HOW DO I FIND BOOKS AND JOURNALS?

Go to the Library’s website: library.ufs.ac.za and select the Catalogue (Kovsiecat) in the menu on the left.

Now you can start searching for your book or paper journal. You can use keywords, search by subject, search for the author’s name or the title of the book / journal.
This is the basic search screen:

Your search result list will provide you with all the information you need to find the book / journal.

The item will be available on the shelf when the status is Check Shelf. Make a note of the shelf number (Shelf No) and check the location by clicking on the location link.
An e-book record will also provide a link to the full text:
