

SHORT LEARNING PROGRAMMES offer an alternative to formal qualifications. For scholars who do not wish to complete a degree, but rather want to accumulate skills and knowledge for a specific purpose, this is the pathway for you.

Short Learning Programmes are designed to offer you flexible learning opportunities relevant to your desired outcome.

JUNE 2026						
SLP NAME	DATES	DURATION OF SLP	MODE OF DELIVERY	SYSTEM LINK	DESCRIPTION	COST
INTRODUCTION TO PROPERTY DEVELOPMENT	JUNE	4 weeks	Online	APPLY NOW	The programme aims to provide introductory knowledge regarding the functioning of the property market, property economics, the development process, property investment and decision-making, property valuation and property management. This programme seeks to provide an introduction to property development and its application in the built environment.	R 8 900
AI & LAW TECH ESSENTIALS	JUNE	8 weeks	Online	APPLY NOW	This SLP equips participants with the essential knowledge to integrate AI into legal practice. It starts with an overview of AI technologies like predictive analytics and natural language processing, highlighting their potential to enhance legal services' efficiency and accuracy. Participants will learn to use AI tools for automating tasks such as legal research and document review, with case studies illustrating these technologies' practical benefits. The programme addresses the ethical implications of AI in law, including bias and transparency, and develops strategies to ensure responsible AI use. Participants will explore the latest legal technology innovations and their transformative impact on the legal industry. The final theme provides guidelines for implementing AI in legal practices, focusing on compliance with data protection laws and ethical standards.	R11 000
