"I love computers because they make our lives easier. Like for instance I am doing ACT in the comfort of my home. No travelling. I have a small baby; I don't have stress of who is going look after my baby when I am in class. I have time to breastfeed her and carry on with my work. I also love you Estie, because you are making the use of computer, hassle free for us. Some of us we are not that conversant with computers. Thank you Estie, thank you UFS".
