PORTAL FOR DIGITAL ONBOARDING

The digital certificates that are used on SigningHub are considered to be high trust. In order to issue high trust signatures, LAWtrust adheres to the WebTrust standard.

WebTrust is an international standard that specify the minimum requirements the vendor must adhere to when issuing high trust signatures.

An important WebTrust requirement is the requirement for identity verification. Before a user can be issued with a digital certificate the user must pass through a strong identity verification process. To assist users to easily pass through the identity process, the Portal for Digital Onboarding guides users through the enrolment process.

READY TO ENROL!

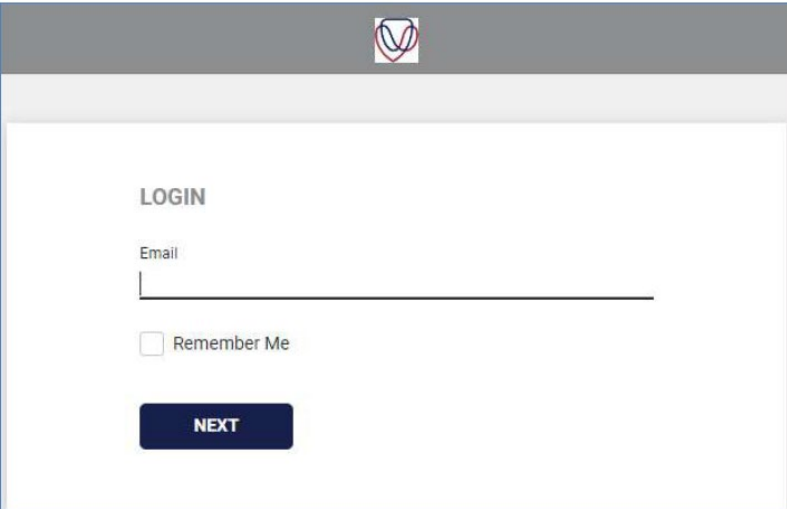

To complete the enrolment process, one of the following documents will be required:

- ✓ South African ID Book;
- ✓ South African ID Card;
- ✓ Passport;
- ✓ or ID cards from other countries.

THE ENROLMENT PROCESS

The following section will provide step-by-step instructions on enrolling yourself with the Altron PDO

- Once enrolled/registered successfully, browse to the following location to open the login screen: <https://sign.ufs.ac.za/>.
- Enter your UFS email address (xxx@ufs.ac.za) and click Next.
- The application is configured for a single sign-on (SSO), so it will automatically use your active directory credentials to log in.
