

Wellcome Trust: Climate Impacts Award: making health effects of climate change visible

Climate Impacts Awards: Unlocking urgent climate action by making the health effects of climate change visible

The aim of this scheme is to make the impacts of climate change on physical and mental health visible to drive urgent climate policy action at scale. We will fund transdisciplinary teams to deliver short-term, high-impact projects that can drive policy impact by combining evidence generation (or synthesis) with influencing and engagement strategies. The *attached document provides detailed information on this call.*
