Bold Person You Are

Some have refused to test

Some have hidden themselves

Some wanted to infect others intentionally

But you, you were bold enough to show patriotism.

You have allowed yourself to be quarantined

To be isolated from your family, your loved ones, your community for 21 days.

You did this because you love them you care for them

And you are empathetic for them.

Look at you now, you have completed the time frame

You have completed 21 days in isolation

Look at you now, you have recovered from the virus

You are now free to go home without infection... bold person you are!
