to register for this qualification in 2021. These rules will only apply to students who are currently registered for this qualification.

480 credits (including compulsory general modules)

PART I: BASIC SUBJECTS:	PHMM7900	Physiology (Medicine)	60 credits
	ANMM7900	Micro-anatomy	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR SUBJECTS:	MDER7900	Dermatology	224 credits
	MPLH7900	Pathology of the skin	60 credits
	(Both major subjects must be passed simultaneously)		
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- On the recommendation of the Head of Department and approval of the Executive Committee, School of Clinical Medicine, Part I of the College of Dermatology of South Africa is recognised as equivalent to the MMed Part I. Students are required to sit for the former.
- Part II of the College of Dermatology of South Africa (FCDerm) is recognised as equivalent to the final assessment of MDER7900. In order to obtain the degree MMed (Dermatology), a student must pass the examination in MPLH7900, as no equivalent examination is currently offered by the College. Consent to sit for the FCDerm Part II may be granted only after successful completion of MPLH7900.
- A detailed module guide fully describing the curricula, assessments and assessment requirements, research requirements, training duties, etc., is given to registrars, which they must accept in writing.

Residency (RES): Four years.

9. DIAGNOSTIC RADIOLOGY – MMED

STUDY CODE BC870800

With registration from 2024

600 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMR7900	Anatomy and Radiological Anatomy	60 credits
	MPMR7900	Radiological Physics	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULE:	GERP7900	General Radiology Principles	150 credits
PART III: MAJOR MODULES:	DIRA7900	Diagnostic Radiology	254 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessments	Competent

ELUCIDATION:

Once admitted to the registrar training programme, a registrar is provided with a detailed module guide, fully describing the curricula, assessments and assessment requirements, research requirements, training duties, etc.

PART I: BASIC MODULES:

- On the recommendation of the HoD and approval by the EXCO of the relevant school, exemption from the university's
- Primary examination may be granted if the student has already passed the primary examination of the CMSA.
- The Part I examinations consist of the FC Rad (Diag)SA Part I Radiological Anatomy and the FC Rad (Diag) SA Part I Radiological Physics, as convened by the College of Radiologists of the Colleges of Medicine of South Africa.
- If you are admitted to the registrar training programme prior to completion of the Part I examinations, you must successfully complete the Part I examination within 18 months of commencement of service as registrar.

If you fail to complete the Part I examination within 18 months of acceptance of a registrar post, you must vacate the post.

PART II: SUBSIDIARY MODULE:

- Examination in General Radiology Principles (GERP7900) must be taken not before five (5) semesters and not later than six (6) semesters after first registration as a postgraduate student for the qualification.
- If you fail the two consecutive attempts at the GERP7900 examination, you may be granted a third and final opportunity to pass the GERP7900 examination, subject to the recommendation of the HoD and approval by the EXCO of the SoCM.

If you fail to pass General Radiology Principles (GERP7900) after two attempts (or three consecutive attempts if granted by the EXCO), you must vacate the post.

PART III: MAJOR MODULE:

- The Part II Fellowship Examination of the College of Radiologists of the Colleges of Medicine of South Africa (FC Rad (Diag) SA Part II) is presently the only exit examination required for registration as a specialist with the Health Professions Council of South Africa.
- The final examination may only be taken in the last (2) semesters of the registrar training period of the qualification.

- You will only be allowed to register for the FC Rad (Diag) SA Part II Fellowship Examination if your research has already been sent for marking or has been accepted for publication 6 months prior to the date of the FC Rad (Diag) SA Part II Fellowship Examination.
- The portfolio/ logbook, as prescribed by the College of Radiologists of the Colleges of Medicine of South Africa, must be kept up to date and approved by the HoD before you will be eligible to register for the final examination.

NAMB7900

- Completion of the research assignment is a requisite for specialist registration with the Health Professions Council of South Africa.
- Refer to section A of Rule MGH2.6.1 (General Curriculum compulsory for all disciplines) for a detailed description of the rules and guidelines applicable to the research component.

Residency (RES): Five years.

10. EMERGENCY MEDICINE – MMED

STUDY CODE BC875500

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	MAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MEMM7900	Emergency Medicine	224 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- Students must keep a portfolio/logbook in which all cases and the required emergency care are recorded. The portfolio/logbook must be handed in before Part II of the examination is written.
- The sequence of different residency disciplines will be determined by the HoD.
- The curriculum for both Parts I and II is explained in the portfolio/logbook.
- The residency may be performed partially or completely at the Kimberley Hospital Complex.

Residency (RES): Four years.

11. FAMILY MEDICINE – MMED

STUDY CODE BC875300

480 Credits

(including compulsory general modules but excluding NAMB7900; NAMB7900 is substituted by MRPD7900)

CURRICULUM

a. Elective modules

- Three of the following elective (choice) modules must be selected for Part I, and those specific modules are continued in Part II and III and finally assessed in Part IV.
- MMHA/B/C/D – Women's Health
- MCHA/B/C/D Neonatal and Child Health Care MPAA/B/C/D
- MPAA/B/C/D Palliative Care
- MEMA/B/C/D Accident and Emergency Care
- MCFA/B/C/D Clinical Forensic Medicine
- MPHA/B/C/D Primary Health Care, including TB, STD, and HIV
- MSAA/B/C/D Procedural Skills including Surgery, Anaesthesiology and Medical Procedures
- MDIA/B/C/D – Dispensing

b. Part I

- | | | | |
|---|-----------|-------|--|
| ■ | BMFA7904 | (16C) | Applied Basic Medical Sciences (Family Medicine) |
| ■ | MKHA7900 | (48C) | Clinical family medicine |
| ■ | MCMA7902 | (8C) | Community Health |
| ■ | MPMA7902* | (8C) | Managing medical practice |
| ■ | MRPA7904* | (16C) | Mini-dissertation |
| ■ | MFHA7901* | (4C) | Family Health |

*Continuation provided all requirements are met

- | | | | |
|---|----------|-------|-----------------------------------|
| ■ | NAMA7903 | (12C) | Research Methodology |
| ■ | MGPV7900 | | Health Care Practice (Attendance) |

Plus: any three of the following elective modules:

- | | | | |
|---|----------|------|---|
| ■ | MMHA7902 | (8C) | Women's Health |
| ■ | MCHA7902 | (8C) | Neonatal and Child Health Care |
| ■ | MPAA7902 | (8C) | Palliative Care |
| ■ | MEMA7902 | (8C) | Accident and Emergency Care |
| ■ | MCFA7902 | (8C) | Clinical Forensic Medicine |
| ■ | MPHA7902 | (8C) | Primary Health Care including TB, STD and HIV |
| ■ | MSAA7902 | (8C) | Procedural Skills including Surgery, Anaesthesiology and Medical Procedures |
| ■ | MDIA7902 | (8C) | Dispensing |

c. Part II

- | | | | |
|---|-----------|-------|--|
| ■ | BMFB7904 | (16C) | Applied Basic Medical Sciences (Family Medicine) |
| ■ | MKHB7900 | (48C) | Clinical Family Medicine |
| ■ | MPMB7902 | (8C) | Managing Medical Practice |
| ■ | MRPB7904* | (16C) | Mini-dissertation |
| ■ | MFHB7901* | (4C) | Family Health |

Plus: Three selected elective modules

- | | | | |
|---|----------|------|---|
| ■ | MMHB790 | (8C) | Women's Health |
| ■ | MCHB7902 | (8C) | Neonatal and Child Health Care |
| ■ | MPAB7902 | (8C) | Palliative Care |
| ■ | MEMB7902 | (8C) | Accident and Emergency Care |
| ■ | MCFB7902 | (8C) | Clinical Forensic Medicine |
| ■ | MPHB7902 | (8C) | Primary Health Care including TB, STD and HIV |
| ■ | MSAB7902 | (8C) | Procedural Skills including Surgery, Anaesthesiology and Medical Procedures |
| ■ | MDIB7902 | (8C) | Dispensing |

Before completing Part II, a student is expected to have successfully completed the requirements of the modules NAMA7903 and MGPV7900.

d. Part III

- | | | | |
|---|-----------|-------|--------------------------|
| ■ | MKHC7900 | (48C) | Clinical Family Medicine |
| ■ | MFHC7908 | (32C) | Family Health |
| ■ | MRPC7904* | (16C) | Mini-dissertation |

*Continuation, provided all requirements are met

Plus: And the three selected elective modules:

- | | | | |
|---|----------|------|---|
| ■ | MMHC7902 | (8C) | Women's Health |
| ■ | MCHC7902 | (8C) | Neonatal and Child Health Care |
| ■ | MPAC7902 | (8C) | Palliative Care |
| ■ | MEMC7902 | (8C) | Accident and Emergency Care |
| ■ | MCFC7902 | (8C) | Clinical Forensic Medicine |
| ■ | MPHC7902 | (8C) | Primary Health Care including TB, STD and HIV |
| ■ | MSAC7902 | (8C) | Procedural Skills including Surgery, Anaesthesiology and Medical Procedures |
| ■ | MDIC7902 | (8C) | Dispensing |

e. Part IV

- | | | | |
|---|--------------------------------|-------|-------------------|
| ■ | MRPD7900* | (48C) | Mini-dissertation |
| ■ | MRPD7900 will replace NAMB7900 | | |

Plus: Three elective modules

■	MMHD7906	(24C)	Women's Health
■	MCHD7906	(24C)	Neonatal and Child Health Care
■	MPAD7906	(24C)	Palliative Care
■	MEMD7906	(24C)	Accident and Emergency Care
■	MCFD7906	(24C)	Clinical Forensic Medicine
■	MPHD7906	(24C)	Primary Health Care including TB, STD and HIV
■	MSAD7906	(24C)	Procedural Skills including Surgery, Anaesthesiology and Medical Procedures
■	MDID7906	(24C)	Dispensing

ASSESSMENT

END OF SECOND SEMESTER	Part I
END OF FOURTH SEMESTER	Part II
END OF SIXTH SEMESTER	Part III
END OF EIGHTH SEMESTER	Part IV

The assessment programme may be altered with the approval of the Head of Department and the approval of the Executive Committee, School of Clinical Medicine.

The final exit exam is currently presented by the College of Family Physicians as the FCFP final examination.

PASS MARK AND DISTINCTION

- a. A minimum of 50% is required to pass an assessment.
- b. The Master's degree is awarded with distinction if a student obtains a weighted average percentage of 75% in the following disciplines:

■	MKHB7900/MKHC7900	Clinical Family Medicine
■	MFHA7901/MFHB7901/MFHC7908	Family Health
■	MPMA7902/MPMB7902	Practice Management
■	MRPA7904/MRPB7904/MRPC7904/MRPD7900	Mini-dissertation

Plus the three elective modules:

■	MMHA7902/MMHB7902/MMHC7902/MMHD7906	Women's Health
■	MCHA7902/MCHB7902/MCHC7902/MCHD7906	Neonatal and Child Health Care
■	MPAA7902/MPAB7902/MPAC7902/MPAD7906	Palliative Care
■	MEMA7902/MEMB7902/MEMC7902/MEMD7906	Accident and Emergency Care
■	MCFA7902/MCFB7902/MCFC7902/MCFD7906	Clinical Forensic Medicine
■	MPHA7902/MPHB7902/MPHC7902/MPHD7906	Primary Health Care including TB,STD and HIV
■	MSAA7902/MSAB7902/MSAC7902/MSAD7906	Procedural Skills including Surgery, Anaesthesiology and Medical Procedures
■	MDIA7902/MDIB7902/MDIC7902/MDID7906	Dispensing

The assessment practices per module/exam are addressed in the module guides and aligned with HPCSA/CMSA.

SPECIAL ASSESSMENT

- a. Students who fail the assessment at the end of the semester, as determined with respect to Parts I and II, will be allowed to write an assessment in the additional examination opportunity, provided that not more than two modules were failed, in which case Part I/II is to be repeated.
- b. Students who fail the assessment at the end of Part III and Part IV (maximum of two modules) will be allowed to write an assessment after six months.
- c. Students will only be allowed to repeat an assessment once; thereafter, special permission will be needed.
- d. Further assessments will be allowed only with the approval of the Head of the School of Clinical Medicine and on the recommendation of the Heads of Departments concerned.
- e. In exceptional cases, the Head of the School of Clinical Medicine may give permission for leave of absence, provided that the student has made prior arrangements with the Head of the School. A student who fails to write an assessment without a sufficient reason or prior arrangement does not qualify for a special assessment.

Residency (RES): Four years.

12. FORENSIC MEDICINE – MMED

STUDY CODE BC870900

Credits (including compulsory general modules)

PART I: BASIC MODULES	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULES	MANF7900	Anatomical Pathology	152 credits
PART III: MAJOR MODULES	MGGN7900	Forensic Medicine (including Clinical Forensic Medicine, Toxicology and Medical Law	252 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

Residency (RES): Five years, two of which will be in Anatomical Pathology and three in Forensic Medicine.

ELUCIDATION:

- i. MMed (Forensic Medicine): After a student has passed the Part I assessment, at least 24 months must elapse before Part II of the examination may be written.
- ii. The sequence of the residency periods will be decided upon after consultation with the relevant Heads of Departments.

Residency (RES): Five years.

13. HAEMATOLOGY – MMED

STUDY CODE BC871000

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	MHEA7900#	Haematology	120 credits
#Approved facet(s) of MCEP7900, MHEA7900, MMKA7900, MVIA7900 and MANP7900 (see Rule MGH2.7.1).			
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MHEB7900	Haematology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. Possible recognition may be granted by the EXCO of the relevant school for the three modules below:
 - *MCEB7900 Chemical Pathology 175 credits
 - *MHEM7900 Haematology 175 credits
 - *MMKM7900 Microbiology 175 credits
- ii. One or two of the aforementioned modules may be offered in consultation with the HoD(s) concerned.
- iii. On the recommendation of the HoD and approval of the EXCO of the relevant school, Part I of the College of Pathologists (Haematology) of the CMSA is recognised as being equivalent to the MMed (Haematology) Part I. Students are required to sit for the former.
- iv. Part II of the College of Pathologists (Haematology) (FCPath)(SA) Haem Part II) of the CMSA is recognised as equivalent to MHEB7900. Students are required to sit for the former. In order to obtain the degree MMed (Haematology), a student must have satisfied the requirements of modules NAMA7903, NAMB7900, and MGPV7900.
- v. A detailed module guide fully describing the curricula, portfolios/logbooks, assessments and assessment requirements, research requirements, training duties, etc., is given to registrars, and they must accept this in writing.
- vi. The FCPPath (SA) Haem Part II of the CMSA must be written in the final year of the residency period.
- vii. The approved curriculum of the College of Pathologists SA (Haematology) for both Parts I and II will apply.
- viii. The portfolio/logbooks as prescribed by the College of Pathologists SA (Haematology) must be kept up to date and approved by the HoD before admittance to the final examination.

