We create a space where everyone feels a sense of belonging.

Our teaching and social environments are secure and confined to one campus space.

We are forward-thinking, taking on the challenges of the future now.

We actively embrace a culture of care and kindness.

We celebrate diversity.

We are thought leaders.

“Operating on the cutting edge of teaching and learning through simulation-based training, the Faculty of Health Sciences brings together training, virtual health learning, and state-of-the-art technology as a world leader in research, medical procedures, and practices.”
In the Faculty of Health Sciences, we believe that we are creating an extraordinary magic through creativity and innovation to open up an array of possible career choices. As a centre of excellence, the Faculty of Health Sciences is fully committed to broaden the development process of students through teaching, research, and community service. Community-based education plays an important role, and the faculty is actively involved in community health service at both national and international level.

WELCOME TO THE FACULTY OF HEALTH SCIENCES

DEAN: PROF GJ VAN ZYL
APPLICATION AND ADMISSION TO STUDY AT THE UFS

Remember to write the NBTs before 1 July 2019.

HOW DO YOU APPLY?

ONLINE APPLICATION: Go to www.ufs.ac.za. Follow the link https://apply.ufs.ac.za/ - online application. Proceed through all eight easy steps and submit your application form.

Upload copies of the following in PDF or JPEG format when you apply for undergraduate studies:
- Your ID or passport
- Your parent’s ID or passport if you are younger than 18 years
- Your Grade 11 final results with the school’s stamp
- Your Grade 12 June results with the school’s stamp must be emailed to studentadmin@ufs.ac.za and fhsapplications@ufs.ac.za as soon as they are available
- Your academic record, only if you are a current student at another institution of higher learning
- USAf accreditation where the examination body is not in South Africa. Apply to mb.usaf.ac.za for conditional exemption

The online application is quick and easy – no hassle, no fuss! It has a modern design and is mobile and tablet-friendly. You can apply using any device. You can expect a quicker response time if you apply online.

HARD COPY APPLICATION: Go to www.ufs.ac.za. Follow the link ‘how to apply’ and download the application. Complete and sign the application, and mail it with all the relevant certified documentation to The Application Office, PO Box 339, Bloemfontein 9300.

Remember to include copies of:
- Your ID or passport
- Your parent’s ID or passport if you are younger than 18 years
- Your Grade 11 final results with the school’s stamp
- Your Grade 12 June results, with the school’s stamp, must be emailed to studentadmin@ufs.ac.za and fhsapplications@ufs.ac.za as soon as they are available
- Your academic record, only if you are a current student at another institution of higher learning
- USAf accreditation where the examination body is not in South Africa. Apply to mb.usaf.ac.za for conditional exemption
- Selection form

For assistance, contact +27 51 401 9666 or studenteadmin@ufs.ac.za
IMPORTANCE DATES
PROGRAMMES FOR WHICH APPLICATIONS OPEN
1 April 2019 - Applications to study any undergraduate programme in 2019 offered on the Bloemfontein and Qwaqwa Campuses

PROGRAMMES FOR WHICH APPLICATIONS CLOSE
31 May 2019 - All applications for selection in:
• Bachelor of Medicine and Bachelor of Surgery degree (MBChB)
• Bachelor of Medical Sciences (BMedSc) with specialisation in Radiation Sciences
• All new first-year undergraduate applications in the School for Allied Health Professions
31 July 2019 - All applications for selection in Bachelor of Social Sciences in Nursing (B (Nursing))

CONFIDENTIALITY CLAUSE
The UFS confirms that all personal information provided in your application form will be treated confidentially and will not be sold to a third party or used for commercial or related purposes. The UFS further confirms that your personal information will only be used for purposes relating to your potential relationship with the UFS as a student, including, but not limited to the processing of your application to study at the UFS, effecting registration at the UFS, and for any communication purposes related to your application and/or registration to study at the UFS.

ADMISSION
Academic excellence is what the UFS is about – the higher your AP score, the better your chances of being chosen and finally admitted to study. Meeting the minimum admission requirements for your chosen/intended programme of study, does not guarantee selection and admission as all programmes have a limited number of spaces available. Applicants with the highest AP scores are chosen first and the admission continues until all spaces have been filled. If you do not meet the minimum admission requirements for your intended/ chosen programme of study, you will not be selected. Consult the Faculty-specific admission requirements for all the programmes you qualify for and apply for the two programmes that best fit your personality, purpose and passion.

