The Innovative Health Initiative (IHI) has launched [IHI – Call 11](#), offering a significant funding opportunity for collaborative health research projects.

With a total budget of €120 million – including contributions from the EU's Horizon Europe programme (€57 million), IHI industry members (€48 million), and IHI contributing partners (€15 million) – this two-stage call supports cutting-edge research to improve patient outcomes across Europe.

Topics for IHI – CALL 11

- Topic 1: Towards precision medicine: platform for transdiagnostic stratification of brain dysfunction
- Topic 2: Understanding how infections foster and induce non-communicable diseases
- Topic 3: AI-powered signal detection in pharmacovigilance
- Topic 4: Leveraging Europe's expertise to accelerate cell therapy for type 1 diabetes
- Topic 5: Establishing ortho and cardiology ambulatory surgical centres in Europe

This call is an excellent opportunity for scientists and professionals from academia, industry (including SMEs and mid-sized companies), hospitals, and patient organisations to collaborate on transformative health solutions.
