Nompumelelo Shezi

Student success means that students are doing well in their studies, learning new things, and graduating. It includes students' overall well-being, personal growth, and development of skills that will guarantee their employability.

Ntshediseng Leraisa

Success is the ability to persevere through failure, not the absence of failure.

Sihle Maxegwana

One thing we tend to forget about success is that failure is only a hiccup towards the end goal. Failure is a part of success. It's an opportunity to begin again, a second chance to make better decisions and more intelligently.
