

UFS Qwaqwa Hosts First Erasmus+ Staff Cohort from VSB Technical University of Ostrava

The Directorate for International Partnerships and Relations at the Qwaqwa campus, together with the Faculty of Natural and Agricultural Sciences, is proudly hosting the first cohort of staff from VSB Technical University of Ostrava under the Erasmus+ Inter-Institutional Agreement (Key Action 1).

From 24–28 November, the delegation is engaging in joint research planning, knowledge exchange, academic networking, and exploring new opportunities for collaboration. Their visit includes meetings with campus leadership and directors of centres of excellence, research seminars, lectures, fieldwork, and engagements with colleagues from our faculty.

We look forward to strengthening this partnership and building impactful international collaborations.
