

## **Accommodation arrangements for students who have qualified for renewal of placement First Semester 2021**

Kindly note the following important information:

- Return to campus is determined by the blended teaching and learning arrangements of faculties.
- If your faculty have identified you to return to campus for face-to-face teaching you need to keep the following in mind, prior to starting your journey back to campus:
  - You must have completed the registration process (8-26 February 2021) successfully – only registered students will be welcomed onto campus and in residences;
  - Your faculty must have issued you with a valid Access Permit, confirming a date of arrival;
  - You must have received written confirmation from Housing and Residence Affairs (HRA) that you may return for residence accommodation.

Due to the requirements for face-to-face teaching, certain faculties have decided to invite students to campus for short periods only, also referred to as block sessions (mostly 1-3 weeks), in some instances for 1-3 months. Certain students will be invited back to campus for the full first semester.

For this reason the University will implement a blended model accommodation approach, as from 1 March 2021. This model entails the following:

- **Short stay accommodation:** available to students who have been invited to campus for short periods, i.e, block and contact sessions.
- **Semester accommodation:** available to students who have been identified to return to campus for the full first semester.

### **Short stay accommodation (Available from 1 March 2021)**

Students who have been identified to come to campus for short periods may apply for accommodation in identified residences on each campus.

- Full details with regards to short stay accommodation, including the application process, cost and terms and conditions, etc. are available on the website. Please [click](#) here.
- Short stay accommodation is open to any student (residence and non-residence) as long as you are registered and have received a valid Access Permit.

### **Semester accommodation (Only available to students who have qualified for renewal of placement for 2021)**

Students who have been identified to return to campus for the duration of the first semester will be able to make use of accommodation in their respective residences.

- Semester accommodation implies that you are responsible for the normal accommodation fee for the first semester;
- A six month accommodation(template) contract as well as an undertaking will be signed prior to a students' return to campus;

- The accommodation fees will be charged to your student account;
- Residences will open over the weekend of 26-28 February 2021.