Residency (RES): Four years, at least three years of which must be in Haematology.

14. INTERNAL MEDICINE – MMED

STUDY CODE BC873300

80 Credits (including compulsory general modules)

PART I: BASIC MODULES	MBWI7900	Basic Sciences (Internal Medicine)	120 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MING7900	Principles and practice of Internal Medicine	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. The sequence of the residency periods will be determined after consultation with the HOD.
- ii. The portfolio/logbook, as prescribed by the CMSA, must be kept up to date at all times and must be approved by the HoD before admittance to the final examination.
- iii. The approved curriculum of the CMSA for both Parts I and II will apply.
- iv. The topic for and nature of the mini-dissertation/publishable manuscript/published article is determined in consultation with the HoD.
- v. The FCP (SA) Part II of the CMSA must be written as close to the end of the residency period as possible.
- vi. The major module and mini-dissertation/publishable manuscript/published article must be passed individually before the degree can be conferred.

Residency (RES): Four years, of which at least two must be in General Internal Medicine.

15. MEDICAL GENETICS – MMED

STUDY CODE BC874200

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	MMGA7900	Medical Genetics (Basic sciences)	142 credits
	MPGC7900	Psychology (Counselling Skills)	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES:	MMGB7900	Medical Genetics (clinical applications)	202 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. The curriculum for Parts I and II is determined by the HoD in accordance with external assessment bodies (the latter as approved by the Faculty Board) as far as possible to satisfy the requirements of internal assessment (Part I) and internal/external assessment, as well as an alternative option of total external assessment (Part I and II). This curriculum will include aspects such as cytogenetics, molecular genetics, biochemical genetics, prenatal testing, medical ethics, and principles of genetic counselling.
- ii. Total external assessment of Part I and/or Part II, satisfying the requirements as determined by the programme head, could, in addition, serve as a pass requirement of Part I and/or Part II. The special requirements of the external examination body, which are not necessarily defined in these rules, must still be satisfied.
- iii. Assessment in Part II is based on internal/external examination and includes equivalent written, OSCA, oral (if required), and clinical examination. Passing the clinical examination individually is a prerequisite for passing Part II.
- iv. Appropriate experience in clinical and laboratory skills must be supported by the presentation of a portfolio/ logbook and certification thereof by the Head of the Programme (see Rule MGH2.3).

Residency (RES): Four years.

16. MEDICAL MICROBIOLOGY – MMED

STUDY CODE BC871600

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	MKMA7900	#Microbiology	120 credits
	Approved facet(s) of MCEP7900, MHEA7900, MMKA7900 and MVIA7900 (see Rule MGH2.7.1).		
PART II: MAJOR MODULES:	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
	MKMB7900	Microbiology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and the approval by the EXCO of the relevant school, exemption from the primary examination of the university may be granted on condition that the primary examination of the CMSA has already been passed.
- ii. A rotation period of six months in Medical Virology is a prerequisite and includes written assessments.
- iii. The topic for the mini-dissertation/publishable manuscript/published article will be determined in consultation with the HoD.

Residency (RES): Four years, during which adequate experience in related aspects of Medical Microbiology, Medical Virology, Molecular Biology, and Immunology must be gained.

17. MEDICAL VIROLOGY – MMED

STUDY CODE BC872900

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	#MVIA7900	Virology	120 credits
	Approved facet(s) of MCEP7900, MHEA7900, MMKA7900, MVIA7900 and MANP7900 (see Rule MGH2.7 1(e)).		
PART II: MAJOR MODULES	MAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
	MVIB7900	Virology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and approval by the EXCO of the relevant school, exemption from the University's
- ii. primary examination may be granted if the student has already passed the primary examination of the CMSA.
- iii. The topic for the mini-dissertation/publishable manuscript/published article will be determined in consultation with the HoD.

Residency (RES): Four years, during which sufficient experience must be gained in related aspects of virology, laboratory management, molecular biology, and immunology.

18. NEUROLOGY – MMED

STUDY CODE BC871800

480 Credits (including compulsory general modules)

PART I: BASIC MODULES	ANMN7900	Neuroanatomy	60 credits
	PHMM7900	Physiology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MNER7900	Neurology	284 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. The curriculum for Parts I and II is determined by the HoD in accordance with CMSA requirements to satisfy the requirements of assessment.
- ii. Total external assessment CMSA of Part I and Part II, satisfying the requirements as determined, will serve as the pass requirements of Part I – ANMN7900 (Neuroanatomy) and PHMM7900 (Physiology) and Part II. The special requirements of the external examination body, which are not necessarily defined in these rules, must still be satisfied.
- iii. Relevant experience in clinical and neurophysiological skills must be supported by or submission of a portfolio/logbook and its certification (see Rule MGH2.3), or certification by the HoD of such experience.

Residency (RES): Four years.

19. NEUROSURGERY – MMed

STUDY CODE BC871700

600 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

ELUCIDATION:

- i. On the recommendation of the HoD, an approval by the EXCO of the relevant school, Part I examination of the College of Neurosurgery receives recognition, but in addition to that, Anatomy (ANMG7900) must also be passed. Anatomy involves basic and applied neuroanatomy relevant to the discipline of Neurosurgery.
- ii. Continuous formative and summative clinical and academic assessment includes basic and applied general physiology, neuro-physiology and anatomical neuro-pathology.

PART II: SUBSIDIARY MODULES:	MCHI7900	General surgical principles	
		including Intensive Care	152 credits
PART III: MAJOR MODULES:	MNEU7900	Neurosurgery	192 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

20. NUCLEAR MEDICINE – MMed

STUDY CODE BC871400

480 Credits (including compulsory general modules)

PART I: BASIC MODULES	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MPMN7900	Basic Physics and instrumentation	60 credits
PART II: SUBSIDIARY MODULES	MRFM7900	Radiopharmacy	90 credits
PART III: MAJOR MODULES	MKKR7900	Clinical Nuclear Medicine	134 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous assessment	Competent

ELUCIDATION:

- i. Students who passed Part I of the Fellowship of the College of Nuclear Physicians of South Africa (FCNP SA Part I) will be granted exemption from Part I of the MMed (Nuclear medicine) at the UFS pending the recommendation of the HoD and approval by the EXCO of the relevant school.
- ii. The HPCSA single exit examination will be considered the equivalent of the Part III examination. No internal Part III examination will be presented.

- iii. Part II module Radiopharmacy (MRFM7900) must be taken and passed between 24 and 36 months after registration for the MMed.
- iv. In module NAMB700, only a full research project will be accepted and should be in the format of a publishable manuscript/published article. Further elucidation can be found under Rule MGH2.6.1.
- v. Rotation to other clinical disciplines will be in line with the requirements of the HPCSA's final exit exam.
- vi. A portfolio/logbook (digital and in hardcopy) of all diagnostic and therapeutic procedures is compulsory for each student and will form part of the final portfolio/logbook presented for acceptance into the final examination.

Residency (RES): Four years.

21. OBSTETRICS AND GYNAECOLOGY – MMed

STUDY CODE BC871900

600 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
From 2015: FCOG Part 1, alternatively MMed Part 1			
PART II: SUBSIDIARY MODULES:	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
	MOBS7900	Skills in Obstetrics and Gynaecology	60 credits
	MOBU7900	Ultrasound Portfolio/Logbook	Competent
	MOBG7900	Obstetrics and Gynaecology	344 creits
PART III: MAJOR MODULES	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. A portfolio/logbook (according to the FCOG guidelines) of all clinical work must be kept throughout all the years of study.
- ii. The Department and the University recognises: (1) FCOG(SA) Part I (A and B), (2) FCOG (Primary/Part I) and (3) MMed Part I for the MMed (Obstetrics and Gynaecology) degree. The Department, as well as the University, recognises: (1) FCOG(SA) Intermediate and (2) MMed Part II for the MMed (Obstetrics and Gynaecology) degree.
- iii. MOBS7900 includes the following: Ultrasound and Imaging in Obstetrics and Gynaecology, Colposcopy, Gynaecological pathology and cytology, ESMOE, Basic Surgical Skills, Intensive Care, Basic Obstetric and Gynaecological Principles and assessment, Embryology (module-related). Research Methodology (NAMA7903) and Health Care Practice Management (MGPV7900) are mandatory modules.
- iv. Satisfactory completion of Ultrasound Portfolio/Logbook in the prescribed format is compulsory for admission to Part III (Final examination) of the assessment.
- v. Part III (MOBG7900) (Final examination) of the course must be done during the last (fifth) year of residency.
- vi. As a prerequisite for admission to the FCOG(SA) final examination, Part III, the student must:
 - a. (a) Successfully complete Parts I and II (see points (ii)-(iv) above) of the examinations.

- vii. The MMed (Obstetrics and Gynaecology) degree will only be awarded once FCOG(SA) Final examination or Part III of the MMed (MOBG7900) has been passed.
- viii. In order to pass the MMed (Obstetrics and Gynaecology) Part III (MOBG7900), both clinical parts (Obstetrics as well as Gynaecology) of the examination must be passed.
- ix. A pass mark must be obtained for continuous formative and summative clinical and academic assessment prior to admission to the Part II (final) examination.
- x. A student's portfolio (including the logbook) will be evaluated according to the CMSA, College of Obstetrics, and Gynaecology South Africa requirement before admission to the Part III (Final) examination.

Residency (RES): Five years.

22. OPHTHALMOLOGY – MMed

STUDY CODE BC872100

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MPM07900	Medical Physics	60 credits
	MPA07900	Pathology (Ophth.)	60 credits
	MAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MOFT7900	Ophthalmology	164 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. A portfolio/logbook must be submitted, which will serve for inspection at the final practical assessment.
- ii. Anatomy and Physiology of Part IA of the College of Ophthalmologists of the Colleges of Medicine SA are recognised as being equivalent to the MMed (Ophthalmology) Part I. In addition, Medical Optics and Pathology (CMSA Part IB) must be passed as part of the MMed (Ophthalmology) programme.
- iii. The final examination must be written in the final year of the residency period.

Residency (RES): Five years.

23. ORTHOPAEDIC SURGERY – MMed

STUDY CODE BC872200

600 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

PART II: SUBSIDIARY MODULES	MCHI7900	General Surgery Principles including Intensive Care	12 credits
PART III: MAJOR MODULES	MORT7900	Orthopaedics	192 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and approval by the EXCO of the relevant school, exemption from the University's
- ii. primary examination may be granted if the student has already passed the CMSA primary examination. The same principle may apply to the intermediate examination.
- iii. Parts II and III of the assessment involve external assessment.
- iv. A portfolio/logbook of standard format is compulsory.
- v. Passing the clinical examinations individually is a prerequisite for passing Part III.

Residency (RES): Five years.

24. OTORHINOLARYNGOLOGY – MMed

STUDY CODE BC872300

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	
		General Principles	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES:	MOTO7900	Otorhinolaryngology	224 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and approval by the EXCO of the relevant school, exemption from the MMed (Otorhinolaryngology) Part I on the basis of successful completion of the Colleges of Medicine SA Part I applies.
- ii. Students are required to pass the FCORL (SA) Intermediate examination prior to entering the final examination.
- iii. A portfolio/logbook in the format specified by the College of Otorhinolaryngologists is compulsory.

Residency (RES): Five years.

25. PAEDIATRICS – MMED**STUDY CODE BC872400****480 Credits (including compulsory general modules)**

PART I: BASIC SCIENCES:	MPEA7900	Paediatrics	180 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

ELUCIDATION:

- i. The syllabus for the basic sciences includes:
 - a. The normal growth and development of the infant and child;
 - b. embryology and anatomy relevant to the above;
 - c. physiology and biochemistry, with special reference to the childhood years;
 - d. pathology, pathophysiology, microbiology and parasitology, with special reference to the childhood years;
 - e. applied medical pharmacology and general principles of genetics;
 - f. principles of therapy with special reference to the childhood years; and
 - g. principles of epidemiology and statistics.
- ii. Written assessments are conducted.
- iii. On the recommendation of the HoD and approval by the EXCO of the relevant school, a primary College examination oral similar MMed (primary examination) will be accepted for the MMed (Paediatrics) degree.

PART II: MAJOR MODULES:	MPEB7900	Paediatrics	224 credits
	NAMB7900	Mini-dissertation	64 credits
	CAMO7900	Continuous Assessment	Competent

ELUCIDATION:

MPEB7900 involves the principles and practice of paediatrics and child health.

Residency (RES): Four years.

26. PAEDIATRIC SURGERY – MMED**STUDY CODE BC875400****600 Credits (including compulsory general modules)**

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

PART II: SUBSIDIARY MODULES	MCHI7900	General Surgical Principles including Intensive Care	152 credits
	NAMB7900	Mini-dissertation	64 credits
PART III: MAJOR MODULES	MPCH7900	Paediatric Surgery	192 credits
	CAMO7900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and the approval of the EXCO of the relevant school, an exception from the university's primary examination may be granted if the student has already passed the primary examination of the Colleges of Medicine South Africa. The same principle may apply to the intermediate examination.
- ii. Portfolio of Learning: Students must keep a portfolio/logbook in which all the surgical procedures performed or assisted are recorded. This portfolio/logbook must be submitted before Part III of the examination.
- iii. Only successful completion of the final FCPaedSurg (SA) will be accepted as an exit examination for module MPCH7900.

Residency (RES): Five years.

