

iKudu: WG1 baseline survey

This questionnaire pertains to the first deliverable of WG1 and asks you to reflect on the beginning of the project.

Please revisit your institution's Appreciative Inquiry (AI) report, particularly focusing on the DEFINE and DISCOVER stages. Additionally, review the stakeholder model to help recall and reflect on the period when the project proposal was developed and the project began.

Please respond to the questions as informatively and concisely as possible.

1. Please respond to the questions that follow, reflecting on the situation at your institution at the start of the project.
You might want to also look at the description of your institution in the project application to remind yourself.

- 1.1 Recognise and appreciate what was already happening prior to the iKudu project in terms of curriculum internationalisation and curriculum transformation/renewal at your institution.**

- 1.2 Who were the champions and enablers of curriculum internationalisation and transformation prior to 2020? Share good examples of curriculum internationalisation at your institution prior to the project.**

- 1.3 How was curriculum internationalisation visible in institutional policies, practice and discourse at that time?**

- 1.4 What insights do you have into why all or some aspects of curriculum internationalisation and transformation were important at the institution?**

1.5 What were the reasons and expectations at your institution when you decided to become part of the project application?

2. Please provide details about your institution and yourself:

2.1 On behalf of which institution are you submitting the content?

☐ AUAS
(Netherland)

☐ CU (England)

☐ CUT (SA)

☐ DUT (SA)

☐ THUAS
(Netherlands)

☐ UA (Belgium)

☐ UFS (SA)

☐ UL (SA)

☐ UNIVEN (SA)

☐ US (Italy)

2.2 Although we appreciate that the responses might have been generated collectively, please provide the name and contact detail of the person that we can follow up with, if required.

Thank you for providing us with information to complete the deliverables in the project. It is much appreciated.
Please submit your responses, and also confirm submission.