Pay attention to the following important information:
• The UFS reserves the right to change the minimum requirements of each programme or any other information without notifying you.
• There are specific admission requirements that you should meet if you want to study at any South African university. If you finished school in or after 2008, and have a National Senior Certificate (NSC), you need the following to apply for admission to a Bachelor’s degree at any South African university:
- Four (4) of the seven (7) subjects included in your NSC subject package should be from the school subject list
- A performance level of at least 4 (50%) in each of these four (4) subjects

- All admission requirements apply to first-year students in 2019.
- Admission to study at the UFS is dependent on the following:
  - Your application should meet all the minimum requirements for the programme
  - The programme must have available space and capacity to admit students
  - You have to submit valid school results with your application

An admission point (AP) consisting of seven levels is used. Points will be awarded for six academic modules.

**Note: No points will be awarded for achievement levels lower than 30%:**

<table>
<thead>
<tr>
<th>%</th>
<th>AP</th>
</tr>
</thead>
<tbody>
<tr>
<td>7 (90–100%)</td>
<td>8</td>
</tr>
<tr>
<td>7 (80–89%)</td>

</tbody>
</table>

One point is awarded for Life Orientation (LO) from achievement level 5 (60%) or higher.

**DISCLAIMER – IMPORTANT NOTICE**

Kindly take note that this faculty programme booklet is aimed at prospective undergraduate students wishing to apply for a place at the University of the Free State (“UFS”) and whom wish to start their studies at the UFS during the 2020 academic year. The faculty programme booklet accordingly describes and outlines the programmes and services offered by the UFS, as well as the minimum admission requirements for each programme, but must be read with the policies, rules and regulations of the UFS (as may be amended from time to time). In order to be considered for selection for a programme, an applicant is required to comply with the programme’s minimum admission criteria in respect of the total AP score, subject specific requirements (as determined per programme), and faculty/department’s specific requirements. However, due to limited space, fulfilling all the minimum entry (admission) requirements does not guarantee acceptance to study at the UFS, or entrance into any particular programme offered by the UFS. The UFS makes every effort to ensure that the information provided in this faculty programme booklet is accurate and up-to-date at the time of going to press. However, it may be necessary for the UFS to make some changes to the information presented in the faculty programme booklet following publication – for example, where it is necessary to reflect changes in policy, practice or theory, or if an accrediting body necessitates requirements to be amended. Furthermore, certain programmes may only be offered if there is a sufficient number of applicants. The UFS undertakes to take all reasonable steps to provide the services (including, but not limited to, presentation of the programmes) described in the faculty programme booklet. It does not, however guarantee the provision of such services or the presentation of any or all programmes described herein. Should circumstances beyond the control of the UFS interfere with its ability to provide the services or presentation of any programme described herein, the UFS undertakes to use all reasonable steps to minimise any disruption to the services. Furthermore, the UFS reserves its right to make amendments to admission requirements if and when necessary. It reserves the right to withdraw, wholly or in part, the delivery of programmes. Applicants for, and students in programmes affected, will be informed in advance of the commencement of their studies for the academic year concerned.
The faculty offers undergraduate and postgraduate programmes in five schools of academic and teaching excellence on the Bloemfontein Campus:

- School of Clinical Medicine
- School of Biomedical Sciences
- School of Pathology
- School of Allied Health Professions
- School of Nursing

SCHOOL OF CLINICAL MEDICINE, SCHOOL OF PATHOLOGY, SCHOOL OF BIOMEDICAL SCIENCES

Selection procedure

- All applications for admission to MBChB and BMedSc (Radiation Sciences) are subject to selection.
- Due to the limited number of available spaces, only 180 candidates are admitted to the first year of study in the MBChB programme, and 15 in the BMedSc (Radiation Sciences) programme.
- All prospective students must submit their applications to the University of the Free State, together with the selection form.
- The closing date for all MBChB and BMedSc (Radiation Sciences) applications to reach the Faculty of Health Sciences is 31 May 2019.
- No late applications will be considered.
- All prospective students for the above programmes must write a National Benchmark Test (NBT). The results of this compulsory admission test will be used as an additional guideline to the selection process. Remember to write the NBTs before 1 July 2019. More information regarding this test may be obtained from www.nbt.ac.za or 021 650 3523.

Selection method

- Preliminary selection, of which the school average and NBT comprise the largest part, will take place as set out in the selection policy.
- Mathematics, Physical Sciences, Life Sciences, language of instruction, and any other two subjects with the highest marks are taken into consideration for MBChB. Life Orientation as a subject is excluded, as it is considered separately.
- Mathematics, Physical Sciences, Life Sciences (recommended only, not a prerequisite), language of instruction, and any other two subjects with the highest marks will be taken into consideration for BMedSc (Radiation Sciences). Life Orientation is excluded, as it is considered separately.
- English or Afrikaans as subject is compulsory.
• A minimum achievement level 5 (60%) is required for each of the three compulsory science subjects (i.e. Mathematics, Physical Sciences, and Life Sciences) to calculate the selection mark.
• A minimum admission point (AP) of 36 is required. This is calculated based on achievement in the above six subjects, together with one mark for Life Orientation above achievement level 5.
• Extramural activities and achievements in Grade 12 are also considered.
• Final selection is confirmed in January 2020, after the National Senior Certificate (NSC) and IEB results have been released.
• If you apply in hard copy, the application form, medical report, health questionnaire, principal’s signature form, results, and certified copies of ID must reach the university simultaneously. If you apply online, the medical report, principal’s signature form, results, and certified copies of ID must be uploaded electronically.
• Only two choices of study are available within the Faculty of Health Sciences.

THE FOLLOWING PROGRAMMES ARE PRESENTED ONLY ON THE BLOEMFONTEIN CAMPUS:

Enquiries: Lydia du Toit: +27 51 401 3739 | 7513 | 7517 | fhsapplications@ufs.ac.za
Fax2email: +27 86 579 5154 or +27 86 652 4872.

SCHOOL FOR ALLIED HEALTH PROFESSIONS

Selection procedure

• All applications for admission to BOptom, BSc (Physiotherapy), BSc (Dietetics), BOccTher, and BBiok are subject to selection.
• Due to the limited availability of places, only a limited number of applicants are admitted to the first study year annually.
• Prospective students must submit application forms for admission to the university, together with a fully completed selection form.
• Students who apply for selection towards a Bachelor of Occupational Therapy must provide proof of having visited an occupational therapy practice.
• The closing date for selection forms to reach the Faculty of Health Sciences is 31 May 2019.
• No late applications will be considered.
• If you apply in hard copy, the application form, medical report, health questionnaire, principal’s signature form, results, and certified copies of ID must reach the university simultaneously. If you apply online, the medical report, principal’s signature form, results, and certified copies of ID must be uploaded electronically.
• Applicants may indicate two choices of study within the Faculty of Health Sciences.
• All prospective students must write the National Benchmark Tests (NBT). The results of this compulsory admission test will be used during the selection process. Remember to write the NBTs before 1 July 2019. Enquiries in this regard may be directed to www.nbt.ac.za or 021 650 3523.

Selection method

• Preliminary selection is set out in the selection policy.
• A minimum achievement level is required for each of the compulsory science subjects to calculate the science mark (each programme’s requirements as indicated). This information must be indicated clearly on the application form.
• A minimum admission point per programme is required. The admission point is calculated based on achievement in six school subjects plus one mark for Life Orientation above 60% (achievement level 5). This information must be clearly indicated on the application form.
• Extramural activities and achievements in Grade 12 are also considered.
• English or Afrikaans is compulsory.
• Final selection is confirmed in January, after the National Senior Certificate (NSC) and IEB results have been obtained.

Proof of a visit to an occupational therapy practice must accompany the application form for studies in the Bachelor of Occupational Therapy.

Notes:
- *Life Sciences and/or Physical Sciences are required.
- Closing date for applications to study any programme in the School for Allied Health Professions is 31 May 2019.
- If you are a senior applicant (already studying at a tertiary institution, or a graduate), please note that there are important additional requirements that you have to meet. It is important to contact the faculty for more information.

**FIRST-YEAR MODULES/SUBJECTS**

**BOptom Enquiries:** +27 51 405 2684 | +27 401 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 652 4872.

- Optometry is a medically-related field of vision science that primarily deals with the detection and correction of visual and eye health problems.
- Optometrists are health professionals who examine patients’ eyes with the help of various testing methods and instruments to determine various aspects of a patient’s sight. Sight problems are addressed by prescribing glasses, contact lenses, low vision devices or visual therapy.
- Optometrists work in private practices, hospitals, eye clinics or at universities as academics and researchers.
Physiotherapy is an excellent career choice for the enthusiastic individual with compassion for others. Physiotherapists are involved in health care with emphasis on a physical approach to maintaining and achieving the physical, psychological, and social well-being of communities and individuals. Career opportunities are available in a range of settings, including hospitals, private practice, schools for children with special needs, rehabilitation units, old-age homes, and with sports teams competing at various levels.

Dieticians apply the science of food and nutrition to improve health, quality of life and performance, and to prevent and treat disease. Dieticians work in hospitals, clinics, private practice, government institutions, the media and journalism, catering firms, the food industry, and as nutrition representatives and researchers. Dieticians specialise in therapeutic nutrition, community nutrition, sports nutrition, food service management, and nutrition research. Dietetics as a career includes a broad spectrum of infinite possibilities – from counselling healthy individuals to treating critically ill patients in hospital.

BOccTher Enquiries: +27 51 401 2829 | 3739 | 7513 | 7515 | fhsapplications@ufs.ac.za | Fax2email: +27 86 579 5154 or +27 86 652 4872.

Occupational Therapy focuses on supporting human wellness and participation in life through engagement in activities. An occupational therapist’s knowledge is thus grounded in the science of activity. All activities (play, training, work, recreation, and interpersonal relations) that a person participates in daily life will fall within the scope of the occupational therapist. An occupational therapist treats a client or group according to their individual and unique needs by means of activities that can be therapeutically adapted and graded through specific techniques, as well as therapeutic apparatus, splints, and assistive devices. The context and environment in which people function, form an important part of the occupational therapist’s evaluation and intervention. Occupational therapists work, among other places, in hospitals, private practice, schools, pre-primary schools, clinics, and old-age homes.

SCHOOL OF NURSING

Nurses, who have completed their BSocSci (Nursing) at the School of Nursing at the University of the Free State, are in high esteem globally. Numerous excellent job opportunities exist after completion of the degree. Students exit with a general nursing and midwifery registration at the South African Nursing Council (SANC).

Selection procedure

- All applications for admission to BSocSci (Nursing) are subject to selection.
- Student numbers are determined by the limited number of clinical facilities.
- All prospective students must submit their applications, together with the selection form, to the University of the Free State.
- The closing date for all BSocSci (Nursing) applications is 31 July 2019.
- No late applications will be considered.
- All prospective students for BSocSci (Nursing) must write the National Benchmark Tests (NBT). More information regarding this test may be obtained from www.nbt.ac.za or 021 650 3523.

Selection method

- Preliminary selection will take place after the closing date for applications as set out in the selection policy.
- Mathematics OR Mathematical Literacy AND Physical Sciences OR Life Sciences, language of instruction and any three other subjects are required for BSocSci (Nursing). Life Orientation is excluded, as it is considered separately.
- English or Afrikaans is compulsory.
- A minimum admission point of 30 is required. This is calculated based on achievement in the above six subjects, together with one mark for Life Orientation above achievement level 5.
- A minimum achievement level is required for the two compulsory science subjects (i.e. Mathematics or Mathematical Literacy, Physical Sciences, and Life Sciences) to calculate the selection mark.
- Final selection is confirmed in January 2020, after the Grade 12 NSC and IEB results have been obtained.
  - If you apply in hard copy, the application form, selection form, medical report, health questionnaire, and certified copies of ID and results must reach the university simultaneously. If you apply online, the selection form, medical report, health questionnaire, results, and certified copies of ID must be uploaded electronically.