27. PLASTIC SURGERY – MMED**STUDY CODE BC872500****600 Credits (including compulsory general modules)**

PART I: BASIC MODULES	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology	60 credits
	MAPB7900	Anatomical Pathology	
		General Principles	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULES	MCHI7900	General Surgical Principles Including Intensive Care	152 credits
PART III: MAJOR MODULES	MPUP7900	Plastic Surgery	192 credits
	NAMB7900	Mini-dissertation	64 credits
	CAMO7900	Continuous Assessment	Competent

ELUCIDATION:

- i. On recommendation of the HoD and approval by the EXCO of the School of Clinical Medicine, exemption from the university, primary examination may be granted if the student has already passed the primary examination of the SA Colleges of Medicine. The same principle may apply to the intermediate examination.
- ii. Students must keep a portfolio/logbook in which all the surgical procedures performed or assisted are recorded. This portfolio/logbook must be submitted before Part III of the examination is written.

Residency (RES): Five years.

28.
PSYCHIATRY – MMED
STUDY CODE BC872600

480 Credits (including compulsory modules)

PART I: BASIC MODULES	MSIL7900	Psychology	60 credits
	ANMN7900	Neuro-anatomy	60 credits
	PHMM7900	Physiology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: MAJOR MODULES	MINP7900	Internal Medicine (Neurology and Psychopharmacology	90 credits
	MPSG7900	Psychiatry	134 credits
	NAMB7900	Mini-dissertation	64 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

Continued registration for the degree is subject to the general rules of the FHS for MMed (MGH2.6.1, 2.7 and 2.7.1). The following additional requirements apply:

- i. On the recommendation of the HoD and approval by the EXCO of the relevant school, Part I of the College for Psychiatrists of South Africa is recognised as equivalent to the MMed (Psychiatry) Part I. Students may opt to either do the FCPSYCH Part I or the MMed Part I.
- ii. The student must complete the relevant sections in the portfolio during each clinical rotation, which supervising consultants must score and sign off if the competency was achieved.
- iii. The requirements for admission to the final exams are:
 - a. An overall pass mark of ≥50% has been achieved for the MINP7900 module.
 - b. The Portfolio of Learning had been completed following the requirements stipulated by the CMSA..
 - c. At least 36 months of the training period have elapsed when registering for the FCPSCH part II examination.
- iv. Detailed information on the curriculum is available from the HoD.

Residency (RES): Four years.

29.
RADIATION ONCOLOGY – MMED
STUDY CODE BC872700

480 Credits (including compulsory general modules)

PART I: BASIC MODULES:	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology (Medicine)	60 credits
	MPMT7900	Medical Physics (Rad.T)	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance

PART II: SUBSIDIARY MODULES:	MPAT7900	Pathology	60 credits
	MRBO7900	Radiobiology	30 credits
	NAMB7900	Mini-dissertation	64 credits
PART III: MAJOR MODULES:	MOKT7900	Oncology (including Radiotherapy, Cancer Chemotherapy and Radio-isotopes	134 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

The student must complete and pass Part I and Part II of the UFS MMed examination. The latter cannot be replaced with the College of Medicine SA primary examination.

Residency (RES): Four years.

30.
SURGERY – MMED
STUDY CODE BC870600

600 Credits (including compulsory general modules)

PART I: BASIC MODULES	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULES	MCHI7900	General Surgical Principles including Intensive Care	152 credits
	NAMB7900	Mini-dissertation	64 credits
PART III: MAJOR MODULES	MCHR7900	General Surgery	192 credits
	CAM07900	Continuous Assessment	Competent

ELUCIDATION:

- i. On the recommendation of the HoD and after the approval of the EXCO of the relevant school, exception from the MMed University’s primary examination may be granted if the student has already passed the primary examination of the Colleges of Medicine South Africa. The same principle may apply to the intermediate examination.
- ii. Portfolio of Learning: Students must keep a portfolio/logbook in which all the surgical procedures performed or assisted are recorded. A student’s surgical portfolio/logbook will be evaluated according to the CMSA, College of Surgery of South Africa requirements before admission to the Part III (final) examination in Surgery. This portfolio/logbook must be handed in before Part III of the examination.
- iii. Only successful completion of the final FCS (SA) will be accepted as an exit examination for module MCHR7900.

Residency (RES): Five years.

31. UROLOGY – MMED

STUDY CODE BC872800

600 Credits (including compulsory general modules)

PART I: MAJOR MODULES	ANMG7900	Anatomy	60 credits
	PHMM7900	Physiology	60 credits
	MAPB7900	Anatomical Pathology	60 credits
	NAMA7903	Research Methodology	12 credits
	MGPV7900	Health Care Practice	Attendance
PART II: SUBSIDIARY MODULES:	MCHI7900	General Surgery Principles	
		including Intensive Care	152 credits
PART III: MAJOR MODULES:	MURL7900	Urology	192 credits
	NAMB7900	Mini-dissertation	64 credits
	CAMO7900	Continuous Assessment	Competent

ELUCIDATION:

- i. Each student is expected to keep a portfolio/logbook in which there are records of the continuous formative assessment of the student, all surgical procedures performed or assisted with are recorded, as well as copies of presentations in the department at forums and congresses and publications during their training period are kept. The portfolio/logbook must be handed in three months prior to the assessment of Part III of the SA College of Urologists’ examination and evaluated by external assessors.
- ii. During the five-year residency period, each student is expected to deliver at least one presentation at the annual Faculty Forum.
- iii. On recommendation of the HoD and on approval by the EXCO of the relevant school, exemption from the university’s primary examination may be granted if the student has already passed the primary examination of the Colleges of Medicine SA. In addition, Anatomy (ANMG7900) must also be passed.
- iv. On recommendation of the HoD and on approval by the EXCO of the relevant school, exemption from General Surgery Principles, including intensive care (MCHI7900), may be granted if the student has already passed the intermediary examination of the Colleges of Medicine SA.
- v. The degree MMed (Urology) will be awarded after successful completion of Part III of SA College of Urologists’ examination as well as the successful completion of the research component, NAMB7900.

Residency (RES): Five years.

MASTER OF MEDICAL SCIENCE || MMEDSC

MINIMUM 180 CREDITS

RULE MGH3

RULES FOR THE DEGREE MASTER OF MEDICAL SCIENCE

A student must comply with both the stipulations of the UFS General Rules for Master’s Degrees and the rules of the FHS.

RULE MGH3.1

ADMISSION REQUIREMENTS

To be allowed to register for the degree MMedSc, a student must be in possession of one of the following:

- a. The degree BMedSchHons or BScHons with the understanding that a student may be required to do supplementary work.
- b. The degree MBChB or an equivalent qualification, with the understanding that a student may be required to do supplementary work. In this case, the dissertation may not be submitted within three semesters after registration unless the university, on the recommendation of the faculty, grants special leave thereto.

RULE MGH3.2

DISCIPLINES

- a. The MMedSc degree may be offered in any of the following disciplines:

RULE MGH3.2

DISCIPLINES

The MMedSc degree may be offered in any of the following disciplines:

DISCIPLINE	ACADEMIC PLAN CODE	MODULE CODE
Anatomy and Cell Morphology	BC883000	ANMD8900

CREDITS

- RULE MGH8

RULES FOR THE DEGREE DOCTOR OF MEDICAL SCIENCE
- a.

b.
- The degree DMedSc may be conferred on a person in possession of a doctoral degree who has, over a significant period, produced comprehensive publications of considerable quality in his/her discipline.

The module code of the relevant discipline comprises the abbreviation of the discipline followed by the 9100 code. For further details, see 2026 UFS General Rules.

POSTGRADUATE DIPLOMA IN MEDICAL PHYSICS || PGDIP

STUDY CODE
BC851300

360
CREDITS

- RULE MGH11

RULES FOR THE POSTGRADUATE DIPLOMA IN MEDICAL PHYSICS
- The rules concerning postgraduate diplomas, with the necessary adjustments, are applicable to the FHS. These rules are included in the General Rules. It is the responsibility of students or prospective students to familiarise themselves with these rules.

From 2017, for new enrolments, 176 credits will be applicable with the four modules sharing on equal basis.
- RULE MGH11.1

ADMISSION REQUIREMENTS
- The minimum entrance requirement is a BMedScHons (Medical Physics) or equivalent qualification with an appropriate composition. Students will be subject to selection. Additional information is included in the Selection Policy document. Students have to register with the HPCSA as intern medical physicists.

- RULE MGH11.2

ADMISSION OF STUDENTS FROM OTHER UNIVERSITIES
- The 2026 UFS General Rule A27 apply. Students will only be allowed to enrol for the learning programme after submission of a syllabus and credits of each module passed. The department offering the programme will evaluate these modules. The department reserves the right to require that such a student pass an entrance examination.

- RULE MGH11.3

DURATION OF PROGRAMME
- A minimum of two years of study is required for the completion of the diploma.

- RULE MGH11.4

CURRICULUM MODULE
- MPDR5810/ MPDR5820 Medical Physics for Radiotherapy I

44 credits

■

MPDH5810/ MPDH5820 Medical Physics for Radiotherapy II

44 credits

■

MPDI5810 / MPDI5820 Medical Physics for Diagnostic Radiology

44 credits

■

MPDM5810/ MPDM5820 Medical Physics for Nuclear Medicine

44 credits

ELUCIDATION:

Some modules can be offered at external centres.

This Postgraduate Diploma complies with the requirements on practical training (internship) prescribed by the HPCSA for registration as an independent practice medical physicist.

RULE MGH11.5 ASSESSMENT

The final module mark comprises marks obtained by means of written reports, oral assessment, and other tasks as stipulated in the module guide.

RULE MGH11.6 PASS WITH DISTINCTION

The Postgraduate Diploma is awarded with distinction if:

- a. A total weighted average mark of 75% is obtained.
- b. The Postgraduate Diploma has been obtained within the minimum prescribed period of two years.

RULE MGH11.7 PASS REQUIREMENTS

See 2026 UFS General Rules.

POSTGRADUATE DIPLOMA IN CLINICAL PHARMACOLOGY PGDIP	STUDY CODE BC858212	128 CREDITS
--	------------------------	----------------

RULE MGH12 RULES FOR THE POSTGRADUATE DIPLOMA IN CLINICAL PHARMACOLOGY

RULE MGH12.1 ADMISSION REQUIREMENTS

- MBChB or BPharm

RULE MGH12.2 DURATION OF PROGRAMME

- One year (full-time), two years (part-time)

RULE MGH12.3 CURRICULUM

- a. Assignments (Clinical Pharmacology and Clinical Toxicology)
- b. Case reports
- c. Mini-dissertation/dissertation

SEMESTER 1: Advanced Clinical Pharmacology MACA5810 64 credits

SEMESTER 2: Advanced Clinical Pharmacology MACB5820 64 credits

Each student will propose and undertake a clinical pharmacology research project under the guidance of a staff member.

The research project, preferably original but not necessarily so, may be taken on any aspect of clinical pharmacology as will be advised by the HoD.

RULE MGH12.4 ASSESSMENT

Assessment is conducted by continuous assessment, where the final mark will be determined by the proportions of marks obtained from progressive assessments and marks from a completed research project. The average contribution to the final score will be as follows:

MACA5810: Assignments in Clinical Pharmacology and Clinical Toxicology:

- a. Two tests of two hours each and an examination of three hours: 50%
- b. MACB5820: Case reports (an average score for five case reports): 20%
- c. MACB5820: Presentation of Mini-dissertation 30%
- Total mark: 100%

RULE MGH12.5 PASS REQUIREMENTS

See 2026 UFS General Rules.

POSTGRADUATE DIPLOMA IN TRANSFUSION MEDICINE PGDIP (IN ABEYANCE)	STUDY CODE BC822300	120 CREDITS
--	------------------------	----------------

RULE MGH13 RULES FOR THE POSTGRADUATE DIPLOMA IN TRANSFUSION MEDICINE

RULE MGH13.1 ADMISSION REQUIREMENTS

Before a student may register for the Postgraduate Diploma, he/she must be in possession of a Bachelor of Medicine and Bachelor of Surgery (MBChB), or equivalent. Students must be registered as an independent medical practitioner with the HPCSA or equivalent body in their country of origin.

It is compulsory for students to have access to internet and email facilities. The attendance of all contact sessions is compulsory.

If there are more than 15 applications, preference may be given to students from South Africa and those working actively in transfusion medicine. Students may be subjected to a language proficiency test if deemed necessary.

RULE MGH13.2 DURATION OF PROGRAMME

The programme extends over two years and is only offered on a part-time basis.

RULE MGH13.3 CURRICULUM

PART I

- i. MTM05804 Organisation and Management of a Transfusion Service 16 credits
- ii. MTMP5804 Principles of Blood Banking and Fractionation of Blood 16 credits
- iii. MTMA5804 Administering Blood Products 16 credits

PART II

- i. MTMC5809 Clinical Application of Blood Products 36 credits
- ii. MTMT5805 Complications of Transfusion 20 credits
- iii. MTMD5804 Developments in Transfusion Medicine 16 credits

The modules will only be presented in English, but written and oral assessments, as well as assignments, may be done in Afrikaans or English. All electronic communication will be conducted in English.

RULE MGH13.4 ASSESSMENT

Different forms of assessments will be used in each separate module (i.e., written, oral, group work, etc.). Students must achieve a subminimum of 50% in each module to pass. A student passes with distinction if a weighted average assessment mark of 75% or more is obtained.

RULE MGH13.5 PASS REQUIREMENTS

See 2026 UFS General Rules.

RULE MGH13.6 ADDITIONAL EXAMINATION

If less than 50% is achieved in any module, an oral or written assessment may be conducted to ensure adequate integrated assessment, and students may be admitted to an additional examination in accordance with the stipulations of the General Rules. Further supplementary assessments may be allowed on approval by the Dean and on the recommendation of the HoD.

POSTGRADUATE DIPLOMA IN DIAGNOSTIC RADIOGRAPHY PGDIP (IN ABEYANCE)	STUDY CODE 8203	120 CREDITS
--	----------------------------	------------------------

RULE MGH14 RULES FOR THE POSTGRADUATE DIPLOMA IN DIAGNOSTIC RADIOGRAPHY

A student must comply with the provisions of the UFS General Rules for Postgraduate Diplomas as well as the rules of the FHS.

RULE MGH14.1 ADMISSION REQUIREMENTS

Before a student may enrol for the PGDip Diagnostic Radiography, he/she must:

- i. Be in possession of at least a three-year BRad or equivalent qualification.
- ii. Be admitted to the status of the three-year BRad degree on the recommendation of the FHS.
- iii. Be registered as diagnostic radiographer with the HPCSA.
- iv. Be appointed as diagnostic radiographer at an accredited training hospital that has the appropriate facility at its disposal.

REMARK:

Only a limited number of students can be admitted per study direction annually.

RULE MGH14.2 DURATION OF PROGRAMME

The duration of the programme extends over two semesters offered on a full-time basis.

RULE MGH14.3 DISCIPLINES

The Postgraduate Diploma in Diagnostic Radiography may be obtained in the following disciplines: Mammography, Computer Tomography, Magnetic Resonance, and Vascular/Interventional.

RULE MGH14.4 CURRICULUM FIRST SEMESTER:

- i. MAPS5810 Applied Physics 30 credits
- ii. MRAR5810 Radiographic Anatomy/Physiology/Pathology 30 credits

SECOND SEMESTER:

- i. MRTR8520 Radiographic Practice 30 credits
- ii. MPCR8520 Clinical Radiographic Practice 30 credits

RULE MGH14.5 ASSESSMENT

- i. Assessment is conducted in the following manner:
- ii. Two two-hour question papers per semester
- iii. Oral Second semester
- iv. Research project Second semester

RULE MGH14.6 PASS REQUIREMENTS

See 2026 UFS General Rules.

POSTGRADUATE DIPLOMA IN OCCUPATIONAL HEALTH PGDIP (IN ABEYANCE)	STUDY CODE BC852000	120 CREDITS
---	--------------------------------	------------------------

RULE MGH15 RULES FOR THE POSTGRADUATE DIPLOMA IN OCCUPATIONAL HEALTH

RULE MGH15.1 ADMISSION REQUIREMENTS

Before a student may register for the diploma, he/she must have been in possession of a Bachelor of Medicine and Bachelor of Surgery (MBChB) or its equivalent for a period of at least two years, and he/she must also be registered as an independent medical practitioner with the HPCSA.

An additional requirement for foreign medical practitioners, including medical practitioners from the Southern Africa Developing Countries (SADC), for registration as students for this diploma course is that medical practitioners should be registered for postgraduate studies with the HPCSA as stipulated by the HPCSA and Health Professions Act no. 56 of 1974.

It is compulsory for students to have access to the internet and email facilities.

Preference will be given to medical practitioners working in the Free State and students currently employed in an occupational health setting.

RULE MGH15.2 DURATION OF PROGRAMME

The programme extends over two years and is offered part-time only.

RULE MGH15.3 CURRICULUM

PART I

- i. MOHA5805 Occupational Health Administration (Part I) 20 credits
- ii. MOHT5805 Clinical Occupational Health and Toxicology (Part I) 20 credits
- iii. MOHB5805 Occupational Epidemiology and Biostatistics (Part I) 20 credits

PART II

- i. MOHD5805 Occupational Health Administration Part II 20 credits
- ii. MOH05805 Clinical Occupational Health and Toxicology Part II 20 credits
- iii. MOHI5805 Occupational Epidemiology and Biostatistics Part II 20 credits

The module will be presented in only English, and all written and oral assessments, as well as other assignments, must be conducted in English. All electronic communications will be conducted in English. Additional information will be provided in the guideline document for each module.

RULE MGH15.4

ASSESSMENT

A written assessment must be conducted in each module as specified. An oral assessment may be conducted at the end of the programme. Admission to the assessment will be subject to the UFS General Rules concerning postgraduate diplomas and advanced university diplomas of the University as well as the student attending contact sessions and participating in electronic sessions. A student will pass with distinction if he/she obtain a weighted average of 75% or higher.

RULE MGH15.5

PASS REQUIREMENTS

See 2026 UFS General Rules.

RULE MGH15.6

ADDITIONAL EXAMINATION

In accordance with the stipulations of the General Rules, students may be admitted to an additional examination. Further assessments may be allowed after six months with the approval of the Head of the School, on the recommendation of the HoD.

POSTGRADUATE DIPLOMA IN COMMUNITY HEALTH PGDIP (IN ABEYANCE)	STUDY CODE 8230	120 CREDITS
---	---------------------------	------------------------------

RULE MGH16

RULES FOR THE POSTGRADUATE DIPLOMA IN COMMUNITY HEALTH

RULE MGH16.1

ADMISSION REQUIREMENTS

Before a student may register for the Postgraduate Diploma, he/she must have been in possession of a professional qualification at bachelor's level or equivalent in one of the following professional disciplines: Medicine, Nursing or Environmental Health, for a period of at least two years, and he/she must be registered as a medical practitioner, nurse or environmental health officer with the relevant professional board.

RULE MGH16.2

DURATION OF PROGRAMME

The programme extends over two years and is offered part-time only.

RULE MGH16.3

CURRICULUM

PART I

i.

MGGA5803

Microbiology (assessment course)

10 credits

ii.

MGGB5808

Parasitology and Entomology (assessment course)

24 credits

iii.

MGGC5809

Food and Water (including diseases, hygiene and food science) (assessment course)

24 credits

PART II

i.

MGGD5801

Epidemiology and Medical Statistics (assessment course)

4 credits

ii.

MGGE5807

Health Administration including Basic Financial Management, Accounting and Business Economics (assessment course)

20 credits

iii.

MGGF5805

Health Legislation (assessment course)

12 credits

- iv.**

MGGG5806

Comprehensive Health Care (assessment course)

20 credits
- v.**

MGGH5802

Environmental Health Care (assessment course)

6 credits

RULE MGH16.4

ASSESSMENT

A written assessment must be conducted in each separate module as specified. Admission to the assessment will be subject to the student attending contact sessions. An oral assessment will be conducted at the end of the module. A research report/ project should also be completed as part of the assessment process. A student passes with distinction if he/she obtains a weighted average of 75% or more.

RULE MGH16.5

PASS REQUIREMENTS

See 2026 UFS General Rules.

RULE MGH16.6

ADDITIONAL EXAMINATION

Students may be admitted to an additional examination in accordance with the stipulations of the General Rules. Further supplementary assessments may be allowed after six months upon approval by the Head of the School and on the recommendation of the HoD.

RULE MGH16.7

CREDIT FOR MODULES AFTER OBTAINING A CERTIFICATE OR DIPLOMA AT A RECOGNISED UNIVERSITY/HIGHER EDUCATION INSTITUTION

a.

Credit for certain modules already passed for another certificate/diploma may be granted to a student, provided that:

b.

Credit may be granted for a maximum of half of the qualification's total credits.

c.

The student must be registered for the new diploma for at least one academic year.

POSTGRADUATE DIPLOMA IN HEALTH SERVICES MANAGEMENT PGDIP (IN ABEYANCE)	STUDY CODE 8240	120 CREDITS
---	---------------------------	------------------------------

RULE MGH17

RULES FOR THE POSTGRADUATE DIPLOMA IN HEALTH SERVICES MANAGEMENT

RULE MGH17.1

ADMISSION REQUIREMENTS

Before a student may register for the Postgraduate Diploma, he/she must have been in possession of a professional qualification at Bachelor's level or equivalent in a specific health speciality, and he/she must be registered with the relevant professional council. He/she must be appointed in a healthcare organisation/institution.

RULE MGH17.2

DURATION OF PROGRAMME

The programme extends over two years and is offered part-time only.

RULE MGH17.3

CURRICULUM

PART I

i.

MHSA5800

Concepts in Health Care

15 credits

ii.

MHSB5800

Principles of Management

15 credits

iii.

MHSC5800

Health Care Planning

15 credits

iv.

MHSD5800

Epidemiology and Statistics

15 credits

PART II

i. MHSE5800	Health Programme and Specialised Services	15 credits
ii. MHSF5800	Human Resources Management	15 credits
iii. MHSG5800	Management of Resources	15 credits
iv. MHSH5800	Quality Assurance	15 credits

RULE MGH17.4 ASSESSMENT

A written assessment must be conducted in each individual module as specified. An oral assessment will be conducted at the end of the module. Admission to the assessment will be subject to the attendance of contact sessions. A research report/ project must also be completed as part of the assessment process. A student passes with distinction if he/she obtain a weighted average of 75% or more.

RULE MGH17.5 PASS REQUIREMENTS

See 2026 UFS General Rules.

RULE MGH17.6 ADDITIONAL EXAMINATION

Students may be admitted to an additional examination in accordance with the stipulations of the General Rules. Further assessments may be allowed after six months, with the approval of the Head of the School of Clinical Medicine, on the recommendation of the HoD.

RULE MGH17.7 CREDIT FOR MODULES AFTER OBTAINING A CERTIFICATE OR DIPLOMA AT A RECOGNISED UNIVERSITY/HIGHER EDUCATION INSTITUTION

Credit for certain modules already passed for another certificate/diploma may be granted to a student, provided that:

- a. Credit is granted for a maximum of half of the modules.
- The student must be registered for the new diploma for at least one academic year.

MASTER OF PHILOSOPHY QUALIFICATIONS || SUBSPECIALIST TRAINING

RULE MGH19 GENERAL

The Master of Philosophy is a master’s degree by coursework and mini-dissertation: A coursework programme requiring a high level of theoretical engagement and intellectual independence, and in some cases, demonstration of the ability to relate knowledge to a range of contexts for professional practice. The qualification equals 300 credits, and the minimum duration of study is two years. Students are required to complete a mandatory research project (60 credits) accompanied by a mini-dissertation providing evidence that the student has obtained the knowledge and competencies required at NQF Exit Level 9.

The MPhil in Interventional Radiology is not yet a registered sub-speciality category at the HPCSA. The HPCSA does not guide the training requirements of this qualification. However, the UFS offers this degree as an MPhil qualification.

RULE MGH19.1.1 DISCIPLINES

The MPhil degree may be obtained in the following disciplines:

1. Endocrinology (Internal Medicine)	9. Paediatric Oncology (Paediatrics)
2. Gastroenterology (Internal Medicine)	10. Gastroenterology Surgery (Surgery)
3. Geriatric Medicine (Internal Medicine)	11. Trauma Surgery (Surgery)

4. Nephrology (Internal Medicine)	12. Vascular Surgery (Surgery)
5. Pulmonology (Internal Medicine)	13. Critical Care (Anaesthesiology, Internal Medicine, Neurosurgery, Emergency Medicine, Obstetrics and Gynaecology, Cardiothoracic Surgery, General Surgery, Paediatrics)
6. Pathology (Haematology)	14. Neonatology (Paediatrics)
7. Interventional Radiology (Diagnostic radiology)	15. Infectious Disease (Internal Medicine)
8. Paediatric Cardiology (Paediatrics)	

RULE MGH19.1.2 ADMISSION REQUIREMENTS

Admission to the MPhil degree programme is determined in accordance with the UFS General Rules for Postgraduate Qualifications and the Rules of the FHS.

The following applies to students registering for the MPhil degree:

- a. Students will be admitted to the programme if they are either in possession of a MMed degree or a Fellow with the Colleges of Medicine of South Africa or have an equivalent qualification.
- b. Must be registered as a specialist in independent practice at the relevant professional board in the base or one of the base specialities of the HPCSA against the relevant required subspecialty.
- c. Students must be appointed in or hold a supernumerary position in an HPCSA-approved available training post at an accredited facility.
- d. Approved academic hospital and the post must be registered as an allocated training post with the HPCSA for the particular discipline. Students must adhere to the additional discipline-specific requirements of the academic structures concerned, as well as the specific requirements of the particular Colleges of Medicine concerned.
- e. In the case of supernumerary appointments of foreign students who are not fully registered with the HPCSA, each case will be dealt with on merit according to the prescriptions of the HPCSA. Foreign students register as postgraduate students at the HPCSA. If successful, these students may obtain a degree but will not be able to practice in South Africa without approval and registration by the HPCSA.
- f. After a selection process, training commences after the student has been appointed to an above-mentioned post and after he/she has received an HPCSA training number from the Postgraduate Administrative Office of the FHS. Students who apply must also avail themselves to the required training platforms and have the required clinical experience.
- g. The student should have identified a research topic prior to admission.
- h. Students who apply must avail themselves to the required training platforms and have the required clinical experience, including work done as part of overtime requirements for the specific departments.

ELUCIDATION:

- i. The student registers in the first year of the MPhil programme at the FHS as a postgraduate student and is allocated a student number.
- ii. The student must simultaneously register at the HPCSA as a specialist in the relevant discipline and is allocated a HPCSA board number.
- iii. After the first year, the student must register annually at the beginning of each year as a postgraduate student at the UFS and as a specialist in the relevant discipline with the HPCSA as described above.
- iv. If the student is not appointed to the post of fellow and discontinues the MPhil programme, class fees will not be refunded.
- v. in circumstances where extended leave for illness (for more than one month per year, including incapacity leave or pregnancy) is granted, additional time will be added at the end of the training period to allow for adequate training as prescribed by the HPCSA from time to time.

RULE MGH19.1.3 **DURATION OF PROGRAMME**

The duration of training extends over two to three years full-time, depending on the requirements of the discipline under which the major module falls.

RULE MGH19.1.4 **CURRICULUM**

The curriculum for the various disciplines in which the student may obtain the MPhil degree comprises the compulsory generic module mentioned in Rule MGH19.1.4.1, as well as the discipline-specific curriculum, relevant major modules.

RULE MGH19.1.4.1. **RESEARCH COMPONENT OF THE MPHIL**

A. RESEARCH COMPONENT **60 CREDITS**

Rule MGH19.1.4.1 applies to:

- MPhil Endocrinology (MAED7900)
- MPhil Gastroenterology (MAGD7900)
- MPhil Geriatric Medicine (MAGM7900)
- MPhil Nephrology (MAND7900)
- MPhil Pulmonology (MAPD7900)
- MPhil Clinical Haematology (MCHD7900)
- MPhil Interventional Radiology (MIRD7900)
- MPhil Paediatric Cardiology (MPCD7900)
- MPhil Paediatric Oncology (MPOD7900)
- MPhil Gastroenterology Surgery (MGSD7900)
- MPhil Trauma Surgery (MTSD7900)
- MPhil Vascular Surgery (MVSD7900)
- MPhil Critical Care (MCCD7900)
- MPhil Neonatology (MPND7900)
- MPhil Infectious Disease (MIDD7900)

The research component of the MPhil programme comprises of a discipline-specific mini-dissertation/publishable manuscript/ published article. It is assumed that students have completed a research Methodology course. Students who have not completed a research Methodology course have to complete the NAMA7903 research Methodology course.

MINI-DISSERTATION

- The MPhil Research Report comprises one of the following:
 - Original research
 - A systematic review, meta-analysis
 - scoping Review that complies with the PRISMA Extension for Scoping Reviews (PRISMA-ScR) or other internationally recommended checklists.
- The manuscript submitted for assessment should be in one of the following formats:
 - Mini-dissertation (20 000–30 000 words).

- Publishable manuscript (accompanied by a literature review between 3000 and 4000 words).
 - Published article in a peer-reviewed DHET-accredited journal.
- Disciplines individually determine which mode of presentation is appropriate.
 - For all disciplines, a protocol that is approved by the supervisor, departmental research committee as well as the Head of Department, must be submitted to and approved by the HSREC. A copy of the final HSREC approval must be submitted to the Postgraduate Administration Office, together with a timeframe for completion of the mini-dissertation.
 - Mode of presentation [UFS General Rule A23]: A Master’s by coursework involves a mini-dissertation or one publishable manuscript/published article in the place of a mini-dissertation.
 - An introduction and a conclusion must form part of the research work that has been done by the student when publishable manuscripts/published article is submitted in place of a mini-dissertation. (Guidelines on the mode of presentation are available from the Postgraduate Administration Office.)
 - A protocol for the mini-dissertation that has been approved by the UFS Health Sciences Research Ethics Committee must be submitted within six (6) months of first registration.
 - The mini-dissertation/publishable manuscript/published article has to be submitted for assessment prior to registration for the final exit examination. A student who has not submitted the mini-dissertation/ publishable manuscript/published article may not register for the final exit examination. Only in exceptional circumstances may the HoD submit a written recommendation, together with an academic progress report compiled by the Postgraduate Administration Office, to the EXCO of the relevant school for permission to register for the final exit examination.

ASSESSMENT OF THE RESEARCH COMPONENT

- All 2026 UFS General Rules pertaining to the assessment of the mini-dissertation/publishable manuscript/ published articles of the coursework Master’s Degree apply.
- The mini-dissertation/publishable manuscript/published article has to be assessed by two assessors, of whom at least one has to be an external assessor.
- The Supervisor, in collaboration with the HoD and Head of the Clinical Unit, will be responsible for nominating either one external (a person not affiliated with the UFS, however, affiliated with another tertiary training institution and regarded as an expert in the field) and one internal assessor (who must not be either the supervisor or co-supervisor), or two external assessors for the assessment of the mini-dissertation/ publishable manuscript/published article.
- As soon as the supervisor has indicated that the student is ready to submit, the HoD should supply the postgraduate administration office with the names and contact details of the nominated assessors, after which the postgraduate administration office will officially notify the assessors of their nomination.
- The mini-dissertation/publishable manuscript/published article must be submitted to the Postgraduate Administration Office, which will then forward the documents to the assessors. All assessors’ reports, mark sheets, and communication must be submitted via the Postgraduate Administration Office.
- The mini-dissertation/publishable manuscript/published article must be passed individually in order for the MPhil degree to be conferred.

RULE MGH19.1.5 **ASSESSMENT**

B. CONTINUOUS ASSESSMENT AND CLINICAL EXPERIENCE

- Continuous assessment with appropriate feedback is done by the relevant department throughout the course of the training as per HPCSA guidelines. External assessment could be involved.
- The Head of Clinical Unit and the Head of Department must confirm that the student is competent prior to admission to the final examination.

- c. A professional portfolio of evidence must be kept, which includes all academic and clinical activities that should include a logbook of procedures performed.
- d. Formal assessment of the portfolio/logbook may be performed in accordance with the HPCSA requirements.
- e. MPhil students will participate in undergraduate and postgraduate training and assessment, subject to the rules that apply in the individual departments.

C. ASSESSMENT OF THE DISCIPLINE-SPECIFIC MODULES

Assessment of the discipline-specific modules

- a. Students may write the assessments in the first semester or second semester.
- b. Students may only register for the final exit examination with the approval of the HoD and Head of Clinical Unit. Read in conjunction with MGH19.1.4.1 mini-dissertation (vi).
- c. The student must notify the Postgraduate Administration Office of the Faculty of Health Sciences in writing of their intention to participate in the final exit examination.
- d. The format of the assessment will be determined by the appointed national exit examination body (currently the College of Medicine of South Africa). The MPhil subspecialty qualifications in the various subspecialties of the Colleges of Medicine of South Africa are recognised as equivalent to the successful completion of non-research discipline-specific modules of the MPhil qualification.
- e. Approval to register for the final exit examination will only be granted on condition that the research component has been submitted to the postgraduate office for assessment.
- f. Approval to register for the final exit examination must be granted by the relevant structures in the University before enrolment for the examination.

RULE MGH19.1.6

EXAMINATIONS AND PASS REQUIREMENTS

- a. Submission of a satisfactory logbook of clinical cases prior to admission to writing the examination of the relevant College of Medicine.
- b. Successful completion of the examination of the relevant College of Medicine will be recognised as credit for the non-research discipline-specific modules.
- c. The research component must be passed independently in order for the MPhil degree to be awarded.

RULE MGH19.1.7

ADDITIONAL EXAMINATION

- a. A student who has presented him/herself for a final examination in a degree, which would have counted as a final assessment opportunity and then fails that assessment opportunity, may apply for no other final assessment opportunity until a remedial period as approved by the HoD.
- b. An MPhil student may not write an additional examination for a discipline-specific module until at least six months have elapsed after the assessment in which he/she had failed the module concerned.

ELUCIDATION:

The student is expected to participate in the first following reassessment opportunity.

RULE MGH19.1.8

PASS WITH DISTINCTION

The student passes with distinction, subject to the following:

- a. A weighted average of at least 75% rounded to the next integer, for example, 74,5% to 75% has been obtained based on the minimum number of modules prescribed for the qualification in question.
- b. No module has been failed or repeated in an additional examination.

- c. The Master's Degree research mini-dissertation or interrelated, publishable manuscripts/published article were not resubmitted for assessment purposes.
- d. All components of the Master's Degree have been completed within the maximum consecutive years allowed for completion of the qualification.

ELUCIDATION:

This must be read in conjunction with 2026 UFS General Rule A30.

RULE MGH19.1.9

DEAN'S MEDALS AND SENATE MEDALS

In each faculty, a Dean's Medal is awarded to a registered Master's Degree student who has obtained the highest weighted average percentage over all the years of study provided that:

- a. the qualification was awarded distinction, and a weighted average of at least 80% (not rounded to the next integer) has been obtained, based on the minimum number of modules prescribed for the qualification in question; and
- b. no module was failed or repeated in an additional examination. The result of a discontinuation of a module(s) will not be taken into account with the awarding of a Dean's Medal.
- c. A Senate Medal and Prize are awarded to a student who received a Dean's Medal and who obtained the highest weighted average percentage in all the faculties.

ELUCIDATION:

To be read in conjunction with 2026 UFS General Rule A9: Qualification Certificates, Dean's Medals and Senate Medals.

RULE MGH19.1.10

EXTENSION OF THE RESIDENCY/STUDY PERIOD

A student who has completed the prescribed residency period and has not passed the national exit examination and/or has not passed the mini-dissertation may not continue with the programme without written approval.

ELUCIDATION

- i. The HoD is required to submit, for special circumstances only, a written recommendation together with an academic progress report compiled by the Postgraduate Administration Office to the EXCO of the relevant school. A student may only continue in a registered post with written approval from the EXCO of the relevant school.
- ii. In the case of an application for a further extension of residency time, the HoD is required to submit, for special circumstances only, a written recommendation together with an academic progress report compiled by the Postgraduate Administration Office to the EXCO of the relevant school. Following the aforementioned, the Chair of the relevant EXCO will make a formal written recommendation to the Dean to consider for approval. The student may only continue with the MPhil with written approval from the Dean.
- iii. Students can only be appointed in a subspecialty post if they have qualified as subspecialists.

RULE MGH19.1.11

CONFERMENT OF THE DEGREE

Before the MPhil degree is conferred, the student must convince the UFS of the successful completion of the following:

- a. Having held a full-time training post for a full residency period as stipulated by the specific discipline at the training hospitals of the FHS at the UFS or another institution recognised as equivalent by the university (in accordance with the requirements of the relevant discipline).
- b. Receiving theoretical, practical, and clinical training for the prescribed duration of the degree programme.
- c. Registered at the University as a student for the MPhil degree for the prescribed period.

- d. The mini-dissertation has been passed, and corrections to the research manuscript have been completed. Refer to UFS General Rule A28.
- e. Satisfactory completion and submission of a Portfolio/Logbook (according to requirements of the relevant discipline).
- f. Pass the national exit examination. Where a national exit examination is not offered (e.g., MPhil in Interventional Radiology), an equivalent assessment conducted by an examination body as appointed by the University of the Free State must be passed.

RULE MGH19.1.12 REMUNERATIVE WORK OUTSIDE OF THE PUBLIC SERVICE

All students enrolled in MPhil at the University of the Free State (UFS) are NOT permitted to engage in RWOPS.

MASTER OF PHILOSOPHY IN ENDOCRINOLOGY MPHIL	300 CREDITS
---	--------------------

RULE MGH19.2 RULES FOR THE MASTER OF PHILOSOPHY IN ENDOCRINOLOGY

RULE MGH19.2.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine.

RULE MGH19.2.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.2.3 CURRICULUM

i.	MAEA7900	Advanced Endocrinology 1	Year 1	120 credits
ii.	MAEB7900	Advanced Endocrinology 2	Year 2	120 credits
iii.	MAED7900	Endocrinology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.2.4 ASSESSMENT

The national sub-speciality in Endocrinology and Metabolism of the College of Physicians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Endocrinology modules (240 credits).

MASTER OF PHILOSOPHY IN GASTROENTEROLOGY MPHIL	STUDY CODE BC870013	300 CREDITS
--	----------------------------	--------------------

RULE MGH19.3 RULES FOR THE MASTER OF PHILOSOPHY IN GASTROENTEROLOGY

RULE MGH19.3.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine.

RULE MGH19.3.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.3.3 CURRICULUM

The principles and practice of Clinical Gastroenterology are dealt with.

i.	MAGA7900	Advanced Gastroenterology 1 (Theory and Clinical Practice)	Year 1	120 credits
ii.	MAGB7900	Advanced Gastroenterology 2 (Theory and Clinical Practice)	Year 2	120 credits
iii.	MAGD7900	Gastroenterology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.3.4 ASSESSMENT

The national sub-speciality in Gastroenterology of the College of Physicians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Gastroenterology modules (240 credits).

MASTER OF PHILOSOPHY IN GERIATRIC MEDICINE MPHIL	STUDY CODE BC870018	300 CREDITS
--	----------------------------	--------------------

RULE MGH19.4 RULES FOR THE MASTER OF PHILOSOPHY IN GERIATRIC MEDICINE

RULE MGH19.4.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine.

RULE MGH19.4.2 DURATION OF PROGRAMME

Two years full time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.4.3 CURRICULUM

The principles and practice of Clinical Geriatric Medicine are dealt with.

i.	MGMA7900	Advanced Geriatric Medicine 1	Year 1	120 credits
ii.	MGMB7900	Advanced Geriatric Medicine 2	Year 2	120 credits
iii.	MGMD7900	Geriatric Medicine Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.4.4 ASSESSMENT

The national sub-speciality Geriatric Medicine of the College of Physicians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Geriatric Medicine modules (240 credits).

MASTER OF PHILOSOPHY IN NEPHROLOGY MPHIL	STUDY CODE BC870017	300 CREDITS
--	----------------------------	--------------------

RULE MGH19.5 RULES FOR THE MASTER OF PHILOSOPHY IN NEPHROLOGY

RULE MGH19.5.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine.

RULE MGH19.5.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.5.3 CURRICULUM

The principles and practices of Clinical Nephrology are dealt with.

i.	MANA7900	Advanced Nephrology 1 (Theory and Clinical Practice)	Year 1	120 credits
ii.	MANB7900	Advanced Nephrology 2 (Theory and Clinical Practice)	Year 2	120 credits
iii.	MAND7900	Nephrology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH79.5.4 ASSESSMENT

The national sub-speciality in Nephrology of the College of Physicians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Nephrology modules (240 credits).

MASTER OF PHILOSOPHY IN PULMONOLOGY MPHIL	STUDY CODE BC871200	300 CREDITS
---	--------------------------------	------------------------

RULE MGH19.6 RULES FOR THE MASTER OF PHILOSOPHY IN PULMONOLOGY

RULE MGH19.6.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine.

RULE MGH19.6.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.6.3 CURRICULUM

The principles and practice of Clinical Pulmonology are dealt with.

i.	MAPA7900	Advanced Pulmonology 1	Year 1	120 credits
ii.	MAPC7900	Advanced Pulmonology 2	Year 2	120 credits
iii.	MAPD7900	Pulmonology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.6.4 ASSESSMENT

The national subspecialty in Pulmonology of the College of Physicians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Pulmonology modules (240 credits).

