

Calling for Stories of Transformation and Experiences of Challenges with Transformation in Residences at UFS.

Do you have a story that illustrates transformation in your res? Something happened and it changed your relationship with others across racial lines? Or a story that reveals the challenges you have experienced in this process? If so, we would like to hear from students and staff members from residences across campus.

This research project falls under Trauma, Forgiveness & Reconciliation Studies at UFS [<http://traumareconcil.ufs.ac.za/>]. There will be a small gratuity for your time.

To share your story, please contact Dr Reville Nussey at rnussey@gmail.com. **Your anonymity will be protected.**
