1. Introduction

- This Application and Funding Guide is a supplemental document to the Funding Opportunity Framework providing comprehensive, step-by-step visual instructions (including screenshots) for accurately completing each section of the application template. This guide ensures consistent and compliant application submissions by clarifying requirements, mitigating common errors, and streamlining the applicant's process.

- The guide should be read in conjunction with the **DSI-NRF Postgraduate Student Application and Funding Framework for Funding in 2026 Academic Year.** The framework document provides detailed information with respect to objectives of the funding opportunity, eligibility criteria, etc. This document does not, however, constitute a complete set of policies, procedures or systems used by the NRF.

- All Call Documents for the honours scholarship applications can be accessed via the NRF website:https://www.nrf.ac.za/funding/nrf-call-for-proposals-for-funding-in-2025-and-2026/

2. Application Process

- The call for honours scholarships for full-time studies in 2026 is published on the NRF website.

- The application form is accessible online at https://nrfconnect.nrf.ac.za

- Applicants may only submit ONE application.

- Once the applicant submits an application, the application is routed to the proposed institution for screening on eligibility, scoring process and recommendation for scholarship. Applications that meet the scholarship requirements are then submitted to the NRF by the proposed institution for further review and approval.

- The closing date for applicants to submit applications to their proposed institution is **21 November 2025.**

- Applicants who wish to undergo the ISFAP assessment, must ensure that their application is submitted to the proposed institution before the end of August 2025, as the proposed institution must screen and submit these applications to the NRF by **02 September 2025**.

- **Applicants who don't have final year examination results at the time of application, can submit their applications without the marks. However, as soon as the exam results are made available by the university, the applicant must ensure that they send the marks to the Postgraduate Office of their proposed institution for capturing of the marks in the application.**

- All applications are processed by an NRF Designated Authority (DA) who is based at the University Research/Postgraduate office. **Should a DA contact you regarding your application, before your application is submitted to the NRF, please make sure you respond as soon as**

possible or within the timeline given in the communication. Failure to do so may result in the application being rejected at the institutional-screening stage.

- The honours applications awarded a scholarship must claim the award by **31 March 2026.**