MASTER OF PHILOSOPHY IN CLINICAL HAEMATOLOGY MPHIL	STUDY CODE BC870014	300 CREDITS
--	--------------------------------	------------------------

RULE MGH19.7 RULES FOR THE MASTER OF PHILOSOPHY IN CLINICAL HAEMATOLOGY

RULE MGH19.7.1 ADMISSION REQUIREMENTS

Before a student will be permitted to enrol for the qualification, he/she has to comply with one of the following requirements:

- a. Registered with the HPCSA as a Specialist in Pathology (Haematological)
- b. Be registered with the HPCSA as a Specialist in Internal Medicine

RULE MGH19.7.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.7.3 CURRICULUM

The principles and practice of Clinical Haematology are dealt with. Students who are qualified as physicians on adult haematological conditions. All aspects of clinical and laboratory haematology are covered.

i.	MCHA7900	Advanced Clinical Haematology 1	Year 1	120 credits
ii.	MCHB7900	Advanced Clinical Haematology 2	Year 2	120 credits
iii.	MCHD790	Clinical Haematology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.7.4 ASSESSMENT

The national sub-speciality in Clinical Haematology of the College of Physicians of South Africa or the College of Pathologists of South Africa is the only acceptable exit examinations and are recognised as being equivalent to the successful completion of the Advanced Haematology modules (240 credits).

MASTER OF PHILOSOPHY IN INTERVENTIONAL RADIOLOGY MPHIL (IN ABEYANCE)	STUDY CODE BC870015	300 CREDITS
--	--------------------------------	------------------------

RULE MGH19.8 RULES FOR THE MASTER OF PHILOSOPHY IN INTERVENTIONAL RADIOLOGY

A student must comply with the UFS General Rules for postgraduate qualifications as well as the Rules of the FHS.

RULE MGH19.8.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Diagnostic Radiology.

RULE MGH19.8.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.8.3 CURRICULUM

The principles and practice of Advanced Clinical Imaging are dealt with.

i.	MIBP7900	Basic Principles in IR	Year 1	40 credits
ii.	MICP7900	Basic IR Clinical Practice	Year 1	40 credits
iii.	MIAA7900	Advanced IR Practice 1	Year 2	80 credits
iv.	MIAB7900	Advanced IR Practice 2	Year 2	80 credits
v.	MIRD7900	Clinical Imaging Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.8.4 ASSESSMENT

- i. The examination comprises one three (3)-hour written examinations per semester, an OSCA, as well as an oral session averaging 15-30 minutes in the fourth semester.

- ii. Logbook/portfolio evidence for Clinical Imaging Practice.
- iii. Students are requested to submit a research project at least six (6) months before the final examination is written. The research report must be passed individually in order to obtain the qualification. (cf. Section 9 – postgraduate policies, procedures, and rules). The MPhil exit level examination is currently written at the UFS, but an equivalent examination may be written at the European Board of Interventional Radiology (EBIR) or at the College of Radiologists in South Africa if approved by the Head of the Department.

MASTER OF PHILOSOPHY IN PAEDIATRIC CARDIOLOGY MPHIL	STUDY CODE BC870016	300 CREDITS
--	------------------------	----------------

RULE MGH19.9.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Paediatrics.

RULE MGH19.9.2 DURATION OF PROGRAMME

Three years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.9.3 CURRICULUM

The principles and practice of Paediatric Cardiology are dealt with.

i.	MPCE7900	Advanced Paediatric Cardiology Echocardiography	Year 1	60 credits
ii.	MPCA7900	Advanced Paediatric Cardiology Anatomy	Year 1	60 credits
iii.	MPCP7900	Advanced Paediatric Cardiology Physiology	Year 1-2	60 credits
iv.	MCPH7900	Advanced Paediatric Cardiology Health Care Practice	Year 2, 3	60 credits
v.	MPCD7900	Paediatric Cardiology Mini-dissertation	Year 1, 2 and 3	60 credits

RULE MGH19.9.4 ASSESSMENT

The national subspecialty examination in Paediatric Cardiology of the College of Paediatricians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Paediatric Cardiology modules (240 credits).

MASTER OF PHILOSOPHY IN MEDICAL ONCOLOGY MPHIL (PAEDIATRIC ONCOLOGY)	STUDY CODE BC870019	300 CREDITS
--	------------------------	----------------

Rule MGH19.10 RULES FOR THE MASTER OF PHILOSOPHY IN ONCOLOGY

RULE MGH19.10.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Paediatrics.

RULE MGH19.10.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.10.3 CURRICULUM

The principles and practice of Paediatric Oncology are dealt with.

i.	MPOA7900	Advanced Oncology 1	Year 1	120 credits
----	----------	---------------------	--------	-------------

ii.	MPOB7900	Advanced Oncology 2	Year 2	120 credits
iii.	MPOD7900	Oncology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.10.4 ASSESSMENT

The national subspecialty examination in Paediatric Oncology of the College of Paediatricians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Paediatric Oncology modules (240 credits).

MASTER OF PHILOSOPHY IN GASTROENTEROLOGY SURGERY MPHIL	STUDY CODE BC871100	300 CREDITS
---	------------------------	----------------

RULE MGH19.11 RULES FOR THE MASTER OF PHILOSOPHY IN GASTROENTEROLOGY SURGERY

RULE MGH19.11.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Surgery.

RULE MGH19.11.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.11.3 CURRICULUM

i.	MGSA7900	Advanced Gastroenterology Surgery 1	Year 1	120 credits
ii.	MGSB7900	Advanced Gastroenterology Surgery 2	Year 2	120 credits
iii.	MGSD7900	Gastroenterology Surgery Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.11.4 ASSESSMENT

The national subspecialty examination in Gastroenterology of the College of Surgeons of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Gastroenterology Surgery modules (240 credits).

MASTER OF PHILOSOPHY IN TRAUMA SURGERY MPHIL	STUDY CODE BC870021	300 CREDITS
---	------------------------	----------------

RULE MGH19.12 RULES FOR THE MASTER OF PHILOSOPHY IN TRAUMA SURGERY

RULE MGH19.12.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Surgery

RULE MGH19.12.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.12.3 CURRICULUM

The principles and practice of Trauma Surgery

i.	MTSA7900	Advanced Trauma Surgery 1	Year 1	120 credits
----	----------	---------------------------	--------	-------------

ii.	MTSB7900	Advanced Trauma Surgery 2	Year 2	120 credits
iii.	MTSD7900	Trauma Surgery Mini-dissertation	Year 3	60 credits

RULE MGH19.12.4 ASSESSMENT

The national subspecialty examination in Trauma Surgery of the College of Surgeons of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Trauma Surgery modules (240 credits).

MASTER OF PHILOSOPHY IN VASCULAR SURGERY MPHIL	STUDY CODE BC870020	300 CREDITS
--	--------------------------------	------------------------

RULE MGH19.13 RULES FOR THE MASTER OF PHILOSOPHY IN VASCULAR SURGERY

RULE MGH19.13.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Surgery

RULE MGH19.13.2 DURATION OF PROGRAMME

Two years full time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.13.3 CURRICULUM

The principles and practice of Vascular Surgery are dealt with.

i.	MVSA7900	Advanced Vascular Surgery 1	Year 1	120 credits
ii.	MVSB7900	Advanced Vascular Surgery 2	Year 2	120 credits
iii.	MVSD7900	Vascular Surgery Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.13.4 ASSESSMENT

The national subspecialty examination in Vascular Surgery of the College of Surgeons of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Vascular Surgery modules (240 credits).

MASTER OF PHILOSOPHY IN CRITICAL CARE MPHIL	STUDY CODE BC870012	300 CREDITS
---	--------------------------------	------------------------

RULE MGH19.14 RULES FOR THE MASTER OF PHILOSOPHY IN CRITICAL CARE

RULE MGH19.14.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Anaesthesiology, Internal Medicine, Neurosurgery, Emergency Medicine, Obstetrics and Gynaecology, Cardiothoracic Surgery, General Surgery with the HPCSA.

RULE MGH19.14.2 DURATION OF PROGRAMME

Two years full time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.14.3 CURRICULUM

The principles and practices of Critical Care are dealt with.

i.	MCCA7900	Advanced Critical Care 1	Year 1	120 credits
ii.	MCCB7900	Advanced Critical Care 2	Year 2	120 credits
iii.	MCCD7900	Critical Care Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.14.4 ASSESSMENT

The appropriate national subspecialty examinations in Critical Care of the Colleges of Anaesthetists, Cardiothoracic Surgeons, Emergency Medicine, Neurosurgeons, Obstetricians and Gynaecologists, Physicians, and Surgeons of South Africa (depending on the relevant base specialty) are the only acceptable exit examination and are recognised as being equivalent to the successful completion of the Advanced Critical Care modules (240 credits).

MASTER OF PHILOSOPHY IN NEONATOLOGY MPHIL	STUDY CODE BC870022	300 CREDITS
---	--------------------------------	------------------------

RULE MGH19.15 RULES FOR THE MASTER OF PHILOSOPHY IN NEONATOLOGY

RULE MGH19.15.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist Paediatrician.

RULE MGH19.15.2 DURATION OF PROGRAMME

Two years full-time in a training post and registered with the HPCSA and the UFS.

RULE MGH19.15.3 CURRICULUM

The principles and practices of Advanced Neonatology are dealt with.

i.	MPNA7900	Advanced Paediatric Neonatology 1	Year 1	120 credits
ii.	MPNB7900	Advanced Paediatric Neonatology 2	Year 2	120 credits
iii.	MPND7900	Paediatric Neonatology Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.16.4 ASSESSMENT

The national subspecialty examination in Neonatology of the College of Paediatricians of South Africa is the only acceptable exit examination and is recognised as being equivalent to the successful completion of the Advanced Paediatric Neonatology modules (240 credits).

MASTER OF PHILOSOPHY IN INFECTIOUS DISEASES MPHIL	STUDY CODE BC877900	300 CREDITS
---	--------------------------------	------------------------

RULE. MGH19.16 RULES FOR THE MASTER OF PHILOSOPHY IN INFECTIOUS DISEASES

RULE. MGH19.16.1 ADMISSION REQUIREMENTS

Registered with the HPCSA as a Specialist in Internal Medicine or Pathology (Microbiological)

RULE. MGH19.16.2 DURATION OF PROGRAMME

Two years full-time in a hospital post and registered with the HPCSA and the University of the Free State.

RULE. MGH19.16.3 CURRICULUM

The principles and practices of Clinical Infectious Diseases are dealt with.

i.	MIDA7900	Advanced Infectious Diseases 1	Year 1	120 credits
ii.	MIDB7900	Advanced Infectious Diseases 2	Year 2	120 credits
iii.	MIDD7900	Infectious Diseases Mini-dissertation	Year 1 and 2	60 credits

RULE MGH19.16.4 ASSESSMENT

The appropriate national subspecialty examinations in Infectious Diseases of the Colleges of Physicians and Pathologists of South Africa (depending on the relevant base speciality) are the only acceptable exit examination and are recognised as being equivalent to the successful completion of the Advanced Infectious Diseases modules (240 credits).

SCHOOL OF NURSING POSTGRADUATE DIPLOMAS PGDIP			120 CREDITS
■ PGDip (Health Services Management)			Study code: BC895004
■ PGDip (Midwifery)			Study code: BC859002
■ PGDip (Nursing Education)			Study code: C859003
■ PGDip (Occupational Health Nursing)			Study code: BC859001
■ PGDip (Primary Care Nursing)			Study code: BC859000

NPG 6 RULES FOR THE POSTGRADUATE DIPLOMAS

Students are subject to the UFS General Rules for First Qualifications, Postgraduate Diplomas, Honours Bachelor’s Degrees, Master’s Degrees, Doctoral Degrees, Higher Doctoral Degrees, Honorary Degrees and Convocation. Students must further adhere to the specific rules for Postgraduate Degrees and Diplomas of the Faculty of Health Sciences and the requirements of the School of Nursing.

RULE NPG 6.1 ADMISSION REQUIREMENTS

To be admitted to the postgraduate diplomas programme, the applicant must have:

- A Bachelor’s degree in Nursing (R174).
- A four-year comprehensive diploma in nursing (R425).
- A Diploma in Nursing: General Nurse (R171) with an Advanced Diploma in Midwifery (R1497).
- An Advanced University Diploma in Nursing (NQF Level 7).
- Proof of registration with SANC as a Professional Nurse or General Nurse and Midwife.
- A minimum of two years’ experience (inclusive of community service) post-registration by the South African Nursing Council as a Professional Nurse or General Nurse and Midwife.

The outcome of the application for Postgraduate Diplomas will be determined by the School of Nursing’s selection panel.

It is the responsibility of prospective international students to provide the following:

- i. SAQA proof of the NQF level equivalence of the international qualifications as well as evidence of registration with a professional body in the country of origin for the prerequisite qualification as stated for the applicable specialisation, and
- ii. evidence of current limited registration with the SANC before application and registration.

The Registrar, on the recommendation of the academic head of department or the dean, may grant a person exemption from or give credit for credits earned through formal learning in a prior qualification or in a partially completed qualification – whether obtained here or elsewhere – with a view to taking another qualification, provided that:

- i. No more than 50% of the credits may be transferred from the completed qualification(s) to another qualification, subject to the provision that:
 - a. at least 50% of the credits for the new qualification be earned at the UFS; and
 - b. a maximum of 50% of the credits accrued at the highest NQF level in the previously completed qualification(s) be acknowledged for another qualification.

DURATION OF THE PROGRAMME

The programme extends over one year and is offered full-time only.

RULE NPG 6.3

GENERAL

All modules must be taken as offered per semester and must be passed for the qualification to be conferred. No progression rules apply as this Postgraduate Diploma is a one-year programme.

A letter from the employer stating relevant experience per specialisation area in years, as well as permission to register for the programme and to complete the prescribed work-integrated learning (WIL) hours at a facility approved and accredited by SANC for the University of the Free State, is required.

It is preferred that students have one-year fulltime study leave. The minimum clinical hours required for the qualifications is in alignment with the SANC requirements.

RULE NPG 6.4

ASSESSMENT ATTENDANCE OF TEACHING OPPORTUNITIES

- Compulsory attendance of teaching opportunities in a module, as prescribed by the board of the faculty in which the specific module is offered and indicated in the module guide or its addendum, is one of the prerequisites for admission to the examination.
- An apology for non-attendance of teaching opportunities on account of unforeseen circumstances must be accompanied by supporting documentation and presented to the lecturer in question at the next available teaching opportunity of the module.

MODULE MARK

To gain admission to the examination, a module mark of at least 40% is required.

EXAMINATIONS AS SUMMATIVE ASSESSMENT

Module-specific assessment criteria apply as indicated in the study guides.

