

Research proposal writing

This course will guide participants through each essential element of composing a research proposal, including understanding the research process, reading academic texts, writing the introduction and the literature review, formulating the rationale of the study and participant problem statement and research questions, identifying the aim and objective(s) of the study, and selecting an appropriate research design and methodological approach.

Units

- Introduction paragraph.
- Research problem/problem statement.
- How to formulate research questions, aims, objectives and hypotheses.
- Research design and methodology.
