Women at shelter treated to makeover

THE Faculty of Health Sciences personnel, as part of the UFS Mandela Day drive, committed themselves to capturing the hearts of the less privileged at the Bloem Shelter. The Bloem Shelter women were in for a real treat. Not only were they given a make-over, including the cutting, colouring and styling of their hair, they were also models at a fashion pa-

rade at the Centenary Hall on campus, displaying some of the hottest fashion from local designers and private fashion houses in Bloemfontein. The show wasn't just about looking good. Mandela Day was celebrated by taking action and inspiring change. The fashion parade showcased avant-garde fashion, day, evening and bridal wear.