RULE NPG 6.4

ASSESSMENT

General Rule A27: Attendance of teaching opportunities

- Compulsory attendance of teaching opportunities in a module, as prescribed by the board of the faculty in which the specific module is offered and indicated in the module guide or its addendum, is one of the prerequisites for admission to the examination.
- An apology for non-attendance of teaching opportunities on account of unforeseen circumstances must be accompanied by supporting documentation and presented to the lecturer in question at the next available teaching opportunity of the module.

MODULE MARK

To gain admission to the examination, a module mark of at least 40% is required.

EXAMINATIONS AS SUMMATIVE ASSESSMENT

Module-specific assessment criteria apply as indicated in the study guides.

RULE NPG 6.5 PASS REQUIREMENTS, PASSING WITH DISTINCTION AND CONTINUOUS ASSESSMENT

- a. To pass a module, a student must obtain a final mark of at least 50%.
- b. A subminimum of 50% applies for summative objective structured clinical examination (OSCE) where applicable.
- c. The Postgraduate diploma is awarded with distinction if a final average of 75% for the modules taken is obtained and must have passed at the first opportunity the student was assessed. The programme must have been completed in the minimum time.
- d. A system of promotion does not apply for Postgraduate Diplomas.

MASTER OF NURSING MNUR DISSERTATION	STUDY CODE BC882000	180 CREDITS
--	------------------------	-------------

INTRODUCTION

The MNur can be obtained by a dissertation.

RULE VGH1.1 ADMISSION REQUIREMENTS (2026 UFS GENERAL RULES A20)

- a. Prospective students must consult the Programme Director before submission of an official application form before 30 September of every year to be admitted.
- b. Students are subject to selection.
- c. To be admitted to a Master's Degree, a person must have already obtained a Bachelor's Honours Degree, a 480-credit professional Bachelor's Degree or a relevant postgraduate diploma. It is the responsibility of the international students to provide SAQA proof of the NQF level equivalence of their qualifications as registered with SAQA.
- d. A weighted average of at least 60% (not rounded to the next integer) in the previous NQF Exit Level 8 qualification is required.
- e. Prospective students must have passed the Research Methodology in Nursing for the first time, or another research module as deemed appropriate by the Head of the School, with 60% not longer than five (5) years ago.
- f. Students must furnish proof of registration with the South African Nursing Council (SANC). International students must be registered with a recognised body in their country of origin.
- g. The number of master's students selected is subject to the availability and/or capacity of supervisors.
- h. Students might be required to write additional admission tests.

RULE VGH1.2 RECOGNITION OF PRIOR LEARNING

Recognition of prior learning must be done through the official channels of the UFS. Prior learning is recognised by means of

- portfolio/logbook presentations;
- tests; and/or
- examinations; or
- other relevant Methods as determined by the Head of the School.

RULE VGH1.3 DURATION OF PROGRAMME

The programme extends over at least two academic years.

RULE VGH1.4 LEARNING PROGRAMME (CURRICULUM)

The MNurs can be obtained on the basis of:

A dissertation on an approved subject that has been endorsed by the Faculty Board.

TABLE 1: LEARNING PROGRAMME FOR MASTER OF NURSING (DISSERTATION) (180 CREDITS)

MODULES	MODULE	CREDITS
Dissertation in Nursing	NVRT8900	180

DOCTOR OF PHILOSOPHY IN NURSING PHD	360 CREDITS
--	-------------

RULE VGH2 RULES FOR THE DEGREE OF DOCTOR OF PHILOSOPHY IN NURSING

- a. The UFS General Rules with respect to doctor's degrees apply mutatis mutandis to this qualification.
- b. For admission to registration for the PhD (Nursing) degree, a student must comply with the stipulations of the UFS General Rules and be in possession of the appropriate Master's degree from the department concerned or any other qualification deemed adequate by the Senate.
- c. Prospective students must have obtained a minimum of 65% in the appropriate Master's degree (NQF Level 9 qualification).
- d. It is the responsibility of international students to provide SAQA proof of the NQF level equivalence of their foreign qualifications as registered with SAQA.
- e. Students will be selected for this programme.
- f. Discipline abbreviation and module code: NVRT9100.
- g. The number of doctoral students selected is subject to the expertise and/or capacity of supervisors.

DIVISION OF HEALTH SCIENCE EDUCATION

GENERAL

Three sets of rules apply to all prospective and/or registered students, namely:

- i. UFS General Rules for Undergraduate Qualifications, Postgraduate Diplomas, Bachelor Honours Degrees, Master's Degrees, Doctoral Degrees, Higher Doctorates, Honorary Degrees, and the Convocation of the UFS (referred to as the General Rules of the UFS from here on) apply to all faculties and consequently to the qualifications and programmes of this Division as well. Unless otherwise specified, the General Rules regarding Doctoral Degree qualifications apply to the programmes outlined in this Rule Book.
- ii. Faculty Rules, specifically applicable to postgraduate programmes offered in this Division, as outlined in this Rule Book.
- iii. Programme Rules, specifically applicable to each postgraduate programme offered in the Division, as outlined in this Rule Book.

Students should, in addition to the rules stipulated above, also adhere to and follow the guidelines related to postgraduate studies in the Division Health Sciences Education, Faculty of Health Sciences.

APPLICATION, SELECTION AND ADMISSION

All prospective students in the Division Health Sciences Education postgraduate programmes in Health Professions Education are subject to selection. Online applications for the following year must be submitted before or on 31 August (Postgraduate Diploma, Master's and PhD programmes) and before or on 30 April (PhD programme). Only complete applications will be considered. Prospective students are encouraged to visit the UFS website at <http://www.ufs.ac.za/> for information on the online application process.

The number of postgraduate students selected is subject to the availability, capacity and/or areas of expertise of supervisors.

An applicant who is selected and admitted into a programme must register at the beginning of the next calendar year. If the student fails to register, he/she will need to reapply for the following year.

---	------------------------	----------------

RULE GB01 RULES FOR THE POSTGRADUATE DIPLOMA IN HEALTH PROFESSIONS EDUCATION

Students must comply with both the stipulations of the UFS General Rules for Postgraduate Degrees and Diplomas of the UFS and the rules of the Faculty of Health Sciences.

RULE GB01.1 ADMISSION REQUIREMENTS

- a. To be allowed to register for the PGDip (Health Professions Education), a student must be in possession of:
 - i. An appropriate Bachelor's degree or an appropriate Advanced Diploma in a health sciences profession; or
 - ii. an applicable three-year qualification plus a one-year qualification in a health sciences profession; or
 - iii. a relevant four-year qualification.
 - iv. The qualifications obtained must be on NQF level 7. It is the student's responsibility to provide SAQA approval of the NQF level equivalence of their foreign qualifications as registered with SAQA.
 - v. The student must have obtained an average mark of 65% or more for the previous qualification(s).
 - vi. A selection committee of the Faculty of Health Sciences will select students for the programme.

- b. An applicant who is selected and admitted into a programme must register at the beginning of the next calendar year. If the student fails to register, he/she will need to reapply for the following year.

A student must:

- i. work as a health professional, health sciences educator, or researcher,
- ii. if required by a professional body, be registered with the Health Professions Council of South Africa (HPCSA) or the South African Nursing Council (SANC) (for South African students), or be registered with an equivalent, accredited professional body in the country of origin and/or the country in which the research will be conducted, for international students.
- iii. have at least one year experience in health sciences education and training;
- iv. register as a full-time student in the Health Professions programme; OR
- v. admission must be recommended by the Head of the applicable school in the Faculty of Health Sciences of the UFS or the Head of the Division Health Sciences Education.

NOTE: Applicable prior learning and experience will be recognised when admission is sought according to the Recognition of Prior Learning Policy of the UFS. Credits gained in prior learning programmes may be recognised, depending on the contents of such programmes. It is the student's responsibility to apply for Recognition of Prior Learning (RPL). The decision of the Head of the Division Health Sciences Education and/or Dean of the Faculty of Health Sciences is final.

RULE GB01.2 DURATION OF DIPLOMA PROGRAMME

The programme extends over two years (120 credits).

RULE GB01.3 CURRICULUM COURSEWORK (120 CREDITS) CURRICULUM: YEAR ONE:

Three modules on compulsory themes:

- HPEI5805 Orientation to Health Professions Education and Training
- HPEA5805 Orientation to Health Professions Education and Training: Teaching, learning and assessment in the preclinical, clinical and internship years
- HPER5805 Introduction to Basic Research in Health Professions

Three modules on optional (elective) themes:

- HPEC5805 Orientation to Community Service Learning, Inter-disciplinary Education and Primary Health Care HPE5805 Orientation to the development of professional skills in the Health Professions
- HPEM5805 Basic principles of management in Health Professions Education and Health Care Institutions HPEQ5805 Introduction to quality assurance in Health Professions Education
- HPEP5805 Basic principles of programme development, design and assessment for Health Professions Education and Training
- HPEE 5805 Introduction to concepts of learning in Health Sciences

Progression requirement: Students are required to pass all first-year compulsory modules before progressing to year two.

RULE GB01.4 GENERAL

- i. The coursework commences at scheduled times as determined by the head of the programme. A module comprises scheduled contact time and directed self-study.
- ii. Students will be informed about the available modules for the second year at the end of year one.

RULE GB01.5 ASSESSMENT

- i. Competency will be proved by demonstration of stated outcomes to comply with standards set by the University and the Faculty. Students will be required to provide proof of competency through various means as stipulated in the module guides and HPE programme guides. This may include portfolios/logbooks, graded discussions, assignments, practical demonstrations, and reflective papers. Skills will be assessed in real settings (i.e., contextually relevant to health professions education).
- ii. Assessments in the programme will be based on an integrated and continuous assessment approach. This may include components of peer assessment.
- iii. A module credit system applies, and where applicable, the final summative assessment will comprise a written and/or oral assessment.
- iv. The final mark will comprise the average of the module mark and the final summative assessment mark (pass requirement 50% average).

RULE GB01.6 PROMOTION AND DISTINCTIONS

- i. According to the stipulations of the General Rules of the UFS, all required modules must be passed to obtain a qualification.
- ii. Refer to the General Rules of the UFS related to passing a Postgraduate Diploma or obtaining a Postgraduate Diploma with distinction.

RULE GBO 1.7 PLAGIARISM

Students in the Health Professions Education programme must comply with the UFS Policy on Preventing and Dealing with Academic Writing Misconduct as available on the UFS website.

MASTER OF HEALTH PROFESSIONS EDUCATION MHPROFEDU COURSEWORK MINI-DISSERTATION DISSERTATION	STUDY CODE BC870200	240 CREDITS
--	------------------------	----------------

RULE GBO2 RULES FOR THE DEGREE MASTER OF HEALTH PROFESSIONS EDUCATION

Students must comply with both the stipulations of the UFS General Rules for Master’s degrees and the rules of the Faculty of Health Sciences.

RULE GBO2.1 ADMISSION REQUIREMENTS

To be allowed to register for the Master of Health Professions Education degree, a student must be in possession of:

- i. An appropriate Bachelor’s Degree or an appropriate Advanced Diploma in a health sciences profession; OR
- ii. a three-year qualification plus one-year postgraduate education in a health sciences profession; OR
- iii. a relevant four-year qualification in a health sciences profession.
- iv. The qualifications obtained must be on NQF level 8. It is the student’s responsibility to provide SAQA approval of the NQF level equivalence of their foreign qualifications as registered with SAQA.
- v. The student must have obtained an average mark of 65% or more for the previous qualification(s).
- vi. A selection committee of the Faculty of Health Sciences will select students for the programme. The Division Health Sciences Education will do a pre-selection screening of the submitted preliminary application framework

A student must

- i. work as a health professional, health sciences educator, or researcher,
- ii. if required by a professional body, be registered with the Health Professions Council of South Africa (HPCSA) or the South African Nursing Council (SANC) (for South African students), or be registered with an equivalent, accredited professional body in the country of origin and/or the country in which the research will be conducted, for international students

- iii. have at least one year of experience in health sciences education and training,
- iv. must register as a full-time student in the Health Professions Education programme, OR
- v. admission must be recommended by the Head of the applicable School in the Faculty of Health Sciences of the UFS and the Head of the Division Health Sciences Education.

Applicable prior learning and experience will be recognised when admission is sought. Credits gained in prior learning programmes may be recognised, depending on the contents of such programmes. This will be done according to the Recognition of Prior Learning Policy of the UFS. The decision of the Head of the Division Health Sciences Education and Dean of the FHS is final.

RULE GB02.2 DURATION OF DEGREE PROGRAMME

The programme extends over two years (240 credits)

RULE GB02.3 CURRICULUM

Two options:

OPTION A:	STUDY CODE: BC870200 COURSEWORK PLUS A MINI-DISSERTATION (HPES7900)	(120 CREDITS) (120 CREDITS)
-----------	--	--------------------------------

YEAR ONE:	THREE MODULES ON COMPULSORY THEMES:
■ HPEI7905	Introduction to Health Professions Education and Training
■ HPEA7905	Health Professions Education and Training: Teaching, learning and assessment in the pre-clinical, clinical and internship years
■ HPER7905	Introduction to research in health professions
YEAR TWO:	THREE MODULES ON OPTIONAL (ELECTIVE) THEMES:
■ HPEC7905	Community Service Learning, Inter-disciplinary Education and Primary Health Care
■ HPES7905	The development of professional skills in the health professions
■ HPEM7905	Management in health professions education and health care institutions
■ HPEQ7905	Quality assurance in health professions education
■ HPEP7905	Programme development, design and assessment for health professions education and training
■ HPEE7905	Concepts of Learning in Health Sciences first-year compulsory modules before progressing to year two.

PROGRESSION REQUIREMENT:

Students are required to pass all first-year compulsory modules before progressing to year two.

COMPULSORY:

■ HPES7900	Mini-dissertation (120 credits)	Study code: BC870200
------------	---------------------------------	----------------------

Students in the structured Master’s Degree must register for HPES7900 (Mini-dissertations) only in their second year of study.

OPTION B:	STUDY CODE: BC883700 DISSERTATION (HPED8900)	(240 CREDITS)
-----------	--	---------------

RULE GB02.4 GENERAL: OPTION A

- i. The coursework commences at scheduled times as determined by the Head of the programme. A module comprises scheduled contact time and directed self-study.
- ii. Students will be informed about the available modules for the second year at the end of year one.

RULE GB02.4 PROGRESSION RULES: OPTION B

- i. To register for the second year of study, a research proposal must have been approved by the Faculty of Health Sciences' appointed evaluation committee.
- ii. To register for the third year of study, final ethical approval for the research study must have been obtained.
- iii. To register for the fourth year of study, data collection must be in progress and/or have been completed.
- iv. Abeyance conditions are applied with the implementation of the progression rules.

RULE GB02.5

The UFS General Rules and Faculty of Health Sciences Rules regarding assessment apply.

RULE GB02.5.1 ASSESSMENT: OPTION A (COURSEWORK MODULES)

- i. Competency will be proved by the demonstration of stated outcomes to comply with standards set by the university and the faculty. Students will be required to provide proof of competency through various means as stipulated in the module guides and HPE programme guide. These may include portfolios/logbooks, discussions, assignments, practical demonstrations, and reflective papers. Skills will be assessed in real settings (i.e., contextually relevant to health professions education).
- ii. Assessments in the programme will be based on an integrated and continuous assessment approach. This may include components of peer assessment.
- iii. A module credit system applies, and where applicable, the final summative assessment will comprise a written and/or oral assessment as well as a mini-dissertation as required for the Master's degree structured programme.
- iv. The final mark will comprise the average of the module mark and the final summative assessment mark (pass requirement is 50% average).

RULE GB02.5.2 MINI-DISSERTATION: OPTION A

- i. The mini-dissertation will be assessed in accordance with the UFS General Rules regarding assessment of dissertations or publishable manuscripts/published articles.
- ii. A Division Health Sciences Education Evaluation Committee will assess the mini-dissertation protocol. The title of the mini-dissertation will be submitted to the Faculty Board only on the recommendation of the Committee.
- iii. The HSREC of the Faculty of Health Sciences must approve the study.
- iv. On completion of the research or at a time fixed by the study leader, the student must submit the research results in the form of a mini-dissertation.

RULE GB02.5.3 ASSESSMENT: OPTION B

- i. The dissertation will be assessed in accordance with the UFS General Rules.
- ii. A Faculty Evaluation Committee will assess the project protocol. The title of the dissertation will be submitted to the Faculty Board only on the recommendation of the Committee.
- iii. The HSREC of the Faculty of Health Sciences must approve the study.
- iv. On completion of the research or at a time fixed by the study leader, the student must submit the research results in the form of a dissertation.

RULE GB02.6 PROMOTION AND DISTINCTIONS

The requirements for awarding a Master's degree with distinction, according to the 2026 UFS General Rules, will apply.

RULE GB02.7 EXIT POINT

Students may not exit the programme with a Postgraduate Diploma in Health Professions Education (Study code 8202 or BC850200) as of 1 January 2009, according to the Higher Education Qualifications Framework (2007).

RULE GBO 2.8 PLAGIARISM

Students in the Health Professions Education programme must comply with the UFS Policy on Preventing and Dealing with Academic Writing Misconduct as available on the UFS website.

DOCTOR OF PHILOSOPHY IN HEALTH PROFESSIONS EDUCATION	 PHD	STUDY CODE BC895100	360 CREDITS
---	---------------	--------------------------------	------------------------

The UFS General Rules for Doctoral Degrees apply mutatis mutandis. To be admitted to the programme, students must be in possession of:

- i. A Master's Degree in Health Professions Education; OR
- ii. a Master's Degree in any health sciences discipline, OR an equivalent qualification/level on the National Qualifications Framework (NQF Level 9), plus an educational qualification relevant to the health sciences education; OR
- iii. a Master's and/or doctoral degree and/or equivalent qualification in a scientific field applicable to the HPE discipline.
- iv. Obtained an average mark of 65% for the Master's Degree (i.e., NQF level 9 qualification).
 - a. In a case where an average mark of 65% or more for the Master's Degree was not obtained, proof of additional research-based learning and/or activity might be considered, e.g., publication in peer-reviewed journals.
- v. A selection committee of the Faculty of Health Sciences will select students for the programme. The Division Health Sciences Education will do a pre-selection screening of the submitted preliminary application framework.
- vi. The time period since completion of the Master's studies will be considered.

A student must

- i. work as a health professional, health sciences educator, or researcher,
- ii. if required by a professional body, be registered with the Health Professions Council of South Africa (HPCSA) or the South African Nursing Council (SANC) (for South African students), or be registered with an equivalent, accredited professional body in the country of origin and/or the country in which the research will be conducted, for international students
- iii. work in a healthcare or health sciences education institution, OR as a health care/health education official, AND have at least one year of experience in health sciences education and training.

Prior learning and experience will be assessed according to the Recognition of Prior Learning Policy of the UFS if Rule GBO

3.1(d) is applicable, with proof of 20 credits (200 notional hours) obtained in credit-bearing short modules and/or scientific contributions in the field of education. The decision of the head of the Division Health Sciences and/or Dean of the FHS is final.

A student in possession of a doctorate plus an educational qualification related to health sciences education will be admitted directly if selected.

Applications for selection must be received before the 31st of August in the year prior to studies to be undertaken (selection for first semester) or the 30th of April in the year when studies will be undertaken (selection for second semester).

RULE GBO 3.2 DURATION OF STUDY

- i. Students are reminded about the UFS General Rules of the Faculty of Health Sciences related to the maximum duration within the programme.
- ii. The doctoral degree programme in the Division Health Sciences Education extends over a minimum period of two years.

RULE GBO3.3 PROGRESSION RULES

- i. To register for the third year of study, a research proposal must have been approved by the Faculty of Health Sciences appointed evaluation committee.
- ii. To register for the fourth year of study, final ethical approval for the research study must have been obtained.
- iii. To register for the fifth year of study, data collection must be in progress and/or have been completed.
- iv. Abeyance conditions are applied with the implementation of the progression rules.

RULE GBO3.4 THESIS - HPET9100

- i. A Faculty Evaluation Committee will assess the project protocol. The title of the thesis will be submitted to the Faculty Board only on the recommendation of the Committee.
- ii. The HSREC of the Faculty of Health Sciences must approve the study.
- iii. On completion of the research or at a time fixed by the supervisor, the student must submit the research results in the form of a thesis.

RULE GBO 3.5: PASS REQUIREMENTS

Refer to the General Rules of the UFS related to passing a Doctoral Degree.

RULE GBO 3.6 PLAGIARISM

Students in the Health Professions Education programme must comply with the UFS Policy on Preventing and Dealing with Academic Writing Misconduct, which is available on the UFS website.

DIVISION OF PUBLIC HEALTH

MASTER OF PUBLIC HEALTH MPL	STUDY CODE BC877900	180 CREDITS
--------------------------------	------------------------	----------------

MPH 8 RULES FOR THE DEGREE MASTER OF PUBLIC HEALTH

Students are subject to the General Rules for First Qualifications, Postgraduate Diplomas, Bachelor Honours Degrees, Master’s Degrees, Doctoral Degrees, Higher Doctorates, Honorary Degrees and Convocation, as well as discipline-specific requirements determined by the Faculty of Health Sciences.

RULE MPH 8.1 ADMISSION REQUIREMENTS

To be allowed to register for the Master of Public Health degree, a student must be in possession of:

- a. A relevant Bachelor of Honours degree in a health sciences disciplines/social sciences qualification, or a relevant four-year Bachelor’s qualification at NQF level 8 in a health sciences discipline.
- b. An appropriate Postgraduate Diploma at NQF level 8.

A selection committee of the Faculty of Health Sciences will select students for the programme.

A student must work as a health professional, public health practitioner, social scientist, social worker, health sciences educator, researcher, public health administrator, OR

have at least one year work experience in health sciences environment, OR

admission must be recommended by the Head of the applicable School in the Faculty of Health Sciences of the UFS, or the Head of the Division Public Health, OR

Obtained an average mark of 60% for the undergraduate bachelor’s degree (i.e., NQF level 8 qualification).

In a case where an average mark of 60% for the undergraduate bachelor’s degree was not obtained, proof of additional research-based learning and/or activity might be considered.

Applicable prior learning and experience will be recognised when admission is sought. Credits gained in prior learning programmes may be recognised, depending on the contents of such programmes. This will be done according to the Recognition of Prior Learning Policy of the UFS. The decision of the Head of the Division Public Health and Dean of the FHS is final.

Students are reminded about the UFS General Rules and Rules of the FHS related to the maximum duration within the programme.

DURATION OF THE PROGRAMME

The programme extends over a two-year full-time study and a three-year part-time study (180 credits).

RULE MPH 8.2 CURRICULUM

The curriculum is comprised compulsory modules.

COMPULSORY MODULES:

Master of Public Health

MODULE CODE	MODULE TITLE (FIELDS OF SPECIALISATION)	NQF LEVEL	CREDITS
PBHL8900	Public Health Dissertation	9	180
Total credits:			180

RULE MPH 8.3 GENERAL

The MPH is a research-based qualification and consists of one compulsory module; therefore, the rules of progression do not apply. Students need to complete the module to be awarded the degree successfully.

Successful completion of the Master of Public Health (MPH) enables both horizontal and vertical articulation with cognate qualifications. In meeting the requirements, candidates may progress vertically to doctoral (PhD in Public Health) or applicable NQF Exit Level 10 qualifications in cognate study areas. In addition, successful students master several field-specific and generic competences serving as an important interface for integration with diverse programmes and disciplines within the health sciences environment, thus providing for meaningful horizontal articulation to cognate Master's Degrees or applicable health sciences qualifications (NQF Level 9). A qualification may not be awarded for early exit from a Master's Degree.

RULE MPH 8.4 ASSESSMENT

The Master of Public Health (MPH) comprises a dissertation, and therefore, formative assessment is not applicable. The summative assessment entails writing a dissertation. It contains a justifiable argument that is based on research and counts 100% of the achievement mark.

The title of the dissertation will be submitted to the Faculty Board only upon recommendation from the Faculty Management. The HSREC of the Faculty of Health Sciences must approve the study. Upon completion of the dissertation and on recommendation of the supervisor(s), the dissertation will be examined by two external assessors and one internal assessor, ensuring quality and providing a level of national and/or international benchmarking.

RULE MPH 8.5 DISTINCTION

The Master's Degree is awarded with distinction if the student obtains a weighted average of at least 75%.

DOCTOR OF PHILOSOPHY IN PUBLIC HEALTH || PHD

380 CREDITS

DPH 9 RULES FOR THE DEGREE DOCTOR OF PHILOSOPHY IN PUBLIC HEALTH

Students are subject to the General Rules for First Qualifications, Postgraduate Diplomas, Bachelor Honours Degrees, Master's Degrees, Doctoral Degrees, Higher Doctorates, Honorary Degrees and Convocation, as well as discipline-specific requirements determined by the Faculty of Health Sciences.

RULE DPH 9.1 ADMISSION REQUIREMENTS

To be allowed to register for the Doctoral degree in Public Health, a student must be in possession of:

- a. A Master of Public Health degree, or
- b. A Master's degree in any health sciences discipline, social sciences, or an equivalent qualification at NQF exit Level 9, or
- c. A Master's and/or doctoral degree and/or equivalent qualification in a scientific field which is applicable to the doctoral discipline.
- d. A selection committee of the Faculty of Health Sciences will select students for the programme.

A student must

- i. work as a health professional, public health practitioner, social scientist, social worker, health sciences educator, researcher, public health administrator, OR
- ii. have at least one year work experience in a health sciences environment, OR
- iii. admission must be recommended by the Head of the applicable School in the Faculty of Health Sciences of the UFS, or the Head of the Division Public Health, OR
- iv. Obtained an average mark of 65% for the Master's Degree (i.e., NQF level 9 qualification).

- v. In a case where an average mark of 65% for the Master's Degree was not obtained, proof of additional research-based learning and/or activity might be considered.

Applicable prior learning and experience will be recognised when admission is sought. Credits gained in prior learning programmes may be recognised, depending on the contents of such programmes. This will be done according to the Recognition of Prior Learning Policy of the UFS. The decision of the Head of the Division of Public Health and Dean of the FHS is final.

Students are reminded about the UFS General Rules and Rules of the FHS related to the maximum duration within the programme.

DURATION OF THE PROGRAMME

The programme extends over a two-year full-time study and a four-year part-time study (360 credits).

RULE DPH 9.2 CURRICULUM

The curriculum is comprised of compulsory modules.

COMPULSORY MODULE

Doctor of Philosophy in Public Health

MODULE CODE	MODULE TITLE (FIELDS OF SPECIALISATION)	NQF LEVEL	CREDITS
PBHL9100	Public Health Thesis	10	360
Total credits:			360

RULE DPH 8.3 GENERAL

The Doctor of Philosophy in Public Health is a research-based qualification and consists of one compulsory module; therefore, the rules of progression do not apply. Students need to complete the module to be awarded the degree successfully.

Successful completion of the Doctor of Philosophy in Public Health (PhD Public Health) enables horizontal articulation with cognate qualifications. Upon successful completion of the PhD Public Health programme, students may progress horizontally by registering for another applicable doctoral degree program offered by the UFS or another Higher Education institution. A qualification may not be awarded for early exit from a Doctoral Degree.

RULE DPH 8.4 ASSESSMENT

The Doctor of Philosophy in Public Health comprises a thesis, and therefore, formative assessment is not applicable. The summative assessment entails writing a thesis. It contains a justifiable argument that is based on research and counts 100% of the achievement mark.

The title of the thesis will be submitted to the Faculty Board only upon recommendation from the Faculty Management.

The HSREC of the Faculty of Health Sciences must approve the study. On completion of the thesis and on recommendation of the supervisor(s) / promoter(s), the thesis will be examined by three assessors (of which one needs to be an international assessor) and one an internal assessor. This will ensure quality and provide a level of national and/or international benchmarking. The thesis will have to satisfy national and international norms of the highest level, as assessed by authorities in the field of Public Health, training and research and/or related fields.
